This document constitutes a base prospectus (the **Base Prospectus**) for the purposes of Article 8 of Regulation (EU) 2017/1129 of the European Parliament and of the Council of 14 June 2017 (the **Prospectus Regulation**).

This Base Prospectus has been approved by the Swedish Financial Supervisory Authority Finansinspektionen (the **Swedish FSA**), as competent authority under the Prospectus Regulation. The Swedish FSA only approves this Base Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation. Such approval should not be considered as an endorsement of the Issuer or the quality of the Notes and the Participation Certificates (as defined below) that are the subject of this Base Prospectus. Investors should make their own assessment as to the suitability of investing in the Notes and/or the Participation Certificates. Such approval relates only to the Notes and/or the Participation Certificates which are to be offered to the public in any member state of the European Economic Area (**EEA**).

This Base Prospectus has been prepared for the issuance of the following instruments (the **Instruments**): (i) (senior or subordinated) German fixed rate bearer notes and (senior or subordinated) Luxembourg fixed rate bearer notes (the **Bearer Notes**) and (senior or subordinated) Luxembourg fixed rate registered notes and (senior or subordinated) Maltese fixed rate registered notes (the **Registered Notes**, the Bearer Notes together with the Registered Notes, the **Notes**) and (ii) bearer participation certificates (the **Bearer Participation Certificates**) and registered participation certificates (the **Registered Participation Certificates**; the Registered Participation Certificates together with the Bearer Participation Certificates, the **Participation Certificates**) issued from time to time by E.Quikk plc (the **Issuer**). In addition, the purpose of this Base Prospectus is the offer to the public of the Notes as well as of the Participation Certificates described herein – and, with respect to the Notes and the Bearer Participation Certificates, the admission to trading.

This Base Prospectus is to be read together with the information provided in (a) the supplements to this Base Prospectus, if any (the **Supplements**), (b) all other documents whose information is incorporated herein by reference (see the section entitled "*Documents incorporated by Reference*") as well as (c) the respective Final Terms (the **Final Terms**) prepared in accordance with each issuance of Notes or Participation Certificates.

The Issuer may request the Swedish FSA in accordance with Article 25 of the Prospectus Regulation to provide the competent authorities in the Republic of Austria, the Kingdom of Belgium, the Republic of Croatia, the Republic of Cyprus, the Czech Republic, the French Republic, Hungary, the Italian Republic, the Republic of Malta, the Netherlands, the Republic of Ireland, the Republic of Poland, Romania, the Slovak Republic, the Republic of Slovenia, the Kingdom of Spain (and together with the Kingdom of Sweden collectively, the **Public Offer Jurisdictions** and each, a **Public Offer Jurisdiction**) with a certificate of approval attesting that the Base Prospectus has been drawn up in accordance with the Prospectus Regulation. The publication of the Base Prospectus will be made at least one working day prior to the commencement of an offer to the public of the Instruments in the relevant Public Offer Jurisdiction.

Supplements (if any) to this Base Prospectus will be approved by the Swedish FSA and published in accordance with Article 21 of the Prospectus Regulation. Any websites included in this Base Prospectus are for information purposes only and do neither form part of the Base Prospectus nor has such information been reviewed or approved by the Swedish FSA. The Base Prospectus is valid for a period of twelve months from the date hereof. The obligation to supplement the Base Prospectus in the event of significant new factors, material mistakes or material inaccuracies does not apply when the Base Prospectus is no longer valid.

The terms and conditions of the Instruments are complex. An investment in the Instruments is suitable only for investors who are in a position to evaluate the risks and who have sufficient resources to be able to bear any losses which may result from such investment. Some types of the Instruments (i.e the Participation Certificates) are highly speculative according to its structure and therefore involve a high degree of risk, including the risk of a total loss of all capital invested.

The Issuer, E.Quikk plc, having its registered office at 77 Sir John Rogerson's Quay, Block C, Grand Canal Docklands, Dublin (IE), D02 VK60, Republic of Ireland, intends to continuously and repeatedly issue securities (i.e. the Instruments) in the form of non-equity securities under and in connection with the Base Prospectus, which comprise the following types of Instruments:

Notes:

- i. Senior German fixed rate bearer notes;
- ii. Subordinated German fixed rate bearer notes;
- iii. Senior Luxembourg fixed rate bearer notes;
- iv. Subordinated Luxembourg fixed rate bearer notes;
- v. Senior Luxembourg fixed rate registered notes;
- vi. Subordinated Luxembourg fixed rate registered notes;
- vii. Senior Maltese fixed rate registered notes; and
- viii. Subordinated Luxembourg fixed rate registered notes.

Participation Certificates:

- i. Participation Certificates in bearer form; and
- ii. Participation Certificates in registered form.

The Notes are subject to, and governed by, the relevant terms and conditions fully described in the section entitled "*Terms and Conditions of the Notes*" (the **Notes Conditions**) and the Participation Certificates are subject to, and governed by, the relevant terms and conditions fully described in the section entitled "*Terms and Conditions of the Participation Certificates*" (the **Participation Certificates Conditions**). The terms "Notes" and "Bonds" are used interchangeably in this Base Prospectus and the respective Notes Conditions and have the same meaning.

The Instruments may be issued in the form of public offerings (non-exempt offers) or private placements (exempt offers). To the extent any Distribution Agent is involved in the relevant issue of the Instruments, this will be specified in the relevant Final Terms. A maximum aggregate principal amount of the Instruments at any time outstanding under the Base Prospectus has not been set.

Instruments may be issued on a continuous basis in so-called tranches, each tranche consisting of Instruments which are identical in all respects. One or more tranches, which are expressed to be consolidated and forming a single series and identical in all respects, but having different issue dates, interest commencement dates, issue prices and dates for first interest payments may form a series of Instruments.

Instruments will be issued in such denominations as may be agreed between the Issuer and the relevant Distribution Agent(s) and as indicated in the Final Terms. Instruments may be issued at an issue price which is at par or at a discount to, or premium over, par, as stated in the Final Terms (and may include accrued interest). The Instruments are freely transferable; with respect to Instruments in registered form, certain specific requirements in terms of the transferability apply (as set out in the relevant Notes Conditions or Participation Certificates Conditions).

Application with respect to each tranche of Instruments may be made to list Instruments on (i) the Euronext Paris, the Euronext Brussels, the Euronext Dublin, the Borsa Italiana, the Vienna MTF market of the Vienna Stock Exchange, the Prospects MTF of the Malta Stock Exchange, the Nasdaq Stockholm and the Nordic Growth Market NGM or any other unregulated market(s) and/or organised trading facilities (OTF) within the meaning of Directive 2014/65/EU of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments and amending Directive 2002/92/EC and Directive 2011/61/EU or (ii) the regulated markets of the Euronext Paris, the Euronext Brussels, the Euronext Dublin, the Borsa Italiana, the Irish Stock Exchange, the Vienna Stock Exchange, the Malta Stock Exchange and the Nasdaq Stockholm or any other regulated market within the meaning of Directive 2014/65/EU of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments and amending Directive 2002/92/EC and Directive 2011/61/EU.

Instruments will be accepted for clearing through one or more clearing systems as specified in the Final Terms and subject to its form (bearer form or registered form). These systems will include those operated by Clearstream Banking AG, Clearstream Banking S.A., Euroclear Bank SA/NV, Central Securities Depository of the Malta Stock Exchange, OeKB CSD, SIX SIS AG, Euroclear Sweden AB, and Euronext Securities Milan (Monte Titoli S.P.A.).

According to the relevant Final Terms, flatexDEGIRO Bank AG or Baader Bank AG (or any other credit institution mandated) will act as fiscal agent with respect to Instruments cleared through Clearstream Banking AG or Clearstream Banking S.A. and Euroclear Bank SA/NV.

In case an investor finances the acquisition of Instruments with a loan, it not only has to accept the loss incurred if his expectations are not met, but also has to pay interest on and repay the loan and his risk of loss increases considerably. Before acquiring the Instruments and taking out the loan, the investor must check his financial circumstances to see whether it has sufficient funds to pay interest and, if necessary, repay the loan in the short term, even if losses occur.

II. THE INSTRUMENTS

This sub-section "*The Instruments*" is an abstract description of the possible structures of instruments the Issuer may issue under this Base Prospectus. In accordance with this Base Prospectus and the applicable terms and conditions, the Issuer may issue either (senior or subordinated) German fixed rate bearer notes, (senior or subordinated) Luxembourg fixed rate bearer notes, (senior or subordinated) Luxembourg fixed rate registered notes or (senior or subordinated) Maltese fixed rate registered notes as well as participation certificates in bearer form and participation certificates in registered form.

A brief overview of certain elements of the Notes and the Participation Certificates is set out below. All capitalised terms in this sub-section "*The Instruments*" which are not otherwise defined herein have the same meaning as in the Notes Conditions or Participation Certificates Conditions (as applicable).

DESCRIPTION OF THE NOTES

1. General Features of the Notes

Status

The obligations of the Issuer under the Notes are senior unsecured and unsubordinated ranking pari passu without any preference among themselves and pari passu with all other, present and future, unsecured and unsubordinated obligations of the Issuer, unless such obligations are given priority under mandatory provisions of statutory law.

To the extent the Notes are set up as subordinated Notes, the Notes constitute direct, unsecured and subordinated obligations of the Issuer. This means that the obligations of the Issuer under the Notes will rank (i) junior to all present or future unsubordinated instruments or obligations of the Issuer, (ii) pari passu among themselves, and (iii) senior to all present or future

obligations under any CRR or CRR II Instruments, and all other subordinated instruments or obligations of the Issuer ranking or expressed to rank subordinated to the obligations of the Issuer under the Notes.

Form and Securitisation

The Notes issued in accordance with Option I, Option II, Option III and Option IV will be issued in bearer form only and may be represented by a Permanent Global Note or a Temporary Global Note exchangeable for a Permanent Global Note. Notes in definitive form and interest coupons will not be issued.

The Notes issued in accordance with Option V and VI are in registered form. Ownership in respect of the Notes is established by the registration in the Issuer Register. Rights and title of the Noteholders (and its assignees in and to the Notes) shall be transferable only upon notation of such transfer in the Register.

The Notes issued in accordance with Option VII and Option VIII are in registered and dematerialised form and will be represented in uncertificated form by the appropriate entry in the Electronic Register maintained on behalf of the Issuer at the relevant CSD. Ownership in respect of the Notes is established by the appropriate entry in the Electronic Register. For as long as any of the securities issued by the company shall be and remain dematerialised under the Financial Markets Act (Cap 345 of the Laws of Malta) the terms and conditions relating to such securities including without prejudice to the generality of the foregoing, their issuance, transfer, exchange, redemption and or cancellation shall be governed in accordance with the applicable rules and procedures set out by the relevant central securities depository providing dematerialisation and any other provision shall apply only to the extent that it is not inconsistent with such rules and procedures.

Payment of Distributions and Interest

The Notes to be issued under this Base Prospectus pay fixed amounts of distributions (or interest, as applicable) specified in the relevant Final Terms. The Notes provide for only one rate of distributions (or interest rate, as applicable) for each relevant period (but, in addition, as applicable, with a steepening mechanism). Distributions (or interest) will be scheduled to be paid either annually or semi-annually (or as otherwise determined in the Final Terms) in arrears. The respective amount of distributions (or interest) falls due for payment on the relevant distribution payment date (or interest payment date, as applicable).

In addition (and if applicable to the relevant Final Terms), the Notes may (temporarily) pay an increased interest rate subject to the fulfilment of certain conditions stipulated in the relevant Final Terms.

The payment of distributions (or interest) may, in case applicable according to the relevant Final Terms, subject to the provisions relating to a (qualified) subordination clause and pre-insolvency enforcement block.

Governing Law

Notes issued in connection with Option I and Option II shall be governed by, and shall be construed exclusively in accordance with, German law.

Notes issued in connection with Option III, Option IV, Option V and Option VI shall be governed by, and shall be construed exclusively in accordance with, Luxembourg law except for (i) the qualified subordination clause (if applicable when set up as subordinated notes) as governed by the provision *Status* (or *Ranking*, as applicable), which shall be applying *mutatis mutandis* in the meaning to the laws of Germany (unless mandatory rules and laws of another

EU member state apply) and (ii) the provision entitled *Meeting of Noteholders* which shall be subject to the laws of Luxembourg (unless mandatory rules and laws of another EU member state apply).

Notes issued in connection with Option VII and Option VIII shall be governed by, and shall be construed exclusively in accordance with, Maltese law except for the qualified subordination clause (if applicable when set up as subordinated notes) as governed by the provision *Status*, which shall be applying mutatis mutandis in the meaning to the laws of Germany (unless mandatory rules and laws of another EU member state apply).

2. Special Features of the Notes

(Qualified) Subordination clause and pre-insolvency enforcement block (each in the terminology of the court decision of the German Federal Court of Justice of 6 December 2018 (Reference: IX ZR 143/27))

Subordinated Notes may provide (to the extent applicable according to the relevant Final Terms) for a (qualified) subordination clause and may, in addition, provide for a pre-insolvency enforcement block. In such scenario, the claims arising from the subordinated Notes create subordinated creditor rights in relation to claims of other creditors of the Issuer. This means that, in order to avoid over-indebtedness within the meaning of section 17 of the German Insolvency Code or imminent insolvency within the meaning of section 18 of the German Insolvency Code or insolvency within the meaning of section 19 of the German Insolvency Code as amended (pre-insolvency enforcement block) of the Issuer under insolvency law within the meaning of sections 17, 18 and/or 19 of the German Insolvency Code, only satisfaction of lower-ranking claims until the claims of the non-lower-ranking insolvency creditors (see section 38 of the German Insolvency Code) have been satisfied and in the event of liquidation proceedings being conducted pursuant to section 39 para. (2) of the German Insolvency Code, the Issuer must have a right to claim subordination in relation to claims of other creditors of the Issuer with regard to all present and future claims of Noteholders arising from the subordinated Notes. These subordinated claims include claims with respect to payment of interest and repayment of the capital. The respective subordination is agreed in such a way that all claims of Noteholders will only be satisfied in case, and subject to the fact, that all claims and demands of all existing and future creditors of the Issuer described in section 39 para. (1) sentence 1 (nos. 1 to 5) of the German Insolvency Code have been satisfied.

The pre-insolvency enforcement block applies to the period before the opening of possible insolvency proceedings. Consequently, the Noteholder may already not demand fulfilment of existing claims arising from the subordinated Notes if the Issuer is over-indebted or insolvent or threatens to become so at the time of the Noteholder's demand for payment.

With reference to the above, the pre-insolvency enforcement block can lead to a permanent, indefinite non-performance of the Noteholder's claims.

This leads first of all to the fact that the Noteholder's claims are not satisfied until the claims of the non-lower-ranking insolvency creditors (see section 38 of the German Insolvency Code) have been satisfied. All creditors who at the time of the opening of the insolvency proceedings have a justified claim to assets (here: a claim for payment) against the debtor (here: the Issuer) qualify as insolvency creditors.

In addition, the Noteholder's claims will only be satisfied after the claims of the subordinate insolvency creditors (see section 39 of the German Insolvency Code) have been satisfied, provided that distributable insolvency assets still exist. The subordinated claims within the meaning of section 39 para. (1) of the German Insolvency Code are

- (1) the interest and default surcharges on claims of the creditors of the insolvency proceedings which have been running since the opening of the insolvency proceedings;
- (2) the costs incurred by the individual creditors of the insolvency proceedings by their participation in the proceedings;
- (3) fines, administrative fines and periodic penalty payments as well as such incidental consequences of a criminal offence or administrative offence which make it obligatory to pay money;
- (4) claims for free performance by the debtor; and
- (5) under the conditions laid down in paragraphs 4 and 5, claims for repayment of a shareholder's loan or claims arising out of legal acts economically equivalent to such a loan.

The Noteholder may assert claims arising from the subordinated Notes, in particular the claim to payment of interest and repayment of the capital, outside of insolvency proceedings of the Issuer only from any (a) future profits, (b) a liquidation surplus or (c) from other free assets of the Issuer.

However, the Notes Conditions do not include a waiver agreement or a declaration by the Noteholder of a waiver with regard to claims which exist in connection with the subordinated Notes in the Noteholder's favour.

In the event of a payment by the Issuer in breach of a payment prohibition, the Issuer is entitled to demand repayment of the amount received from the payee and to take legal action.

Thus, the payments under the subordinated Notes may, in case applicable according to the relevant Final Terms, be subject to the provisions relating to a (qualified) subordination clause and pre-insolvency enforcement block.

Redemption

Subject to certain special events as determined in the applicable Final Terms, the Notes will be redeemed at their respective redemption amount at their stated maturity.

Early Redemption

If specified in the relevant Final Terms, the Notes may be redeemed prior to maturity for reasons of taxation or upon the occurrence of an event of default. In addition, the relevant Final Terms may specify a put option of the Noteholders. A put option gives the Noteholder the right to require the Issuer to redeem its Notes on a specified redemption date.

Moreover, the Notes may include a call option of the Issuer. A call option gives the Issuer the right (but not the obligation) to redeem the Notes on specified call redemption date(s). The respective call redemption amount payable on exercise of the call option will be set out in the applicable Final Terms.

Meeting of Noteholders

The Notes may contain provisions pursuant to which Noteholders may agree by resolution to amend the Notes Conditions and to decide upon certain other matters regarding the Notes. Resolutions of Noteholders properly adopted by vote taken in a meeting in accordance with the Notes Conditions are binding upon all Noteholders.

Substitution of the Issuer

The Notes may provide for a mechanism to entitle the Issuer to substitute for itself as the Issuer another person. The latter mentioned legal mechanism is subject to certain mandatory requirements as stipulated in the relevant Final Terms. The aforementioned substitution may apply without the requirement of a given consent of the Noteholders.

DESCRIPTION OF THE PARTICIPATION CERTIFICATES

1. General Description of the Participation Certificates

In General, a (profit) participation certificate is a form of investment between a share and a bond. The instrument securitises the claim of repayment in the amount of the nominal value, usually also the right to participate in the net profit of the company issuing the (profit) participation certificate in a certain predefined proportion. However, the right to vote in a meeting of shareholders is excluded. Further, in the event of bankruptcy or liquidation of the relevant, the repayment claims of (profit) participation certificate holders can only be asserted after all other creditors have been fully satisfied. Hence, (profit) participation certificates are, in terms of its status, generally subordinated, i.e. and described before, in the event of insolvency, the liabilities will only be serviced subsequent to the claims of the other creditors. In addition and albeit the circumstances that terms and condition of (profit) participation certificate in general provide for a mechanism to pay out an annual distribution, such distribution is not guaranteed and depends – similar to dividends on shares – on the issuers profits or losses.

In deviation to the description in the paragraph above in terms of repayment of the relevant nominal amount invested by an investor, the Participation Certificates issued in connection with this Base Prospectus provide for a mechanism according to which the investor participates in the (annual) loss of the Issuer through a reduction of the repayment claim (see sub-sections "*Loss Participation, Replenishment and Claim for Backpayment*" and "*Redemption*"). To the extent applicable, the loss may only be temporary and can be replenished by corresponding later profits (see sub-section "*Loss Participation, Replenishment and Claim for Backpayment*").

The following simplified examples of different profit participation rights and their development over time are only for illustration purposes.

These are merely non-binding simplified examples of possible courses of investments in participation certificates. The possible development of investments in profit participation certificates may, of course, vary considerably depending on the respective balance sheet loss/accumulated loss of the Issuer (if any) and the aggregate amount of the profit participation rights issued or other instruments of equal ranking. Insofar the examples cannot describe all potential scenarios that might take place but they are rather simplified examples for the scenarios (i) no loss participation takes place, (ii) interim loss participation (unrealized if during the duration of the profit participation certificates no call takes place and or maturity takes place) and (ii) loss participation takes place at maturity.

Rights and title of the Participation Certificate Holders (and its assignees in and to the Participation Certificates) shall be transferable only upon notation of such transfer in the register.

Governing Law

The Participation Certificates shall be governed by, and shall be construed exclusively in accordance with, Luxembourg law except for the qualified subordination clause, which shall be applying mutatis mutandis in the meaning to the laws of Germany unless mandatory rules and laws of another EU member state apply and the provision with respect to meetings of Participation Certificate Holders to the extent that mandatory rules and laws of another EU member state apply.

3. General Features of the Participation Certificates

(Qualified) Subordination clause and pre-insolvency enforcement block (each in the terminology of the court decision of the German Federal Court of Justice of 6 December 2018 (Reference: IX ZR 143/27))

Analogously to German insolvency law principles and provisions, a (qualified) subordination clause may apply to the Participation Certificates, and in addition, the Participation Certificates Conditions provide for a pre-insolvency enforcement block. In such scenario, the claims arising from the Participation Certificates create subordinated creditor rights in relation to claims of other creditors of the Issuer. This means that, in order to avoid over-indebtedness within the meaning of section 17 of the German Insolvency Code or imminent insolvency within the meaning of section 18 of the German Insolvency Code or insolvency within the meaning of section 19 of the German Insolvency Code as amended (pre-insolvency enforcement block) of the Issuer under insolvency law within the meaning of sections 17, 18 and/or 19 of the German Insolvency Code, only satisfaction of lower-ranking claims until the claims of the non-lower-ranking insolvency creditors (see section 38 of the German Insolvency Code) have been satisfied and in the event of liquidation proceedings being conducted pursuant to section 39 para. (2) of the German Insolvency Code, the Issuer must have a right to claim subordination in relation to claims of other creditors of the Issuer with regard to all present and future claims of Participation Certificate Holders arising from the Participation Certificates. These subordinated claims include claims with respect to payment of interest and repayment of the capital. The respective subordination is agreed in such a way that all claims of Participation Certificate Holders will only be satisfied in case, and subject to the fact, that all claims and demands of all existing and future creditors of the Issuer described in section 39 para. (1) sentence 1 (nos. 1 to 5) of the German Insolvency Code have been satisfied.

The pre-insolvency enforcement block applies to the period before the opening of possible insolvency proceedings. Consequently, the Participation Certificate Holder may already not demand fulfilment of existing claims arising from the Participation Certificates if the Issuer is

over-indebted or insolvent or threatens to become so at the time of the Participation Certificate Holder's demand for payment.

With reference to the above, the pre-insolvency enforcement block can lead to a permanent, indefinite non-performance of the Participation Certificate Holder's claims.

This leads first of all to the fact that the Participation Certificate Holder's claims are not satisfied until the claims of the non-lower-ranking insolvency creditors (see section 38 of the German Insolvency Code) have been satisfied. All creditors who at the time of the opening of the insolvency proceedings have a justified claim to assets (here: a claim for payment) against the debtor (here: the Issuer) qualify as insolvency creditors.

In addition, the Participation Certificate Holder's claims will only be satisfied after the claims of the subordinate insolvency creditors (see section 39 of the German Insolvency Code) have been satisfied, provided that distributable insolvency assets still exist. The subordinated claims within the meaning of section 39 para. (1) of the German Insolvency Code are

- (1) the interest and default surcharges on claims of the creditors of the insolvency proceedings which have been running since the opening of the insolvency proceedings;
- (2) the costs incurred by the individual creditors of the insolvency proceedings by their participation in the proceedings;
- (3) fines, administrative fines and periodic penalty payments as well as such incidental consequences of a criminal offence or administrative offence which make it obligatory to pay money;
- (4) claims for free performance by the debtor; and
- (5) under the conditions laid down in paragraphs 4 and 5, claims for repayment of a shareholder's loan or claims arising out of legal acts economically equivalent to such a loan.

The Participation Certificate Holders may assert claims arising from the Participation Certificates, in particular the claim to payment of interest and repayment of the capital, outside of insolvency proceedings of the Issuer only from any (a) future profits, (b) a liquidation surplus or (c) from other free assets of the Issuer.

However, the Participation Certificates Conditions do not include a waiver agreement or a declaration by the Participation Certificate Holder of a waiver with regard to claims which exist in connection with the Participation Certificates in the Participation Certificate Holder's favour.

In the event of a payment by the Issuer in breach of a payment prohibition, the Issuer is entitled to demand repayment of the amount received from the payee and to take legal action.

Thus, the payments under the Participation Certificates are subject to the provisions relating to a (qualified) subordination clause and pre-insolvency enforcement block.

Distributions

The Participation Certificates entitle the Participation Certificate Holders to an annual distribution. The amount of distribution to be paid corresponds to the equivalent of the product of (i) the aggregate nominal amount and (ii) the distribution rate. Each distribution (as reflected in the relevant financial statements and due for payment on the relevant distribution payment date) is to be made for the respective previous financial year of the Issuer. Distribution will not accrue in respect of each distribution period. Distribution with respect to Participation Certificates are subject to the requirement that it may not result in or increase any accumulated annual loss. The entitlement to distribution shall be reduced or shall lapse to the extent as it

would result in or increase an accumulated annual loss. In case the entitlement to a Distribution is reduced as a result of the latter limitation, the reduction shall be made in proportion to the respective distribution claims under the Participation Certificates and other outstanding subordinated liabilities that rank *pari passu* with the Participation Certificates and which provide for a corresponding legal mechanism. There will be no additional payment in future years (not cumulative). In addition, the Issuer may decide to pay interim distributions.

Only for illustration purposes the following examples of the interest payment of a profit participation certificate are shown below.

These are merely non-binding examples of possible courses of investments in participation certificates. The possible development of investments in profit participation certificates may, of course, vary considerably depending on the respective net loss/accumulated deficit of the issuer and the sum of the profit participation rights issued or other instruments of equal rank.

Example

Nominal Amount of each participation certificate:	EUR 10,000
Interest p.a. (annually payment of interest):	4 per cent.

The Participation Certificate Holders participate in the annual loss of a financial year to the full amount. In the amount of the relevant annual loss, the repayment claim of the Participation Certificate Holders shall be reduced [in the ratio in which the aggregate nominal amount of the Participation Certificates stands to the total amount of participatory capital shown in the balance sheet (taken from the respective financial statements) and other outstanding subordinated liabilities that provide for a corresponding loss participation, or senior to any other loss transferable instruments of the Issuer (including, but not limited, to all individual items of equity), if applicable up to the full amount. Losses carried forward and accumulated losses from previous financial years and/or the current financial year shall not (subject to the Final Terms) be taken into account. The Issuer is obliged to avoid reporting an annual loss by using reserves (to the extent legally permissible) or profits carried forward.

Loss Participation, Replenishment and Claim for Backpayment

Each Participation Certificate participates in any annual loss of the Issuer in the amount of up to the value of the nominal amount of each Participation Certificate. The participation in any annual loss of the Issuer is limited to the value of the nominal amount of each Participation Certificate. A participation of any Participation Certificate Holder itself beyond its investment in the Participation Certificates is excluded and no personal liability will apply. The repayment claim of the Participation Certificate Holders shall be either reduced in the amount of the accumulated loss in the ratio in which the total nominal amount of the profit Participation Certificates stands to the total participation certificate capital shown in the financial statements and other outstanding subordinated liabilities which provide for a corresponding loss participation, or senior to any other loss transferable instruments of the Issuer (including, but not limited, to all individual items of equity), if necessary up to the full amount. To the extent applicable according to the relevant Final Terms, losses carried forward and accumulated losses from previous years shall not be taken into account. According to the Participation Certificates Conditions, a participation of a Participation Certificate Holder in an annual loss stipulates a (conditional) right to replenishment and a (conditional) claim for backpayment (which continues for three financial years after the end of the term of the Participation Certificates). Repayment claims are to be replenished up to the total nominal amount of the Participation Certificates in the following years, if and to the extent that this does not result in, or increase, an annual loss. In case the amount stemming from an annual profit is not sufficient for the full replenishment of the Participation Certificates and other outstanding subordinated liabilities of the Issuer which rank *pari passu* with the Participation Certificates and provide for a corresponding provision, the replenishment of the capital of the Participation Certificates shall be carried out

proportionately in the ratio of their total aggregate nominal amount to the aggregate nominal amount of the other outstanding subordinated liabilities of the Issuer. This shall also apply accordingly to other participation certificates to be issued in the future, provided that their respective terms and conditions provide for a corresponding replenishment claim. In addition, and to the extent a participation in an annual loss at the end of the term of the Participation Certificates (or in case of a premature redemption) had occurred, an annual profit would arise in the following three financial years without corresponding replenishments, a claim for backpayment, i.e. a claim with respect to any differential amount between the aggregate nominal amount of the Participation Certificates and the amount repaid (on the respective day of redemption) due to a reduction of the repayment claim pursuant to the Participation Certificates Conditions and which is to be paid in arrears, shall be satisfied by the Issuer as follows: The claim for backpayment under the Participation Certificates shall first be satisfied before any other appropriation of profits is made. To the extent the relevant annual profit is not sufficient to make a full subsequent payment in respect of the Participation Certificates and other outstanding subordinated liabilities of the Issuer ranking *pari passu* with the Participation Certificates and provide for a corresponding provision, the subsequent payment shall be made *pro rata* in the following ratio: Claim for backpayment to the claim for subsequent payment under the other outstanding subordinated liabilities of the Issuer.

Redemption

The Participation Certificates are to be redeemed at their stated maturity as set out in the relevant Final Terms. The redemption amount to be paid is subject to the mechanism provided for in the provision entitled "*Loss Participation, Replenishment of Repayment Claims, Claim for Backpayment*".

Early Redemption

To the extent set out in the Participation Certificates Conditions of the relevant Final Terms, the Issuer has the right to call the Participation Certificates prior to their stated maturity at the option of the Issuer (so-called call option) on one or several dates determined beforehand or subject to the occurrence of an event (balance sheet event, illegality event and tax event) specified in the Participation Certificates Conditions. The redemption amount to be paid in case of such an early redemption scenario may be subject to the mechanism provided for in the provision entitled "*Loss Participation, Replenishment of Repayment Claims, Claim for Backpayment*" (to the extent applicable according the relevant Final Terms).

Unless the relevant Final Terms exclude the right of the Participation Certificate Holders to exercise a so-called put option, Participation Certificate Holders may exercise a put right in line with the requirements set out in the respective provision of the **Participation Certificates Conditions**. The redemption amount to be paid in case of an put redemption scenario may be subject to the mechanism provided for in the provision entitled "*Loss Participation, Replenishment of Repayment Claims, Claim for Backpayment*" (to the extent applicable according the relevant Final Terms).

Participation Certificate Holders may declare their Participation Certificates due and demand immediate redemption thereof at the early redemption amount specified in the relevant Final Terms to the extent that one or more so-called events of default have occurred and are still continuing. The redemption amount to be paid in case of such an early redemption scenario connected with an event of default may be subject to the mechanism provided for in the provision entitled "*Loss Participation, Replenishment of Repayment Claims, Claim for Backpayment*" (to the extent applicable according the relevant Final Terms).

Meeting of Participation Certificate Holders

The Participation Certificates may contain provisions pursuant to which Participation Certificate Holders may agree by resolution to amend the Participation Certificates Conditions and to decide upon certain other matters regarding the Participation Certificates. Resolutions of Participation Certificate Holders properly adopted by vote taken in a meeting in accordance with the Participation Certificates Conditions are binding upon all Participation Certificate Holders.

Substitution of the Issuer

The Participation Certificates may provide for a mechanism to entitle the Issuer to substitute for itself as the Issuer another person. The latter mentioned legal mechanism is subject to certain mandatory requirements as stipulated in the relevant Final Terms. The aforementioned substitution may apply without the requirement of a given consent of the Participation Certificates.

RISK FACTORS

This section provides details of the material risks associated with the Issuer and the Instruments. References to the "Issuer" are references to E.Quikk plc, and references to the "Instruments" are references to the Notes and Participation Certificates, respectively, issued under this Base Prospectus.

In purchasing the Instruments, investors (including holders of Notes (the Noteholders) as well as holders of Participation Certificates (the Participation Certificates Holders; the Participation Certificates Holders and the Noteholders together, the Instrument Holders) assume the risk that the Issuer may become insolvent or otherwise be unable to make payments due in respect of the Instruments. There is a wide range of factors which individually or together could result in the Issuer becoming unable to make payments due in respect of the Instruments. The Issuer may not be aware of all relevant factors and certain factors which the Issuer may currently deem not to be material may become material over time and could likewise impair the business operations of the Issuer and have a material adverse effect on its business, cash flows, results of operations and its financial condition.

Prospective investors in the Instruments should ensure that they fully understand the nature of the Instruments, as well as the extent of their exposure to risks associated with an investment in the Instruments. They should consider the suitability of an investment in the Instruments in light of their own particular financial, fiscal and other circumstances. In particular, prospective investors should be aware that the Instruments may decline in value and should be prepared to sustain a substantial or total loss of their investment in the Instruments and ensure that their acquisition is fully consistent with their financial needs and investment policies, is lawful under the laws of the jurisdiction of their location or incorporation and/or in which they operate, and is a suitable investment for them to make.

The following factors may affect the Issuer's ability to fulfil its obligations under the Instruments. Without giving a disclaimer, naturally all of these factors are contingencies which may or may not occur while the Issuer is not in a position to express a view on the likelihood of any such contingency occurring. Prospective investors should consider these factors before deciding to purchase Instruments to be issued under the Base Prospectus. In addition, prospective investors should be aware that the risks described below may combine and thus intensify one another.

The Issuer is of the opinion that the factors described below represent the material risks inherent in investing in the Instruments, but the inability of the Issuer to pay material or other amounts under or in connection with the Instruments may occur for other reasons, which may not be or may not have been considered significant risks by the Issuer based on information currently available to it or which it may not currently be able to anticipate. Prospective investors should consider all information provided in this Base Prospectus and should consult with their own professional advisers (including their financial, accounting, legal and tax advisers) and also read the detailed information set out elsewhere in this Base Prospectus and reach their own views prior to making any investment decision.

The most material risk factor, according to the Issuer, is mentioned first in each sub-section.

I. SPECIFIC AND MATERIAL RISK FACTORS RELATING TO THE ISSUER

1. Risk Factors relating to the Issuer's financial situation

Risks in connection with a possible insolvency of the Issuer

The Noteholders assume the credit risk of the Issuer. In the case of an insolvency of the Issuer and/or any existing or future subsidiary, the Noteholders may lose part or all of their claims to repayment of their invested capital.

Risks in connection with refinancings

It cannot be ruled out that the Issuer will be dependent on new refinancing for the repayment of the Instruments, if necessary by issuing new instruments. If financing required for repayment is not available – for whatever reason – the Issuer may not be in a position to repay the Instruments. If this risk should materialize, the Instrument Holders may lose part or all of their claims to repayment of their invested capital.

2. Risk Factors relating to the Issuer as a mere holding company

Risk Factors relating to the dependency on the business development as well as the earnings and distributions of the Issuer's sole active industrial subsidiary E-Stream Energy GmbH & Co KG

The Issuer (currently) acts as a mere holding company and conducts its operating business through E-Stream Energy GmbH & Co KG (**E-Stream Energy**) and its General Partner E-Stream Energy Management GmbH (**E-Stream Energy Management** and, together, the **E-Stream Energy Companies**) as the (actually) sole operational active industrial subsidiaries of the Issuer. The Issuer has, besides the active management of its current subsidiaries, currently no further operative business of its own and according to its current plans it will not have a further operative business of its own in the future. Thus, the Issuer is and will be mainly dependent on distributions to receive from its investments such as those stemming from the E-Stream Energy Companies. Distributions to be made to the Issuer are subject to a successful business model of E-Stream Energy Companies, generating enough earnings, revenues and/or cash flows to distribute.

Therefore, the economic success of the Issuer consequently depends mainly on the E-Stream Energy Company's commercial and financial strength and especially the success of E-Stream Energy Company's business model of both operative companies. It cannot be ruled out that the Stream Energy Companies will incur (ongoing) losses (also in the long term and for an unforeseeable time period) beyond the loss that the Issuer has occurred for the last business year or will not be able to make any or only a small distribution to the Issuer or will not be allowed to do so due to statutory or contractual provisions applicable

The level of financial information of E-Stream Energy and/or E-Stream Energy Management or any other target investment which is available might be limited or might not reflect the development of E-Stream Energy and/or E-Stream Energy Management or any other target investment may have changed or changed significantly in the meantime.

In addition, external circumstances beyond the control of the Issuer (and the E-Stream Energy Companies), such as general or industry-specific economic developments, the situation on the financial markets or geopolitical events, also have a significant influence on the commercial and financial success of the E-Stream Energy Companies.

3. Risk Factors relating to the operative business of E-Stream Energy

a) Risks in connection with E-Stream Energy's business model

E-Stream Energy is active in three business segments: The first business segment is the wholesale of lithium-ion battery cells (so-called round cells, especially in the industrial formats 18650 and 21700) (so-called Wholesale Segment). The second business segment is currently the development of home and industrial energy storage systems that can charge batteries particularly efficiently and quickly due to their special fast-charging capability and its special capability to change round cells in home and industrial energy storage systems without damaging them in order for a so called 2nd life usage of the round cells and enabling a much easier recycling process of the round cells as demanded in current EU initiatives of regulation, as well as the development of proprietary stationary charging hardware for the e-mobility sector (so-called Storage Segment). The third business segment is currently the development of the licensing of the production of the home and industrial energy storage systems to licensees. All of these business segments are still in the early stages of development. In case E-Stream Energy should not succeed to develop its business lines and in addition, will not succeed in licensing its products to customers, it will not generate any revenues in the future.

As any of the aforementioned circumstances could have an adverse effect on E-Stream Energy's net assets, financial position and results of operations, and consequently, this would also indirectly affect the Issuer as these negative circumstances impact the financial strength of E-Stream Energy to pay out distributions to the Issuer.

b) Risks in connection with E-Stream Energy's current status

E-Stream Energy still is a young company with a business model that contains risks, which currently generates limited revenues but is mainly active in research and development. It is entirely dependent on the success of new technologies which have not yet been established and for which it is uncertain whether they can generate revenues. Furthermore, it is uncertain whether the planned expansion of business activities, i.e. the production and/or licensing and/or sale of battery cells, battery systems and applications/products in connection with battery systems in the field of residential and industrial energy storage, mobile energy storages and automotive applications will show the envisaged success.

Future growth depends in particular on the ability of E-Stream Energy to manufacture marketable products, to successfully sell battery cells, launch, sell and license battery systems and applications/products on the market and/or to successfully market other products resulting from further research and development activities. Successful marketing requires a development strategy and a market strategy geared to the target markets. If E-Stream Energy does not succeed or does not succeed to a sufficient extent in marketing, or if the strategies applied turn out to be partially or completely wrong, this may have significant negative effects on the activities of E-Stream Energy.

If E-Stream Energy does not succeed in marketing the respective products and licensing, or does not succeed in marketing them sufficiently, and/or if the costs of implementing the strategy are higher than those forecast by E-Stream Energy, this may have a material adverse effect on the business activities of E-Stream Energy.

As any of the aforementioned circumstances could have an adverse effect on E-Stream Energy's net assets, financial position and results of operations, and consequently, this would also indirectly affect the Issuer as these negative circumstances impact the financial strength of E-Stream Energy to pay out distributions to the Issuer.

c) Risks in connection with the competitiveness of E-Stream Energy's products

E-Stream Energy's business model depends on the competitiveness of its battery storage systems and technologies. It cannot be excluded that there may be competitors on the market who offer services and/or products similar to those of E-Stream Energy and who are able to acquire customers and generate profits faster and more successfully with cheaper and/or better offers than E-Stream Energy. This could lead to the E-Stream Energy's failure to plan, which could have an adverse effect on its business, assets, liabilities, financial position and profit or loss. There is also a risk that the battery storage systems and/or technologies may not be competitive. The battery storage system and technologies are in global competition with similar or comparable products or technologies from other manufacturers. Due to changes in customer requirements, the continuous introduction of new products to the market and/or constantly evolving product standards, E-Stream Energy's battery storage systems and/or technologies may become obsolete, unattractive to customers or otherwise uncompetitive. This intense competition could result in lower profit margins, lower revenues and a lower market share. If E-Stream Energy does not succeed in asserting itself in this environment and in developing sufficient economic projects, this could have a significant negative impact on the success of its business activities.

As any of the aforementioned circumstances could have an adverse effect on E-Stream Energy's net assets, financial position and results of operations, and consequently, this would also indirectly affect the Issuer as these negative circumstances impact the financial strength of E-Stream Energy to pay out distributions to the Issuer.

d) Risks in connection with E-Stream Energy's research and development activities

The E-Stream Energy's business success depends on its successful research and development of packaging solutions for battery systems. It is in the nature of research and development projects that approaches pursued may prove impracticable, ineffective or economically uninteresting. In this respect, it cannot be ruled out that individual or several development projects may not be recognized as a result, and that the time and financial expenditure for the research and development project in question may thus be useless. Furthermore, there is a risk that certification of E-Stream Energy's battery packs and systems and its products containing battery packs and systems in accordance with existing or future standards will not be achieved to the intended extent and/or within the intended timeframe and insofar the distribution of such battery packs and products/systems cannot be achieved to the intended extent and/or within the intended timeframe, which would have an effect in no, limited or time wise later turnover, income/profit and/or cash-flow of E-Stream Energy.

As any of the aforementioned circumstances could have an adverse effect on E-Stream Energy's net assets, financial position and results of operations, and consequently, this would also indirectly affect the Issuer as these negative circumstances impact the financial strength of E-Stream Energy to pay out distributions to the Issuer.

e) Risks in connection with a miscalculation of production and development costs

It cannot be excluded that the production of energy storage technologies and energy storage systems production can be carried out according to the production cost and budget plan, within the agreed schedule or in accordance with the agreed specifications or that individual producers of round cells or other components prove to be unsuitable. Should the production and development costs turn out to be higher than expected (based on false assumption being made in the respective budget plan or due to a delay within the development and production process), E-Stream Energy's profitability would deteriorate, which could have a negative impact on E-Stream Energy's net assets, financial position and results of operations.

As any of the aforementioned circumstances could have an adverse effect on E-Stream Energy's net assets, financial position and results of operations, and consequently, this

would also indirectly affect the Issuer as these negative circumstances impact the financial strength of E-Stream Energy to pay out distributions to the Issuer.

f) Risks in connection with sales problems relating to e-vehicles and e-mobility applications as well as stationary energy storage systems in the market

It is currently impossible to assess whether and how quickly the energy revolution and the resulting phase-out of energy generation from fossil fuels and nuclear power can be realized, and whether and how quickly e-mobility will develop further or even gain acceptance, and whether manufacturers will possibly switch to other drives or optimize existing drives. As a result, E-Stream Energy's future business plans may prove unrealistic in whole or in part and not only may the planned turnover and earnings not be achieved, but investments may prove to be erroneous and loss-making.

As any of the aforementioned circumstances could have an adverse effect on E-Stream Energy's net assets, financial position and results of operations, and consequently, this would also indirectly affect the Issuer as these negative circumstances impact the financial strength of E-Stream Energy to pay out distributions to the Issuer.

g) Risks in connection with the fact that E-Stream Energy is exposed to the credit risk of its customers, suppliers and dealers

E-Stream Energy conducts transactions (sales) with customers, suppliers and dealers as part of its business activities. There is a risk that one or more of these counterparties may become insolvent and be unable to meet their obligations to E-Stream Energy. In particular, if one of the E-Stream Energy's principal clients becomes insolvent or in financial difficulty, E-Stream Energy may not be able to collect any outstanding debt and may be required to write off the debt. Significant or recurring delays in receiving payments or defaults could have a material adverse effect on E-Stream Energy.

As any of the aforementioned circumstances could have an adverse effect on E-Stream Energy's net assets, financial position and results of operations, and consequently, this would also indirectly affect the Issuer as these negative circumstances impact the financial strength of E-Stream Energy to pay out distributions to the Issuer.

h) Risks in connection with the dependency on key personnel, internal personnel in particular through planned growth

The operations of E-Stream Energy are dependent on the abilities of the members of its board of directors. If one or more of such persons are unable or unwilling to continue in their present position, E-Stream Energy might not be able to replace them within a short term and this could affect the profitability of the E-Stream Energy's operations.

The planned expansion of the E-Stream Energy's business activities requires the (further) development of appropriate internal organisational, risk monitoring and management structures in line with growth, which enable undesirable developments and risks to be identified at an early stage. In addition, the workforce is to be significantly expanded and entire departments or structures below the complementary level are to be established for the first time. The expansion of business operations and of the internal and external organization entail, among other things, financial and personnel expenses. Should gaps or deficiencies in the existing risk monitoring and management system become apparent in ongoing practice, or should management be unable to create appropriate structures and systems in a timely manner in connection with the planned further growth and to implement the pending increases in personnel by recruiting appropriately qualified employees in a timely manner and without unforeseen difficulties, this could lead to restrictions in the ability to identify and control risks, trends and undesirable developments in a timely manner.

As any of the aforementioned circumstances could have an adverse effect on E-Stream Energy's net assets, financial position and results of operations, and consequently, this would also indirectly affect the Issuer as these negative circumstances impact the financial strength of E-Stream Energy to pay out distributions to the Issuer.

i) Risks in connection with the supply industry and the availability and prices of raw materials and intermediate products

E-Stream Energy is dependent on the supply industry and the availability of raw materials and intermediate products; if E-Stream Energy is unable to purchase battery cells and other components in sufficient quantities and at marketable conditions, this could lead to production stoppages and/or price increases. Due to a possible excess demand for battery cells or other raw materials, E-Stream Energy may also be unable to procure materials of the desired quality from other suppliers or only to procure them to the required extent at inappropriate conditions. Moreover, suppliers may fail to meet their respective delivery obligations (e.g. due to insolvency or for other reasons) or fails to do so on time, and if E-Stream Energy is unable to procure replacements elsewhere in good time, delays may occur in production and sale of battery systems, which may lead to production losses and thus to loss of earnings as well as possible contractual penalties or claims for damages, and in individual cases also to rights of withdrawal on the part of E-Stream Energy's customers. In addition, the prices to be paid for raw materials and intermediate products are subject to strong fluctuations in some cases, which may lead to an increase in E-Stream Energy's purchase costs. Such price increases may have a negative impact on E-Stream Energy's profitability.

As any of the aforementioned circumstances could have an adverse effect on E-Stream Energy's net assets, financial position and results of operations, and consequently, this would also indirectly affect the Issuer as these negative circumstances impact the financial strength of E-Stream Energy to pay out distributions to the Issuer.

j) Risks in connection with increasing energy costs

Higher prices for energy and increasing volatility on the commodity markets result in higher costs for E-Stream Energy. This will lead to the higher utilisation of liquidity to cover such costs in the short term. Liquidity and cash flows would have to be used to cover the effects of higher energy costs and may not be used for, inter alia, production or R&D activities.

As any of the aforementioned circumstances could have an adverse effect on E-Stream Energy's net assets, financial position and results of operations, and consequently, this would also indirectly affect the Issuer as these negative circumstances impact the financial strength of E-Stream Energy to pay out distributions to the Issuer.

k) Risks in connection with technical developments in the sector and industry E-Stream Energy is active

E-Stream Energy is subject to technology risks that new technologies devalue the development work performed by E-Stream Energy and that the battery storage systems will no longer correspond to the current state of the art in the future. The market for battery storage systems is subject to constant and dynamic changes. There is a risk that new technologies will devalue the development work carried out by E-Stream Energy and that the battery storage systems will no longer be state-of-the-art in the future. As a result, the use of battery storage systems may become uneconomical for the user/customer and marketing may no longer be possible or not possible to the intended extent. Adaptations to technological developments can be very cost-intensive or even impossible. Nor can it be ruled out that future technical problems may arise with the battery storage systems and/or the technologies of the associated companies, which are not foreseeable at the time this Base

Prospectus is drawn up, so that the performance of the battery storage systems will be reduced in comparison with the market and competitors, if necessary significantly or even to zero.

As any of the aforementioned circumstances could have an adverse effect on E-Stream Energy's net assets, financial position and results of operations, and consequently, this would also indirectly affect the Issuer as these negative circumstances impact the financial strength of E-Stream Energy to pay out distributions to the Issuer.

l) Risks in connection with possible violations of E-Stream Energy's business and trade secrets as well as its technologies and know-how

In addition to any as applicable rights applied for and thus protected or to be protected (such as but not limited to intellectual property rights), E-Stream Energy also relies on certain technologies, know-how and trade secrets that cannot be protected by intellectual property rights. Therefore, there is a risk that third parties, in particular competitors, may copy or independently develop these technologies and know-how and later question their use by E-Stream Energy. In addition, employees regularly have access to relevant proprietary information that may or may not be protected by intellectual property rights. These employees could leave E-Stream Energy to work for competitors. Notwithstanding all necessary and adequate precautionary measures to protect technologies, know-how and other sensitive information, there can be no assurance that such measures will provide adequate protection against unauthorized access or use by third parties or against misappropriation or disclosure of such information. Protection against unauthorized use or access, misappropriation or disclosure of technologies, know-how and other proprietary information, including but not limited to E-Stream Energy's trade secrets and trade secrets, may result in protracted and costly litigation or administrative proceedings and may cause substantial disruption to business operations and tie up resources otherwise required.

As any of the aforementioned circumstances could have an adverse effect on E-Stream Energy's net assets, financial position and results of operations, and consequently, this would also indirectly affect the Issuer as these negative circumstances impact the financial strength of E-Stream Energy to pay out distributions to the Issuer.

m) Risks in connection with copyright and patent procedures and possible copyright infringements by third-parties

E-Stream Energy may not be able to register patents or utility models of the battery storage systems and of systems/applications and related technologies on which the E-Stream Energy's business is or may be inter alia based in the future, or to protect the technologies in an appropriate manner. In addition, it cannot be excluded that the systems/applications will not be in conflict with rights of third parties. Furthermore, it cannot be excluded that the systems/applications can be copied despite existing protection rights. Competitors could infringe patents and/or industrial property rights. In addition, they could use technologies that function essentially like the systems/applications of E-Stream Energy without infringing patent and industrial property rights. If licensors are not able to effectively prevent the imitation of its products, this could endanger the competitiveness of the systems/applications and technologies. If the systems/applications and technologies cannot be registered as patents or utility models and other intellectual property rights cannot be adequately protected, this could have a material adverse effect on the business because competitors could copy and use E-Stream Energy's systems/applications and/or technologies without E-Stream Energy being able to take legal action against them.

As any of the aforementioned circumstances could have an adverse effect on E-Stream Energy's net assets, financial position and results of operations, and consequently, this

would also indirectly affect the Issuer as these negative circumstances impact the financial strength of E-Stream Energy to pay out distributions to the Issuer.

n) Risks in connection with potential patent and property infringements and corresponding assertion of claims as well as patent litigation proceedings

Patent and property right infringements could lead to the assertion of claims by third parties and endanger the legal status of property rights. It cannot be ruled out that patents and industrial property rights of third parties which have not been recognized as such by E-Stream Energy may lead to claims against E-Stream Energy as patent and utility model owner and/or against licensors to E-Stream Energy or E-Stream Energy as patent and utility model user. The assertion of patent and property right infringements as well as the assertion of claims for damages can endanger the legal existence of property rights, if any in connection with systems/applications and/or technologies. The mere allegation that infringe the intellectual property rights of third parties could cause economic damage to E-Stream Energy due to the important role that intellectual property rights play in technology sectors.

Litigation to confirm or enforce patent rights or patent usage rights to enforce payment claims against third parties based on patent infringements or to defend against alleged patent infringements can result in considerable costs and tie up personnel resources in addition to financial burdens. Should licensors to E-Stream Energy and/or E-Stream Energy loose a legal dispute regarding industrial property rights, it cannot be ruled out that E-Stream Energy and/or licensors to E-Stream Energy will not loose the relevant patent protection. It may then no longer be able to prevent the use of one or more systems/applications or the technology/technologies, in whole or in part, which may result in significant competitive disadvantages for E-Stream Energy, whose business may be based inter alia on the technologies and patents. In addition, the negative outcome of such proceedings may result in third parties being able to use the systems/applications and/or the technology without payment to the respective patent and utility model users.

As any of the aforementioned circumstances could have an adverse effect on E-Stream Energy's net assets, financial position and results of operations, and consequently, this would also indirectly affect the Issuer as these negative circumstances impact the financial strength of E-Stream Energy to pay out distributions to the Issuer.

o) Risks in connection with potential damage claims for damages (including environmental damages)

It cannot be ruled out that the Li-Ion battery cells sold in the Wholesale Segment of E-Stream Energy catch fire. Li-Ion battery cells are easily inflammable and therefore pose a not inconsiderable fire hazard. In addition, once lithium is on fire, it cannot be extinguished with conventional extinguishing agents, so that fires can only be stopped and extinguished by the fire department with increased effort and the use of special extinguishing agents. Li-Ion battery cells are usually sealed gas-tight so that no substances can escape during normal operation. However, if the housing is mechanically damaged or if thermal stress occurs as a result of a fire, various corrosive, toxic and carcinogenic substances as well as flammable contents (in dusty, gaseous or liquid form) can escape that could possibly harm the environment. The escaping vapors could also be harmful to health if inhaled. In case of an incident, claims for damages could be ascertained against E-Stream Energy.

E-Stream Energy has taken out insurance coverage for various risks associated with its business activities in the Wholesale Segment, especially regarding coverage for fire, consequential fire damage and public liability. The insurance policies which E-Stream Energy has taken out to cover itself may not fully cover any and all damages caused directly or indirectly by Li-Ion battery cells catching fire, either because the amount of insurance is insufficient or because certain events giving rise to losses are not insured. Should E-Stream

Energy be liable for damage (including environmental damages) for which there is no or only insufficient insurance cover this could lead to high liability amounts having to be borne by E-Stream Energy.

As any of the aforementioned circumstances could have an adverse effect on E-Stream Energy's net assets, financial position and results of operations, and consequently, this would also indirectly affect the Issuer as these negative circumstances impact the financial strength of E-Stream Energy to pay out distributions to the Issuer.

p) Risks in connection with the deterioration and demise of the Li-Ion battery cells stored by it

The improper storage of the Li-Ion battery cells could lead to deterioration of the respective cells as well as destruction or perishing of the respective cells which mainly is caused by human error (e.g. if the forklift damages the packaging leading to a short circuit of battery cells). In such a case the cells would either have a lower value due to the associated cell aging or even be useless with the consequence that E-Stream Energy would have to reorder the respective number of cells. This can result in significant losses of E-Stream Energy.

As any of the aforementioned circumstances could have an adverse effect on E-Stream Energy's net assets, financial position and results of operations, and consequently, this would also indirectly affect the Issuer as these negative circumstances impact the financial strength of E-Stream Energy to pay out distributions to the Issuer.

4. Tax, legal and regulatory risks

a) Risks in connection with product-related, environmental, health and safety laws and regulations

The products and business operations of E-Stream Energy are subject to a broad range of local, state, national and multi-national laws and regulations in the jurisdictions in which it operates and markets its products. In addition, there are various product-related (administrative) obligations E-Stream Energy has to comply with, e.g. registration as a producers before placing batteries on the market or obligation of the producer to take batteries back free of charge and recycle them, as well as obligations on the labelling of products. Furthermore, E-Stream Energy must comply with the applicable rules on the transport of its products, including various restrictions on the transport of certain battery cells by air. Amendments or revisions to the list of restricted substances under such laws and regulations may require changes to product designs or the production processes E-Stream Energy. In addition, some of the products of E-Stream Energy are subject to extensive environmental and industrial hygiene regulations governing the registration and safety analysis of their component substances.

The business operations of E-Stream Energy must also comply with laws and regulations relating to the protection of natural resources, the management of hazardous substances and wastes, air emissions, water discharges, the use, management, storage, treatment, transportation and disposal of waste and other byproducts, the protection and restoration of plants, wildlife and natural resources, the investigation and remediation of contaminated property, and public and workplace health and safety (such as rules regarding the handling of carcinogenic substances or rules governing the use of protection equipment). Various new laws and amendments, as well as amendments to existing ones, have become more stringent, particularly in the European Union. In addition, for the development and production facilities and operations of E-Stream Energy, various licenses and permits are required, in particular regarding emissions and waste water discharge, and E-Stream Energy has to comply with the requirements specified therein measures necessary in order to assure compliance may require E-Stream Energy to incur significant costs. Violations may result

in substantial fines or penalties, temporary or permanent production facility closures, criminal convictions and civil liability.

E-Stream Energy might not be able to comply with all applicable laws and regulations at all times, or that the costs of complying with current and future environmental, health and safety laws, and liabilities arising from past or future violations, will not materially adversely affect E-Stream Energy's business, financial condition, results of operations and prospects.

As any of the aforementioned circumstances could have an adverse effect on E-Stream Energy's net assets, financial position and results of operations, and consequently, this would also indirectly affect the Issuer as these negative circumstances impact the financial strength of E-Stream Energy to pay out distributions to the Issuer.

b) Risks in connection with the obligation to take back used batteries from customers

Based on Directive 2013/56/EU, which amended Directive 2006/66/EC and which was e.g. implemented in Germany by the German Battery Act, the E-Stream Energy as the producer and seller on the European market is required in several countries to take back and recycle or otherwise safely dispose of all batteries, which have been sold by it. The battery cells and battery cell containing storage systems that E-Stream Energy sells or intends to sell have an expected life of approximately five to fifteen years. Therefore, it can be expected that the first tranche of batteries will approximately be returned in the year 2026, a cycle that is expected to continue. To manage the financial and other risks associated with such battery replacement, E-Stream Energy has decided to either recycle the batteries itself or to sell them to partner companies, such as the European Recycling Platform (ERP) Deutschland GmbH or to use their recycling system. Costs incurred in connection with the recycling process – conducted either by E-Stream Energy itself or outsourced to European Recycling Platform (ERP) Deutschland GmbH could lead to significant costs.

As any of the aforementioned circumstances could have an adverse effect on E-Stream Energy's net assets, financial position and results of operations, and consequently, this would also indirectly affect the Issuer as these negative circumstances impact the financial strength of E-Stream Energy to pay out distributions to the Issuer.

5. Other Risks

Commissions to be paid to various service providers

Distribution commissions or other similar fees charged by the Issuer's distribution agents reduce the total amount of the net issue proceeds. Therefore, the issue proceeds available to the Issuer for the purpose of investing further in the E-Stream Energy Companies by way of increasing the (atypical) silent partnership share(s) or other assets may be reduced accordingly. Thus, this may have a negative impact on the amount of revenues stemming from the (atypical) silent partnership's and therefore as well to the Issuer's financial condition.

SPECIFIC AND MATERIAL RISK FACTORS RELATING TO THE INSTRUMENTS

1. Specific Risk Factors concerning both Instruments (the Notes as well as the Participation Certificates)

a) Risk Factors concerning the suitability of an investment in the Instruments, their legality of purchase and to specific client objects and needs

Risks relating to the suitability of an investment in Instruments

The Instruments may not be a suitable investment for all investors. Each potential investor in any Instruments must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- have sufficient knowledge and experience to make a meaningful evaluation of the Instruments, the merits and risks of investing in the Instruments and the information contained in, or incorporated by reference into, this Base Prospectus or any supplement thereto;
- have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Instruments and the impact the Instruments will have on its overall investment portfolio;
- have sufficient financial resources and liquidity to bear all of the risks of an investment in the Instruments or where the currency for principal payments is different from the potential investor's currency;
- understand fully the respective terms and conditions of the Instruments and be familiar with the behaviour of any relevant indices and financial markets; and
- be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

The Instruments are complex financial instruments. Investors generally do not purchase complex financial instruments as stand-alone investments. They purchase complex financial instruments as a way to reduce risk or enhance yield with an appropriate addition of risk to their overall portfolios. A potential investor should not invest in the Instruments unless it has the expertise (either alone or with a financial adviser) to evaluate how the Instruments will perform under changing conditions, the resulting effects on the value of the Instruments and the impact this investment will have on the potential investor's overall investment portfolio.

Risks relating to certain Taxation regimes

Prospective investors and sellers of the Instruments should be aware that they may be required to pay taxes or other documentary charges or duties in accordance with the laws and practices of the country where the Instruments are transferred to or of other jurisdictions. In addition, prospective investors are advised to ask for their own tax adviser's advice on their individual taxation with respect to the acquisition, sale and redemption of the Instruments. Only these advisors are in a position to duly consider the specific situation of the prospective investor.

Potential Investors should be aware that payments in respect of the Instruments may be subject to withholding or deduction for or on account of tax, including FATCA. In some (but not all) cases, the Issuer has undertaken to gross-up for such withholding taxes if they

arise. In those cases where this undertaking does not apply, any withholding tax or deduction for tax is imposed on payments of interest on the Instruments, the holders of the Instruments will not be entitled to receive grossed-up amounts to compensate for such withholding tax. Where a gross-up does apply, this may reduce cash available to the Issuer to make payments on the Instruments.

Risks relating to the Irish Withholding Tax regime

So long as the Instruments are "Quoted Eurobonds" in accordance with section 64 of the Taxes Consolidation Act 1997, no withholding tax should currently be imposed by the Republic of Ireland on payments of interest on the Instruments, provided that the Instruments are held in a recognised clearing system or interest on the Instruments is paid by or through a foreign paying agent. However, there can be no assurance that the Issuer will qualify for this exemption.

In certain circumstances, interest payable on a relevant Instruments may be reclassified as a distribution for Irish tax purposes and in those circumstances, the Investor may be subject to Irish Dividend Withholding Tax in respect of such payments currently at a rate of 25 per cent., depending on the particular circumstances.

Risks associated with the FATCA regime

Distribution payments on Instruments, or profits realized by an Instrument Holder upon the sale or repayment of Instruments, may be subject to taxation in the Instrument Holder's home jurisdiction or in other jurisdictions in which the Instrument Holder is required to pay taxes. The amount of taxation so payable is therefore subject to changes in tax law and to potential changes in their practical application (both of which may change to the disadvantage of investors).

Besides the above, risks may occur in connection with the FATCA regime. Sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986 (the **Code**), an agreement entered into with the U.S. Internal Revenue Service pursuant to such sections of the Code, or an intergovernmental agreement between the United States and another jurisdiction in furtherance of such sections of the Code (including any non-US laws implementing such an intergovernmental agreement) (collectively referred to as **FATCA**) impose a new reporting regime and, potentially, a thirty per cent. withholding tax with respect to (i) certain payments from sources within the United States (ii) so-called 'foreign pass-thru payments' made to certain non-US financial institutions that do not comply with this new reporting regime, and (iii) payments to certain investors that do not provide identification information with respect to interests issued by a participating non-US financial institution.

The Issuer may be classified as a non-US financial institution for these purposes. If the Issuer becomes subject to withholding tax as a result, the monetary return of Instrument Holders may be affected. To the extent the Issuer suffers US withholding tax as a result of FATCA, the Issuer may take any action in relation to an Instrument Holder's investment to ensure that such withholding is economically borne by the relevant Instrument Holder whose failure to provide the necessary information or to become a participating FFI (i.e., foreign financial institution) gave rise to the withholding.

Risks stemming from specific client objectives and needs

According to the requirements of MiFID II, the manufacturer as the concept creator of a product (i.e the Instruments) determines the target market for a product, i.e. identifies, with which customer needs and characteristics it believes the product is compatible (positive target market) and with which it is incompatible (so-called positive target market) and with which it is incompatible (so-called negative target market). The target market thus

describes the requirements, that a product places on the target customer. The target market is defined individually and with respect to each product (or type of Instruments) and can include specific customer goals and needs, for example the requirement for a "sustainable", "ecological", "ESG" (Environmental, Social and Governance) or similarly labelled product.

The target market of a product may change during the life of the Instruments. In case the target market does no longer coincide with the individual objectives and expectations or the relevant investment criteria, objectives and expectations or the relevant investment criteria and guidelines of an investor (and hence, due to these stipulated and binding criteria and guidelines, are forced to consider or make a de-investment with respect to the relevant Instruments), the investor may be obliged or forced to sell the Instruments under unfavourable conditions (i.e a price which is lower than what the investor has initially paid for its investment in the Instruments).

Risks associated with a rise in inflation

The inflation risk (i.e. the risk of future money depreciation) may negatively impact the real yield to be gained from an Instrument. The inflation risk is the risk of future money depreciation: The higher the rate of inflation, the lower the real yield on an Instrument. If the inflation rate is equal (or even higher than) the nominal yield on an Instrument, the real yield is zero (or even negative).

Risks stemming from costs and expenses to be paid with respect to the purchase and sale of the Instruments

When Instruments are purchased or sold, several types of incidental costs (including transaction fees and commissions) may incur in addition to the purchase or sale price of the relevant Instrument. These incidental costs (such as, but not limited to, brokerage and depositary fees) may significantly reduce or eliminate any profit from holding the Instruments. Thus, the nominal yield attached to the Instruments may be lowered due to these costs and expenses than Credit institutions as a rule charge commissions which are either fixed minimum commissions or pro-rata commissions, depending on the order value. To the extent that additional – domestic or foreign – parties are involved in the execution of an order, including but not limited to domestic dealers or brokers in foreign markets, Holders may also be charged for the brokerage fees, commissions and other fees and expenses of such parties (third party costs).

Risks associated with stamp taxes

Potential purchasers and sellers of Instruments should be aware that they may be required to pay stamp taxes or other documentary charges in accordance with the laws and practices of the country where the Instruments are transferred and/or any asset(s) are delivered. Potential purchasers who are in any doubt as to their tax position should consult their own independent tax advisers. In addition, potential purchasers should be aware that tax regulations and their application by the relevant taxation authorities change from time to time. Accordingly, it is not possible to predict the precise tax treatment which will apply at any given time.

Risks associated with Instruments pursuant to which no so-called tax gross-up is paid

If the applicable Final Terms specify that no withholding tax gross-up is applicable, the Issuer is not obliged to gross up any payments in respect of the Instruments and all amounts payable in respect of the Instruments shall be made with such deduction or withholding of taxes duties or governmental charges of any nature whatsoever imposed, levied or collected by way of deduction or withholding, if such deduction or withholding is required by law (including pursuant to an agreement described in Section 1471(b) of the U.S. Internal

Revenue Code of 1986 (the "Code") or otherwise pursuant to Sections 1471 through 1474 of the Code and any regulations or agreements thereunder or official interpretations thereof ("FATCA") or pursuant to any law implementing an intergovernmental approach thereto).

b) Risks related to a not proper functioning market or trading facility

Risks relating to an illiquid secondary market

Regardless of whether the Instruments are listed or not on non-regulated markets, regulated markets, multilateral trading facility (MTF) or organised trading facilities (OTF), there is a risk that no liquid secondary market for the Instruments will develop or, if it does develop, that it will not continue. The fact that the Instruments may be listed does not necessarily lead to greater liquidity than if they were not listed. If the Instruments are not listed on any stock exchange, pricing information for such Instruments may, however, be more difficult to obtain which may affect the liquidity of the Instruments adversely. In an illiquid market, an investor is subject to the risk that the investor will not be able to sell its Instruments at any time at fair market prices. The possibility to sell the Instruments may additionally be restricted by country specific reasons. In addition, Instrument Holders should be aware that the Issuer has no influence on the suspension, interruption, or termination of trading in the Instruments (other than where trading in the Instruments is terminated upon the Issuer's decision), and Instrument Holders bear the risks connected with any trading suspension, interruption or termination. Instrument Holders should be aware that they may not be able to sell their Instruments in such instances and should also note that during periods of suspension or interruption of trading, stock exchange quotations may not adequately reflect the price of the Instruments.

c) Risk Factors relating to a potential conflict of interest

Risks relating to the assumption of certain functions and providing several services in connection with the Instruments

The Issuer may, from time to time, act in other capacities with regard to the Instruments, such as paying agent, calculation agent or registrar and transfer agent, which allows the Issuer to make calculations in respect of the Instruments. For example, in its role as calculation agent, the Issuer is the person responsible for calculating the amount of distributions to be paid (and which are binding for the Instrument Holders). Where the Issuer acts as calculation agent or the calculation agent is an affiliate of the Issuer, potential conflicts of interest may exist between the calculation agent and the Instrument Holders, including with respect to certain determinations and judgements that the calculation agent may make pursuant to the Instruments that may influence the amount receivable deliverable on redemption of the Instruments. The measures in place that a control of the Issuer is not abused is governed by and in accordance with the provisions of the applicable laws and regulations. There is no knowledge of the existence of any abuse of control is exercised by the Issuer.

An entrepreneurial conflict of interest could arise in the fact that appointed Members of the Board of Directors are acting in different functions (including as an active member of the board of directors) of inter alia Timberland Invest Ltd and/or Timberland Capital Management GmbH, both acting as distribution agents for the Instruments. Furthermore, there might be potential conflicts of interest for such persons in regard to current or future entrepreneurial activities or shareholdings outside their activity to the Issuer or due to other business activities or other entrepreneurial participations or shareholdings of (i) their own and/or (ii) while acting for and on behalf of other parties. There are actually no such conflicts of interests.

The Issuer is directly owned by its shareholder Mr. Thomas Kraemer. The measures in place that a control of the Issuer is not abused is governed by and in accordance with the provisions of the applicable laws and regulations. The Issuer applies best practice measures in regard to the measures in place to avoid abuse of control. The shareholder is not member of the Board of Directors of the Issuer. Save for this, the shareholder is member of the Board of the Directors of the subsidiaries. The directors do not receive a remuneration which is linked to the return of the company or to its shares. There is accordingly no remuneration that could favour the taking of special risks at the expense of the company. There is no knowledge of the existence of any abuse of control is exercised by the Issuer.

2. Specific and material Risk Factors relating to the Notes

a) Risks related to the nature of the Notes and/or classification of the Notes

Risks associated with subordinated Notes

The Issuer may issue Notes that qualify as subordinated notes. The obligations of the Issuer under subordinated notes constitute unsecured and subordinated obligations and will rank junior in priority of payment to unsubordinated obligations. In the event of insolvency or liquidation of the Issuer, such obligations will be subordinated to the claims of all unsubordinated creditors of the Issuer so that in any such event no amounts will be payable in respect of such obligations until the claims of all unsubordinated creditors of the Issuer have been satisfied in full. The Issuer expects from time to time to incur additional indebtedness or other obligations that will constitute senior indebtedness, and the subordinated notes do not contain any provisions restricting the Issuer's ability to incur senior indebtedness. Although the subordinated notes may pay a higher rate of interest than comparable Notes which are not so subordinated, there is a real risk that an investor will lose all or some of its investment should the Issuer become insolvent since its assets would be available to pay such amounts only after all of its senior creditors have been paid in full.

In the event of the dissolution, liquidation, insolvency, composition or other proceedings for the avoidance of insolvency of, or against, the Issuer, the obligations under the subordinated notes will be fully subordinated to the claims of unsubordinated creditors of the Issuer. Accordingly, in any such event no amounts shall be payable in respect of the subordinated notes until the claims of unsubordinated creditors and subordinated creditors of the Issuer have been satisfied in full. Accordingly, the Noteholder's rights under the Notes will rank behind all unsubordinated creditors and certain subordinated creditors of the Issuer in the of the insolvency or liquidation of the Issuer. The Issuer's payment obligations under the Notes will rank *pari passu* amongst themselves. The only remedy against the Issuer available to Noteholders for recovery of amounts which have become due in respect of the subordinated notes will be the institution of legal proceedings to enforce payment of the amounts. In an insolvency or liquidation of the Issuer, any Noteholder may only claim amounts due under the subordinated notes after the Issuer has discharged or secured in full (i.e. not only with a quota) all claims that rank senior to the subordinated notes.

The Issuer may not have enough assets remaining to pay amounts due under the relevant subordinated notes and the Noteholders of such subordinated notes could lose all or some of the investment. No Noteholder may set off any claims arising under the subordinated notes against any claims that the Issuer may have against the Noteholder.

Risk relating to the pre-insolvency enforcement block applying to Notes

Analogously to German insolvency law principles and provisions, a pre-insolvency enforcement block, may apply to all payment claims of the Noteholders. In such case, all claims arising from the Notes, in particular the Noteholder's claims for payment of interest

and repayment of principal (including any other amounts payable under the of Notes), may be asserted as long as and to the extent that the partial or complete satisfaction of such claims would lead to the issuer being overindebted within the meaning of section 17 of the German Insolvency Code or threatened insolvency within the meaning of section 18 of the German Insolvency Code or insolvency within the meaning of section 19 of the German Insolvency Code as amended (pre-insolvency enforcement block). The pre-insolvency enforcement block therefore already applies to the period before the opening of insolvency proceedings. The Noteholder may therefore not demand fulfilment of his claims arising from the Notes if the Issuer is over-indebted or insolvent or threatens to become so at the time of the Noteholder's demand for payment. In this respect, the pre-insolvency enforcement block can lead to a permanent, unlimited non-fulfilment of the Noteholder's claims.

b) Risks related to certain specific features of the Notes

Risks associated with Notes which allow for the substitution of the Issuer

The Notes Conditions may contain provisions for the substitution of another company as principal debtor (including, as applicable, a subsequent substitution of the debtor) under the Notes in place of the Issuer. The amounts which Noteholders should receive in respect of the Instruments may be affected in the event that the Issuer substitutes another company for itself as issuer of the Notes under the relevant Notes Conditions.

Risks associated with Notes providing for a fixed interest rate

Notes bearing or paying a fixed rate of interest (or distribution, as defined in the Notes Conditions) either will pay or, depending on the fulfilment of certain conditions, may pay a fixed amount of interest on specified interest payment dates. Investors who purchase Notes with a fixed rate of interest are exposed to the risk that market interest rates rise and the fixed amount of interest they receive is less than the amount they would have received had they invested in a Note with a floating rate of interest. The market value of Notes with a fixed rate of interest will decrease if potential investors perceive that they can achieve a greater return on an investment by investing in alternative products. If an investor holds a Note bearing a fixed rate of interest through to maturity, changes in the market interest rate may become less relevant to the value as the maturity date approaches. The same risk applies to fixed rate notes providing for an increasing coupon.

Risk associated with the credit spread of the Issuer

The market price of the Notes may also be negatively affected by an increase in the Issuer's credit spreads, i.e. the difference between yields on the Issuer's debt and the yield of government bonds or swap rates of similar maturity. The Issuer's credit spreads are mainly based on its perceived creditworthiness but also influenced by other factors such as general market trends as well as supply and demand for such Notes.

Risks associated with Notes subject to an early redemption of the Notes

The Notes are redeemable in whole at the option of the Issuer prior to the relevant maturity date (in cases there is a maturity date) in the instances prescribed in the Notes Conditions. Any decision by the Issuer as to whether it will redeem the Notes will be made at the absolute discretion of the Issuer. The feature allowing for optional redemption may condition the market value of the Notes and there can be no guarantee that the Noteholders may be able to re-invest the proceeds of such redemption at equivalent or higher rates of return.

In addition, the Issuer may, subject to the relevant Final Terms, always have the right to redeem the Notes if it is required to pay additional amounts (gross-up payments) on the Notes for reasons of taxation as set out in the Notes Conditions.

Risks associated with Notes subject to an optional redemption by the Issuer

Notes which include a redemption option by the Issuer are likely to have a lower market value than similar securities which do not contain an Issuer redemption option. An optional redemption feature is likely to limit the market value of Notes. During any period when the Issuer may elect to redeem the Notes, the market value of those Notes generally will not rise substantially above the price at which they may be redeemed. This may also be the case prior to any redemption period.

The Issuer may be expected to redeem Notes when its cost of borrowing is lower than the interest rate on the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

The applicable Final Terms will indicate whether the Issuer has the right to redeem the Notes prior to maturity. The Issuer may exercise its right to redeem the Notes if the yield on comparable Notes in the market falls which may result in the investor only being able to invest the redemption proceeds in Notes with a lower yield. If specified in the applicable Final Terms, the Issuer will have the right to redeem the Notes, if the Issuer is required to gross-up payments as a result of the imposition of certain taxes. If the Issuer redeems the Notes prior to maturity, a holder of such Notes is exposed to the risk that as a result of such early redemption its investment will have a lower than expected yield.

Risks relating to binding decisions adopted in Noteholders' meetings

The respective Notes Conditions may provide for meetings of Noteholders (in relation to which the detailed provisions are reproduced in this Base Prospectus) to consider matters affecting their interests generally. These provisions permit, among other things, defined majorities to bind all holders of a series of Notes, including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority. The respective Notes also provide that the Issuer may, without the consent of Noteholders, make any modification to the relevant Notes Conditions which is of a formal, minor or technical nature, or is made to correct a manifest or proven error, or to comply with mandatory provisions of the law of the jurisdiction in which the Issuer is incorporated or to reflect any change of law which has an impact on the Issuer's obligations under the Notes.

Risks related to an exercised put option

The Issuer may not be able to finance a put option redemption. The relevant Notes Conditions (to the extent applicable) will require the Issuer to make an offer to repurchase the Notes at a predefined percentage rate of their aggregate principal amount. The Issuer's failure to effect a put option when required would constitute an event of default under the Notes Conditions. In addition, the ability to repurchase the Instruments as may be required by the Notes Conditions will depend on the Issuer's access to funds at such time, and the Issuer not be able to secure access to enough cash to finance the repurchase.

Risks associated with Notes issued at a substantial discount or premium

The Notes may be issued at a substantial discount or premium from their principal amount. Hence, the market value of securities issued at a substantial discount or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the Notes, the greater the price volatility as compared to conventional interest-bearing notes with comparable maturities. In addition, a greater price volatility (especially in case of greater market price difference compared to notes not issued at a substantial discount or premium providing for smaller price spreads) may effect a Noteholder's investment strategy adversely as a sale of the Notes may even depend more on a (favorable and foreseeable) price development of the Notes.

Risks relating to a change in the currency exchange rates

In case the Notes are denominated in a currency other than the currency of the jurisdiction where a Noteholders is domiciled or where the Noteholders seeks to receive funds, there is a currency exchange rates risk. As exchange rates between currencies (so-called currency exchange rates) are determined by factors of supply and demand in the international currency markets and are influenced by macro-economic factors, speculations and interventions by central banks and governments as well as by political factors (including the imposition of currency controls and restrictions). In addition, there are other factors (e.g. psychological factors) which are almost impossible to predict (e.g. a crisis of confidence in the political regime of a country) and which also may have a material impact on currency exchange rates. Moreover, currencies may be very volatile. In the event of any irregularities or manipulations in connection with the fixing of currency exchange rates, this may have a material adverse effect on the Notes. In addition, currencies may also be devalued or replaced by a different currency whose development cannot be predicted. The materialization of the risks may also have a material adverse effect on the Notes.

3. Specific and material Risk Factors relating to the Participation Certificates

a) Risk Factors concerning the structure of the Participation Certificates

Risk relating to the fact that the Participation Certificates qualify as subordinated instruments

The Participation Certificates qualify as subordinated instruments. The obligations of the Issuer under subordinated participation certificates constitute unsecured and subordinated obligations and will rank junior in priority of payment to unsubordinated obligations. In the event of insolvency or liquidation of the Issuer, such obligations will be subordinated to the claims of all unsubordinated creditors of the Issuer so that in any such event no amounts will be payable in respect of such obligations until the claims of all unsubordinated creditors of the Issuer have been satisfied in full. The Issuer expects from time to time to incur additional indebtedness or other obligations that will constitute senior indebtedness, and the subordinated participation certificates do not contain any provisions restricting the Issuer's ability to incur senior indebtedness. Although the subordinated participation certificates may pay a higher rate of interest than comparable participation certificates which are not so subordinated, there is a risk that an investor will lose all or some of its investment should the Issuer become insolvent since its assets would be available to pay such amounts only after all of its senior creditors have been paid in full. In the event of the dissolution, liquidation, insolvency, composition or other proceedings for the avoidance of insolvency of, or against, the Issuer, the obligations under the subordinated participation certificates will be fully subordinated to the claims of unsubordinated creditors of the Issuer and as the case may be as defined in the relevant Final Terms subordinated obligations (within the

analogously meaning of Section 39 of the German Insolvency Code (or any successor provision thereof)) of the Issuer.

Risk relating to the pre-insolvency enforcement block

Analogously to German insolvency law principles and provisions, a pre-insolvency enforcement block, may apply to all payment claims of the Participation Certificate Holders. In such case, all claims arising from the Participation Certificates, in particular the Participation Certificate Holder's claims for payment of interest and repayment of principal (including any other amounts payable under the of Participation Certificates), may be asserted as long as and to the extent that the partial or complete satisfaction of such claims would lead to the issuer being overindebted within the meaning of section 17 of the German Insolvency Code or threatened insolvency within the meaning of section 18 of the German Insolvency Code or insolvency within the meaning of section 19 of the German Insolvency Code as amended (pre-insolvency enforcement block). The pre-insolvency enforcement block therefore already applies to the period before the opening of insolvency proceedings. The Participation Certificate Holder may therefore not demand fulfilment of his claims arising from the Participation Certificates if the Issuer is over-indebted or insolvent or threatens to become so at the time of the Participation Certificate Holder's demand for payment. In this respect, the pre-insolvency enforcement block can lead to a permanent, unlimited non-fulfilment of the Participation Certificate Holder's claims.

Risk relating to the ranking of investors' claims

Participation Certificate Holders may not demand that the Issuer give priority to their interest and repayment claims over other claims of third parties. This also applies insofar as these other claims have the same priority as the claims of Participation Certificate Holders. In the event of the liquidation of the Issuer, the subordinated claims shall rank behind all non-subordinated claims and all subordinated claims within the meaning of section 39 para. (1) sentence 1 (nos. 1 to 5) of the German Insolvency Code. This can lead to a complete loss of the invested capital on the part of the Participation Certificate Holders. If insolvency proceedings are opened against the Issuer's assets, the Participation Certificate Holder may assert claims (distribution, repayment of the capital and all other amounts payable under the Participation Certificates) against the insolvency administrator only as a subordinated insolvency creditor. Payments to the Participation Certificate Holder from the insolvency estate shall only be made when all claims of the Participation Certificate Holder, in particular the non-subordinated claims and all subordinated claims within the meaning of section 39 para. (1) sentence 1 (nos. 1 to 5) of the German Insolvency Code, have been satisfied in full. The amount of the actual payments thus depends on the amount of the insolvency estate. If the insolvency estate is insufficient to make payments on subordinated claims in the insolvency proceedings, this would result in the Participation Certificate Holder's complete loss of the capital invested.

b) Risk Factors relating to the Loss Participating Mechanism applicable to the Participation Certificates

Risks stemming from the occurrence or increase of an annual loss with respect to distributions

Notwithstanding that the Participation Certificate Holders are entitled to receive distributions in accordance with the Participation Certificates Conditions, payment of such distributions on the Participation Certificates is limited by the fact that this payment must not result in or increase an annual loss. The entitlement to distribution shall be reduced or shall lapse to the extent that it would result in or increase an annual loss. If, accordingly, the Issuer's net retained profits are not sufficient to pay the distribution claim of the Participation Certificate Holders, the distribution claim will be reduced accordingly. The

reduced distribution on the profit participation certificates shall be made in proportion to the respective distribution claims to each other. This mechanism also applies in relation to other outstanding subordinated liabilities of the Issuer that rank pari passu with the Participation Certificates and provide for a corresponding regulation. In line with the Participation Certificates Conditions, prospective investors should note that no subsequent payment of reduced or cancelled distributions shall be made. Thus, a reduction (or a complete shortfall) of distributions has a material adverse effect on the return (or yield) achievable for the Participation Certificate Holders.

Risks stemming from the participation in an annual loss with respect to the capital invested in the Participation Certificates (conditional replenishment right and conditional claim for backpayment)

Each Participation Certificate participates in any annual loss of the Issuer in the amount of up to the value of the nominal amount of each Participation Certificate. The participation in any annual loss of the Issuer is limited to the value of the nominal amount of each Participation Certificate. A participation of any Participation Certificate Holder itself beyond its investment in the Participation Certificates is excluded and no personal liability will apply. The repayment claim of the Participation Certificate Holders shall be either reduced in the amount of the accumulated loss in the ratio in which the total nominal amount of the profit Participation Certificates stands to the total participation certificate capital shown in the financial statements and other outstanding subordinated liabilities which provide for a corresponding loss participation, or senior to any other loss transferable instruments of the Issuer (including, but not limited, to all individual items of equity), if necessary up to the full amount. To the extent applicable according to the relevant Final Terms, losses carried forward and accumulated losses from previous years shall not be taken into account. According to the Participation Certificates Conditions, a participation of a Participation Certificate Holder in an annual loss stipulates a (conditional) right to replenishment and a (conditional) claim for backpayment (which continues for three financial years after the end of the term of the Participation Certificates). Repayment claims are to be replenished up to the total nominal amount of the Participation Certificates in the following years, if and to the extent that this does not result in, or increase, an annual loss. In case the amount stemming from an annual profit is not sufficient for the full replenishment of the Participation Certificates and other outstanding subordinated liabilities of the Issuer which rank pari passu with the Participation Certificates and provide for a corresponding provision, the replenishment of the capital of the Participation Certificates shall be carried out proportionately in the ratio of their total aggregate nominal amount to the aggregate nominal amount of the other outstanding subordinated liabilities of the Issuer. This shall also apply accordingly to other participation certificates to be issued in the future, provided that their respective terms and conditions provide for a corresponding replenishment claim. In addition, and to the extent a participation in an annual loss at the end of the term of the Participation Certificates (or in case of a premature redemption) had occurred, an annual profit would arise in the following three financial years without corresponding replenishments, a claim for backpayment, i.e. a claim with respect to any differential amount between the aggregate nominal amount of the Participation Certificates and the amount repaid (on the respective day of redemption) due to a reduction of the repayment claim pursuant to the Participation Certificates Conditions and which is to be paid in arrears, shall be satisfied by the Issuer as follows: The claim for backpayment under the Participation Certificates shall first be satisfied before any other appropriation of profits is made. To the extent the relevant annual profit is not sufficient to make a full subsequent payment in respect of the Participation Certificates and other outstanding subordinated liabilities of the Issuer ranking pari passu with the Participation Certificates and provide for a corresponding provision, the subsequent payment shall be made pro rata in the following ratio: Claim for backpayment to the claim for subsequent payment under the other outstanding subordinated liabilities of the Issuer. Save for a satisfaction to take place in line with the provisions setting out the rules for a claim for backpayment, the reduction in the

repayment claim due to participation in annual loss would have a significant adverse effect on the Participation Certificate Holders, as the amount of capital repaid by the Issuer would be less than the amount invested by such Participation Certificate Holders, which would mean a loss of at least part (or all) of the invested capital.

c) Risk Factors related to specific features of the Participation Certificates

Risks associated with Participation Certificates which allow for the substitution of the Issuer

The Participation Certificates Conditions may contain provisions for the substitution of another company as principal debtor (including, as applicable, a subsequent substitution of the debtor) under the Participation Certificates in place of the Issuer. The amounts which Participation Certificate Holders should receive in respect of the Participation Certificates may be affected in the event that the Issuer substitutes another company for itself as issuer of the Participation Certificates under the relevant Participation Certificates Conditions.

Risks relating to a negative development of the market price of the Participation Certificates

In the event that a market for the Participation Certificates exists or develops, the development of its market price will depend on various factors, such as changes in the level of market interest rates, central bank policies, macroeconomic developments, the rate of inflation or the absence or excess of demand for the Participation Certificates. The Participation Certificate Holders are therefore exposed to the risk of an unfavourable development of the market prices of their Participation Certificates, which will occur if the Participation Certificate Holders sell the Participation Certificates before maturity. If the described risk were to materialise, this could have a significant negative impact on the price of the Participation Certificates and lead to corresponding losses for investors in the event of a sale of these securities before maturity.

Risk Factors relating to different early redemption scenarios:

Risks relating to an early redemption of the Participation Certificates (Call Option of the Issuer)

To the extent set out in the Participation Certificates Conditions of the relevant Final Terms, the Issuer has the right to call the Participation Certificates prior to their stated maturity at the option of the Issuer (so-called call option) on one or several dates determined beforehand or subject to the occurrence of an event specified in the Participation Certificates Conditions. Since the Issuer may redeem the Participation Certificates prior to their applicable maturity date, it is possible that the Participation Certificate Holders may receive less or substantially less redemption monies than if the Issuer redeemed such Participation Certificates on their stated maturity date as the redemption amount to be paid in case of an early redemption scenario may be subject to the mechanism provided for in the provision of the Participation Certificates Conditions entitled "*Loss Participation, Replenishment of Repayment Claims, Claim for Backpayment*" (to the extent applicable according to the relevant Final Terms). In case the early redemption amount paid by the Issuer in accordance with a call option is less than the amount to be paid on the maturity date of the Participation Certificates, this may significantly reduce the (expected) income to be generated by an investment in the Participation Certificates and therefore these circumstances and possible negative impacts should be taken into account with regard to the overall investment strategy.

Risks relating to the exclusion of the right to redeem the Participation Certificates early (exclusion of Put Option of the Participation Certificate Holders)

The relevant Final Terms may exclude the right of the Participation Certificate Holders to exercise a so-called put option. Therefore, prospective investors should note that, subject to an early redemption of the Participation Certificates due to an event of default scenario, the Participation Certificate Holders may not redeem their Participation Certificates early and, correspondingly, the Issuer is not obliged to pay any put redemption amounts.

Risks relating to an early redemption of the Participation Certificates (Put Option of the Participation Certificate Holders)

To the extent a so-called put option is enabled according to the relevant Final Terms and the respective Participation Certificate Holder exercises its put right in line with the requirements set out in the respective provision of the Participation Certificates Conditions, prospective investors should note that the put redemption amount to be paid by the Issuer may (if applicable according to the relevant Final Terms) be subject to the mechanism provided for in the provision of the Participation Certificates Conditions entitled "*Loss Participation, Replenishment of Repayment Claims, Claim for Backpayment*". Consequently, an early redemption of the Participation Certificates based on an exercised put option prior to the stated maturity date of the Participation Certificates thus may have a material adverse effect on the redemption amount of such Participation Certificates and may have a negative impact on the investment strategy of an investor in the Participation Certificates.

Risks relating to an early redemption of the Participation Certificates in connection with an event of default

The Terms Participation Certificates Conditions of the Participation Certificate provide for the right of each Participation Certificate Holder to declare its Participation Certificates due and demand immediate redemption thereof at the early redemption amount specified in the relevant Final Terms to the extent that one or more so-called events of default have occurred and are still continuing. Notwithstanding the afore-mentioned mandatory right of the Participation Certificate Holder, the redemption amount to be paid in such case may be less than the redemption amount to be paid on the maturity date as the amount to be paid may be subject to the mechanism provided for in the provision of the Participation Certificates Conditions entitled "*Loss Participation, Replenishment of Repayment Claims, Claim for Backpayment*" (to the extent applicable according to the relevant Final Terms). Hence, an early redemption of the Participation Certificates based on an event of default prior to the stated maturity date of the Participation Certificates thus may have a material adverse effect on the redemption amount of such Participation Certificates and may have a negative impact on the investment strategy of an investor in the Participation Certificates.

Risks relating to binding decisions adopted in Participation Certificate Holders' meetings

The respective Participation Certificates Conditions may provide for meetings of Participation Certificate Holders (in relation to which the detailed provisions are reproduced in this Base Prospectus) to consider matters affecting their interests generally. These provisions permit, among other things, defined majorities to bind all holders of a series of Participation Certificates, including Participation Certificate Holders who did not attend and vote at the relevant meeting and Participation Certificate Holders who voted in a manner contrary to the majority. The respective Participation Certificates Conditions also provide that the Issuer may, without the consent of Participation Certificate Holders, make any modification to the relevant Participation Certificates Conditions which is of a formal, minor or technical nature, or is made to correct a manifest or proven error, or to comply with mandatory provisions of the law of the jurisdiction in which the Issuer is incorporated or to reflect any change of law which has an impact on the Issuer's obligations under the Participation Certificates.

Risks relating to a change in the currency exchange rates

In case the Participation Certificates are denominated in a currency other than the currency of the jurisdiction where a Participation Certificate Holders is domiciled or where the Participation Certificate Holders seeks to receive funds, there is a currency exchange rates risk. As exchange rates between currencies (so-called currency exchange rates) are determined by factors of supply and demand in the international currency markets and are influenced by macro-economic factors, speculations and interventions by central banks and governments as well as by political factors (including the imposition of currency controls and restrictions). In addition, there are other factors (e.g. psychological factors) which are almost impossible to predict (e.g. a crisis of confidence in the political regime of a country) and which also may have a material impact on currency exchange rates. Moreover, currencies may be very volatile. In the event of any irregularities or manipulations in connection with the fixing of currency exchange rates, this may have a material adverse effect on the Participation Certificates. In addition, currencies may also be devalued or replaced by a different currency whose development cannot be predicted. The materialization of the risks may also have a material adverse effect on the Participation Certificates.

VIII. PROHIBITION OF SALES TO RETAIL INVESTORS IN THE EUROPEAN ECONOMIC AREA

If the relevant Final Terms in respect of any Instruments include a legend entitled "*Prohibition of Sales to Retail Investors in the European Economic Area*", the Instruments are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments and amending Directive 2002/92/EC and Directive 2011/61/EU (**MiFID II**); (ii) a customer within the meaning of Directive 2002/92/EC of the European Parliament and of the Council of 9 December 2002 on insurance mediation, where that customer would not qualify as a professional client as defined in Point (10) of Article 4 (1) of MiFID II; or (iii) not a qualified investor as defined in the Regulation (EU) 2017/1129 of the European Parliament and of the Council of 14 June 2017 on the prospectus to be published when securities are offered to the public or admitted to trading on a regulated market, and repealing Directive 2003/71/EC. If the relevant Final Terms include the above-mentioned legend, no key information document required by Regulation (EU) No. 1286/2014 of the European Parliament and of the Council of 26 November 2014 on key information documents for packaged retail and insurance-based investment products, as amended (**PRIIPs Regulation**), for offering or selling the Instruments or otherwise making them available to retail investors in the European Economic Area has been prepared and therefore offering or selling the Instruments or otherwise making them available to any retail investor in the European Economic Area may be unlawful under the PRIIPs Regulation.

IX. MIFID II PRODUCT GOVERNANCE AND IDENTIFICATION OF THE TARGET MARKET

The Final Terms in respect of any Instruments include a legend entitled "MiFID II Product Governance" which will outline the target market assessment in respect of the Instruments and which channels for distribution of the Instruments are appropriate. Any person subsequently offering, selling or recommending the Instruments (a **Distributor**) should take into consideration the target market assessment; however, a Distributor subject to MiFID II (as amended) is responsible for undertaking its own target market assessment in respect of the Instruments (by either adopting or refining the target market assessment) and determining appropriate distribution channels. A determination will be made in relation to each issue about whether, for the purpose of the MiFID Product Governance rules under EU Delegated Directive 2017/593 (**MiFID Product Governance Rules**), any dealer subscribing for any Instruments is a manufacturer in respect of such Instruments, but otherwise neither the Issuer nor the dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

With regard to the product governance requirements under (i) Directive 2014/65/EU of the European Parliament and of the Council of 15 June 2014/65/EU, (ii) Articles 9 and 10 of Commission Delegated Regulation (EU) 2017/593 supplementing MiFID II and (iii) local implementing measures (together the **MiFID II requirements**) and rejecting any liability, whether in tort, contract or otherwise which any "manufacturer" (for the purposes of MiFID II requirements) is subject to in relation to the Instruments offered, the Instruments have been subject to a product release process. As a result, it was determined that the Instruments are directed at retail investors, professional clients and eligible counterparties (each as defined in MiFID II) (the **Target Market Determination**) and the Instruments are eligible for distribution under MiFID II using all eligible distribution channels. Irrespective of the target market regulation, the market price of the Instruments may fall and investors may lose all or part of their invested capital. The Instruments offer no guaranteed income and no capital protection. An investment in the Instruments is only acceptable to investors who do not require guaranteed income or capital protection, who are able (alone or in conjunction with a suitable financial or other advisor) to evaluate

the merits and risks of such an investment and who have sufficient financial resources to compensate for any losses. The target market will be determined without prejudice to any contractual, statutory or regulatory restrictions on the sale of the Instruments offered (see section "*Selling Restrictions*"). For the avoidance of doubt, the Target Market Definition does not constitute (i) an assessment of suitability or appropriateness (for the purposes of MiFID II) nor (ii) a recommendation to any investor or group of investors to subscribe for the Instruments or take any other action with respect to the Instruments.

X. DISTRIBUTION AGENTS

The Issuer has authorised the making of a public offer of the Instruments by the distribution agents as set out in the relevant Final Terms (the **Distribution Agents**) in the Public Offer Jurisdictions during the offer period and the Issuer has consented to the use of this Base Prospectus by any other person authorised by the Distribution Agents in connection with any public offer of Instruments (under which the offer of the relevant Instruments takes place) and the applicable Final Terms in connection with a subsequent resale or final placement of the Instruments to the extent and the conditions as set out in the Base Prospectus and the Final Terms during the term of its validity in accordance with Article 12 of the Prospectus Regulation.

Information on the terms and conditions of the offer of the Notes and the Participation Certificates by a Distribution Agent is to be provided at the time of the offer by the relevant Distribution Agent.

FREQUENTLY ASKED QUESTIONS

This part of the Base Prospectus is intended to answer some of the questions which a prospective investor may have when considering an investment in the Instruments. However, any decision to invest in Instruments should only be made after having carefully considered all relevant sections of this Base Prospectus (especially the section "*Risk Factors*") and the relevant Final Terms, and consulted with financial and other professional advisors. Prospective investors should make their own independent investigation of the financial condition and affairs of the Issuer and their own appraisal of the Issuer's creditworthiness.

This section is not intended to be a substitute for or a complete summary of the Notes Conditions or Participation Certificates Conditions or the section "*General Description of the Offering and the Instruments*". The respective conditions as set out in the relevant Option in connection with the relevant Final Terms prevail.

This part begins with a section explaining the general features of all Instruments issued under the Base Prospectus. In addition, the following two sections each provide for a separate abstract which explains certain features that only apply to a specific type of Instruments issued under the Base Prospectus. Prospective investors should therefore read the section "General" and the specific sections ("Notes" and "Participation Certificates") that describe the relevant instrument type in which a prospective investor is considering to invest in.

Capitalised terms shall have the meanings given to them in the Base Prospectus.

General	
(1)	<p>What should a prospective investor read before investing?</p> <p>A prospective investor should carefully read and understand both the Base Prospectus and the relevant Final Terms prior to investing in the relevant Instruments. Any decision to invest in the Instruments should be based on a consideration of this Base Prospectus as a whole (as supplemented from time to time) including the documents incorporated by reference (if any) and the relevant Final Terms.</p> <p>This Base Prospectus contains information about the Issuer, the terms and conditions applicable to the relevant Instruments and general information about the offer and issue of the Instruments. In addition, the Base Prospectus provides information about risks related to the Issuer (and its financial situation as well as with regards to its business conducted) and risks attached to the Instruments.</p> <p>The relevant Final Terms complete the Notes Conditions or the Participation Certificates Conditions (as applicable) and contain the specific issue terms of the Instruments together with information about how investors can purchase them and other product specific information.</p>

(2)	Who is the Issuer?	The Issuer is E.Quikk plc, a public limited company established under the laws of the Republic of Ireland.
(3)	What is the business of the Issuer?	The Issuer acts as a holding company for the E-Stream Companies but, typical for a holding company in general, has no significant other and only small-sized other operative business.
(4)	What are the Instruments?	<p>The Instruments are debt instruments issued by the Issuer, E.Quikk plc. Under the Base Prospectus, the Issuer may issue different types of Instruments, either (fixed rate) notes or participation certificates.</p> <p>The Instruments may be issued either as bearer instruments or registered instruments.</p> <p>The Instrument are governed either by German, Luxembourg or Maltese law. Therefore, the Notes Conditions or the Participation Certificates Conditions and its provisions may be governed by different legal regimes.</p>
(5)	What are the Final Terms?	<p>The Final Terms constitute "Final Terms" according to Article 8 of the Prospectus Regulation.</p> <p>The purpose of the Final Terms prepared in connection with each issue of Instruments is to complete the relevant Notes Conditions or the Participation Certificates and complete the missing information which is specific to the Instrument and the issue conditions.</p>
(6)	What security do the Instruments provide for?	The Instruments do not provide for a security (e.g. a guarantee or surety).
Notes		
(1)	What types of Notes can be issued by the Issuer?	The Issuer only issues Notes either set up as fixed rate notes or step-up notes. Each Note issued under the Base Prospectus therefore is a "fixed-rate note".

(2)	What are the general differences between Notes issued under the relevant Option (according to the Notes Conditions)?	<p>First difference – the Notes may be issued in bearer or registered form. This may affect the process of transferability and the available means and ways to sell the Notes to others.</p> <p>Second difference – the Notes Conditions according to each Option are governed by different applicable laws (either German, Luxembourg or Maltese and in some cases, certain provisions of the Notes Conditions are governed by a different law in comparison to the rest of the Notes Conditions).</p>
(3)	What is the difference between fixed rate notes and step-up notes?	<p>Both type of notes provide for (a) fixed rate interest coupon(s) applicable to a certain interest period. The sum of interest to be paid for such a particular interest period is not calculated on a variable reference rate that is, at the date of the investment made into the Notes, unknown to the Investor in terms of its value/high.</p> <p>Notes set up as step-up notes provide for an additional mechanism. The fixed interest rate will increase after the lapse of an interest period and the corresponding interest amount increasing accordingly.</p>
(4)	What is the difference between bearer notes and registered notes?	<p>Bearer notes are freely and informally transferable (by way of involvement of a central securities systems and the Noteholder's account bank) and the investors remain anonymous as the Issuer does not have the owner's name and contact information on file at. Consequently, for payments of interest and principal, the central securities system and the Noteholder's account bank are involved, too). Bearer notes are commonly listed (or included to trading) on a stock exchange and therefore the bearer notes can generally be sold at current market prices via that stock exchange.</p> <p>Registered notes are bonds made out to a specific person. They are therefore, by definition, not intended for regular transfer to other persons and are not admitted to trading on the stock exchange. Registered notes may, however, be assigned to other persons. The Issuer, maintaining the register where registered notes are registered with, do have the owner's name and contact information on file. This allows the Issuer to provide interest and maturity payments directly to the registered owner. Except for a dematerialization of the registered</p>

		notes and a so-called clearing ability, registered notes are, in general, not necessarily listed or included to trading on a stock exchange.
(5)	What does it mean when Notes are "senior" and not "subordinated"?	When notes are called "senior notes" that means that they are considered before other junior bonds in the hierarchy of payment during liquidation of the Issuer. Senior bonds come with lower risk in comparison to so-called subordinate notes which in general come with higher returns and relatively higher risk. In the extreme case of liquidation of the Issuer, senior notes are paid off before subordinate notes.
(6)	What does it mean when Notes are subordinated?	Subordinated notes rank below other, more senior notes (or other debt instruments or loans) with respect to claims on assets or earnings. In the case the Issuer defaults, investors who own subordinated debt will not be paid out until after senior creditors are paid in full.
(7)	What does it mean when a subordination clause or a qualified subordination clause applies the Notes?	<p>Subordination clauses regulate the order in which the holders of claims under notes are satisfied in case of an insolvency scenario of the Issuer. The worse the ranking of the claims, the less likely it is that their creditors will be served even partially in the insolvency proceedings. They are only taken into account if the assets are sufficient to satisfy all investors with a higher ranking in full. As long as no insolvency proceedings have been opened, an investor who is not also a shareholder can, in principle, reclaim the full amount lent as soon as the claim is due.</p> <p>In the case of qualified subordination, the Notes Conditions rule out that the Noteholder's claims will not be serviced even if repayment would cause insolvency.</p>
(8)	What is a pre-insolvency enforcement block that may apply to the Notes?	A pre-insolvency enforcement block is a legal mechanism that may apply in connection with an insolvency scenario of the Issuer – and even before insolvency reasons have realized. All claims of the investor under the Notes Conditions agreement cannot be asserted against the Issuer if this would give rise to a binding reason for the Issuer to open insolvency proceedings, i.e. insolvency or overindebtedness, or if such a reason for insolvency already exists at that time. This means that the claims arising from the

		subordinated notes are already no longer enforceable if the Issuer is insolvent or overindebted at the time of the request for payment or threatens to become so as a result of the payment. The investor's claims would then be permanently blocked from being enforced unless and until the Issuer's financial crisis is resolved.
(9)	What will investors get back when the Notes will be redeemed?	Subject to certain events stipulated in the relevant Final Terms, the investor will, at the end of the life of the Notes, will receive a redemption payment in an amount set out in, and determined by, the Final Terms.
(10)	Are there any circumstances in which interest or redemption payments may be postponed or reduced?	No, redemption payments may not be postponed or reduced. The Notes Conditions do not provide for a mechanism (other than, if applicable, the pre-insolvency enforcement block described below under question " <i>Are there any circumstances in which principal will not be repaid?</i> ").
(11)	Are investors entitled to receive any payments during the life of the Notes?	Yes, investors are entitled to receive two types of payments during the lifespan of the Notes: interest and principal amount (in each case subject to the provisions of the applicable Notes Conditions).
(12)	Are there any circumstances in which principal and interest will not be repaid/paid?	Yes, a payment maybe postponed in case a pre-insolvency enforcement block applies to the period before the opening of possible insolvency proceedings over the assets of the Issuer. As a consequence, the investor may already not demand fulfilment of existing claims arising from the Notes if the Issuer is overindebted or insolvent or threatens to become so at the time of the Noteholder's demand for payment. Thus, the pre-insolvency enforcement block can lead to a permanent, indefinite non-performance of the Noteholder's claims. Besides that, payments under the Notes Conditions are always subject to the fact that the Issuer has enough funds available.
(13)	Are there any circumstances in which interest may cease to accrue or be suspended or will not be paid?	No, besides the explanatory remarks under question " <i>Are there any circumstances in which principal will not be repaid?</i> " interest may not cease to accrue or be suspended or will not be paid.

(14)	What happens if the Issuer defaults under its obligations?	The Notes Conditions provide for several scenarios according to which the Issuer "is in default". As a consequence, the Notes will be redeemed early. In this case, Noteholders will receive an early redemption payment in an amount set out in, and determined by, the Final Terms.
(15)	What does it mean when the Issuer exchanges itself for another obligor/debtor?	A substitution of an issuer is the replacement of the Issuer by a different legal entity as obligor of the Notes (including for payment of interest and repayment of principal) which are the subject of the substitution. This means that the Noteholders – as of the effective date of such substitution – assume (or have to assume) the creditworthiness and the ability of the "substitute issuer" by way of a legal mechanism which may be enabled by the solely the Issuer (subject to certain requirements according to the Notes Conditions).
Participation Certificates		
(1)	How do Participation Certificates differ from Notes?	Albeit both types of Instruments qualify as "debt instruments", Participation Certificates and, in general, entitle to distribution (similar to interest payments) and principal redemption payments, Participation Certificates provide for a mechanism that links the investor close to the financial performance of the Issuer. The main difference is the link to (and corresponding participation in) an annual loss to occur in the Issuer's financial results (gain or loss) which might be reflected in reduced or no distribution payments or redemption payments (with respect to redemption payments: at least temporarily).
(2)	What are the general differences between Participation Certificates issued under the relevant Option (according to the Participation Certificates Conditions)?	The Participation Certificates may be issued in bearer or registered form. This may affect the process of transferability and the available means and ways to sell the Participation Certificates to others. With respect to a more in thorough description, please refer to "Notes" (no. (4)).
(3)	Which status has been assigned to the Participation Certificates?	The Participation Certificates rank below other, more senior notes (or other debt instruments or loans) with respect to claims on assets or earnings. The Participation Certificates are, in each case of issuance, subordinated obligations. In the case the Issuer defaults, investors who

		<p>own subordinated debt will not be paid out until after senior creditors are paid in full.</p> <p>In addition, a (qualified) subordination clause as well as a pre-enforcement block may apply (please refer to "Notes" (nos. (7) and (8))).</p>
(4)	Are investors entitled to receive any payments during the life of the Participation Certificates?	Yes, investors are entitled to receive two types of payments during the lifespan of the Participation Certificates: distributions and principal amount (in each case subject to the provisions of the applicable Participation Certificates Conditions).
(5)	Are there any circumstances in which the Participation Certificates provide for conditional distribution payments?	Yes, distribution payments are subject to the fact that a payment may not result in or increase any accumulated loss. Accordingly, the entitlement to interest shall be reduced or shall lapse with no obligation of the Issuer in terms of additional or later payments to be made.
(6)	Are there any circumstances in which principal will not be repaid?	<p>Yes, a (full) redemption payment of the invested principal depends on the non-occurrence of a financial loss. Otherwise, a redemption payment will be reduced or be made not at all (with the possibility of a later backpayment).</p> <p>Besides that, payments under the Participation Certificates Conditions are always subject to the fact that the Issuer has enough funds available.</p>
(7)	What happens if the Issuer defaults under its obligations?	The Participation Certificates Conditions provide for several scenarios according to which the Issuer "is in default". As a consequence, the Participation Certificates will be redeemed early. In this case, Participation Certificates Holders will receive an early redemption payment in an amount set out in, and determined by and subject to, the Final Terms.
(8)	What does it mean when the Issuer exchanges itself for another obligor/debtor?	A substitution of an issuer is the replacement of the Issuer by a different legal entity as obligor of the Participation Certificates (including for payment of distribution and repayment of principal) which are the subject of the substitution. With respect to the legal consequences of such scenario, please refer to "Notes" (no. (15)).

[*in case the Notes are issued with an increasing coupon insert*: The Notes shall bear interest on their principal amount at the relevant interest rate as set out in the table below (the "**Relevant Interest Rate**"). [Where interest is to be calculated in respect of a period which is shorter or longer than an Interest Period the interest will be calculated on the basis of the actual number of days elapsed in the relevant period (from and including the most recent Interest Payment Date) divided by the actual number of days of the Interest Period (365 days and 366 days, respectively, in case of a leap year) (Actual/Actual).]

[(b) Interest rate increase.

A separate certification shall be required in respect of each such payment of interest. Any such certification received on or after the 40th day after the date of issue of the Notes represented by the Temporary Global Note will be treated as a request to exchange such Temporary Global Note pursuant to this paragraph. (d) Transferability.

The holders of the Notes (the **"Noteholders"**) will receive co-ownership participations in the Global Note, which are transferable in accordance with applicable law and the rules and regulations of the Clearing System.

§ 2 Status of the Notes [and Negative Pledge]

[(a)] Status.

The Notes constitute direct, unconditional, subordinated and unsecured obligations of the Issuer[, which provide for a pre-insolvency enforcement block,][and rank pari passu without any preference among themselves and at least pari passu with all other subordinated obligations of the Issuer, present and future save for certain mandatory exceptions provided by law].

[(b)] Negative pledge.

The Issuer undertakes [and undertakes to procure that all of its Subsidiaries], so long as any of the Notes are outstanding, but only up to the time all amounts of principal and interest have been placed at the disposal of the Principal Paying Agent [(as defined in § [11][●](a))], not to create or permit to subsist any mortgage, lien, pledge, charge or other security interest (each such right a **"Security"**) over the whole or any part of its undertakings, assets or revenues, present or future, to secure any Capital Market Indebtedness or to secure any guarantee or indemnity given by the Issuer [or any of its Subsidiaries] in respect of any Capital Market Indebtedness of any other person, without, at the same time or prior thereto, securing all amounts payable under the Notes either with equal and rateable Security or providing all amounts payable under the Notes such other Security as shall be approved by an independent accounting firm of internationally recognized standing as being equivalent security.

[This undertaking shall not apply with respect to:

(i) any Security which is provided for by law or which has been required as a condition precedent for public permissions;

(ii) any Security existing on assets at the time of the acquisition thereof by the Issuer, provided that such Security was not created in connection with or in contemplation of such acquisition and that the amount secured by such Security is not increased subsequently to the acquisition of the relevant assets[;][.]

[(iii) any Security which is provided by any Subsidiary of the Issuer with respect to any receivables of such Subsidiary against the Issuer which receivables exist as a result of the transfer of the proceeds from the sale by the subsidiary of any Capital Market Indebtedness, provided that any such Security serves to secure obligations under such Capital Market Indebtedness of the relevant Subsidiary.]

[For the purposes of these Terms and Conditions, "**Capital Market Indebtedness**" shall mean any present or future obligation for the repayment of borrowed monies which is in the form of, or represented or evidenced by bonds, notes, debentures, loan stock or other securities which are, or are capable of being, quoted, listed, dealt in or traded on any stock exchange, or other recognized over-the-counter or securities market.]

["**Subsidiary**" for purposes of [these Terms and Conditions][this § 2(b)] means any fully consolidated subsidiary of the Issuer.]

[A Security pursuant to this § 2(b) may also be provided to a trustee of the noteholders.]]]

[[~~(b)~~][~~(c)~~] [Qualified] [Subordination][subordination] clause.

In the insolvency or liquidation of the Issuer [and in light of the pre-insolvency enforcement block], the obligations of the Issuer under the Notes will rank:

[(1)] junior to all present or future unsubordinated instruments or obligations of the Issuer[.] [*in case of a qualified subordination clause insert: ; whereby:*

(i) all claims under the Notes, including but not limited to the claims for payment of the Redemption Amount and the Early Redemption Amount [and the Call Early Redemption Amount] [and the Put Early Redemption Amount] and the payment of the interest coupon, applying in accordance with section 19 para. (2) sentence 2 of the German Insolvency Code are subordinated to all claims of other current or future creditors in such a manner that any payments of principal and interest under the Notes may be demanded only after satisfaction of all other creditors ranking as stipulated in section 39 para. (1) sentence 1 (nos. 1 to 5) of the German Insolvency Code, i.e. at the ranking position stipulated in section 39 para. (2) of the German Insolvency Code. A waiver with respect to the claims is not possible;

(ii) Payments under the Notes may only be demanded from future annual net profits, from any liquidation surplus or from other disposable assets;

(iii) the Noteholders may not demand satisfaction of their claims if this results, or threatens to result, in the Issuer becoming overindebted or unable to pay its debts within applying the meaning of German insolvency law;

(iv) Paragraphs (i) to (iii) apply both before and after the opening of insolvency proceedings;

(v) apart from that, the Noteholders are entitled without restriction to assert their rights under the Notes and to claim performance.

[For the avoidance of doubt, this clause constitutes an agreement for the benefit of all creditors of the

Issuer as a whole applying within the meaning of section 328 para. (2) of the German Civil Code]. Any cancellation of this subordination agreement without the creditors' cooperation will therefore be permitted only in the event that the criteria for insolvency (paragraph (iii)) are not met or no longer met in respect of the Issuer.]]

[Subordinated claims may not be asserted for as long as, and to the extent that, the assertion of such claims would lead to over-indebtedness of the Issuer within the meaning of section 17 of the German Insolvency Code or imminent insolvency of the Issuer within the meaning of section 18 of the German Insolvency Code or insolvency of the Issuer within the meaning of section 19 of the German Insolvency Code (pre-insolvency enforcement block).]

[In the event of a payment by the Issuer in breach of a payment prohibition, the Issuer is entitled to demand repayment of the amount received from the Noteholder and to take legal action.]

[[2)]][●] pari passu (a) among themselves, and (b) with all present or future obligations under any other Tier 2 Instruments[; and][.]]

[[3)]][●] senior to all present or future (a) obligations under any AT 1 Instruments, and (b) all other subordinated instruments or obligations of the Issuer ranking or expressed to rank [(x)] subordinated to the obligations of the Issuer under the Notes [or (y) pari passu with obligations under any AT 1 Instruments].]

[[4)]][●] Pre-insolvency enforcement block/non-payment:

[If and to the extent that the partial or complete satisfaction of one or more or all of the Noteholders' claims (e.g. repayment, interest and other ancillary claims) would give rise to at least one reason for opening insolvency proceedings against the Issuer, the Noteholder cannot enforce this claim or these claims in a legally binding manner outside of insolvency proceedings (payment ban for the Noteholder). The payment prohibition applies for an indefinite period until such time as the fulfillment of the claim by the Issuer no longer gives rise to a reason for opening insolvency proceedings or all other creditors of the Issuer have agreed to the lifting of the payment prohibition. This means that claims arising from the Notes can only be legally enforced outside insolvency proceedings once the payment prohibition has been lifted.][*insert other definition: [●]*]

Qualified Subordination Agreement:

In the event of insolvency proceedings on the assets of the Issuer or the liquidation of the Issuer, the claims arising from the Notes shall rank behind all non-subordinated claims and all subordinated claims within the meaning of section 39 para. (1) sentence 1 (nos. 1 to 5) of the German Insolvency Code.

Definition:

[Reason for opening insolvency proceedings refers to the inability to pay within the meaning of section 17 of the German Insolvency Code, imminent inability to pay within the meaning of section 18 of the German Insolvency Code and overindebtedness within the meaning of section 19 of the German Insolvency Code, however, an impending overindebtedness does not constitute reasons for opening insolvency proceedings.][*insert other definition: [●]*]]

[[c)]][(d)] No Set-off or Security.

Claims of the Issuer are not permitted to be set-off against repayment obligations of the Issuer under these Notes, and no contractual collateral may be provided by the Issuer or any third person for the liabilities constituted by the Notes. [The Notes are neither secured nor subject to a guarantee that enhances the seniority of the claims under the Notes.] [The Notes are not subject to any arrangement, contractual or otherwise, that enhances the seniority of the claims under the Notes.] [No subsequent agreement may limit the subordination pursuant to paragraph [(b)][(c)].]

[§ 3 Financial Covenants

[[a)] Equity Capital Ratio.

The Issuer ensures that itself maintains an Equity Capital Ratio of at least [twenty-five][*insert other percentage rate*] [(25)][*insert other percentage rate*] percent. [The Equity Capital Ratio shall be calculated in accordance with [local GAP] [or] [EU-IFRS] [or] [IFRS] [at the Issuers' option].]

Whereby:

"Equity Capital Ratio" means the balance sheet equity divided by the balance sheet total, whereby all figures are to be determined from the last audited annual financial statements of the Issuer [and the Issuer is entitled, for the purpose of calculating the equity capital ratio, to continue the accounting methods used at the time of the issue – eventually also deviating from the audited [annual] [or] [semi-annual] financial statements].

"Reporting Date" means the 31 December 20[●] [and each further 31 December] [of each calendar year until the Redemption Date].]

[(a)] Interest and interest rate.

[*in case of Notes to be issued with a constant coupon insert:* The Notes will bear interest on their

principal amount at a rate of *[insert interest rate]* % per annum (the "**Interest Rate**") as from *[insert issue date]* (the "**Issue Date**") , whereby no obligation to pay interest applies if, on the basis of the agreed *[qualified]* subordination *[or the pre-insolvency enforcement block]* pursuant to § 2[(b)][(c)], the Issuer is not obliged to pay or the Noteholders may not assert their claims. Interest is payable in arrears on *[insert interest payment date(s)]* of each year (each an "**Interest Payment Date**" and the period from the Issue Date (inclusive) up to the first Interest Payment Date (exclusive) and thereafter as from any Interest Payment Date (inclusive) up to the next following Interest Payment Date (exclusive) being an "**Interest Period**"). The first interest payment will be due on *[insert first interest payment date]*.]

The Notes shall cease to bear interest from the beginning of the day they are due for redemption, or, in case the Issuer fails to make any payment under the Notes when due, from the beginning of the day on which such payment is made. *[In such case interest shall continue to accrue on the outstanding principal amount of the Notes beyond the Redemption Date (as defined in § 5][●][(a)) (including) until the date of the actual redemption of the Notes (excluding) at the default rate of interest established by law².][In such case, the Interest Rate shall be increased by 5][insert percentage point(s)] percentage point[s] per annum.]*

[Where interest is to be calculated in respect of a period which is shorter or longer than an Interest Period the interest will be calculated on the basis of the actual number of days elapsed in the relevant period (from and including the most recent Interest Payment Date) divided by the actual number of days of the Interest Period (365 days and 366 days, respectively, in case of a leap year) (Actual/Actual).]

*[in case the Notes are issued with an increasing coupon insert: The Notes shall bear interest on their principal amount at the relevant interest rate as set out in the table below (the "**Relevant Interest Rate**"). Interest shall be scheduled to be paid for each interest period (each such period, an "**Interest Period**") on an interest payment date (each such date, an "**Interest Payment Date**", commencing on *[insert date]* (the "**Issue Date**").*

The Notes shall cease to bear interest from the beginning of the day they are due for redemption, or, in case the Issuer fails to make any payment under the Notes when due, from the beginning of the day on which such payment is made. In such case, the Relevant Interest Rate shall be increased by 5][insert percentage point(s)] percentage point[s] per annum.

[Where interest is to be calculated in respect of a period which is shorter or longer than an Interest Period the interest will be calculated on the basis of the actual number of days elapsed in the relevant period (from and including the most recent Interest Payment Date) divided by the actual number of days of the Interest Period (365 days and 366 days, respectively, in case of a leap year) (Actual/Actual).]

[(b) Interest rate increase.

The Issuer undertakes, in the event that Issuer notifies by way of a Disclosure Notification that

[- the Equity Capital Ratio (determined in accordance with § 3[(a)]) as of the relevant Reporting Date

is below the ratio as set out in § 3[(a)][,]; [or]]

[- the information obligation in accordance with § 3[(c)][●] has not been fulfilled in time at the relevant [Annual Financial Statement Publication Date][Publication Date][,]; [or]]

§ [5][●] Maturity, Redemption [, Early Redemption [for Tax Reasons] [, at the Option of the Issuer] [, at the Option of the Noteholders]] [and Repurchase] [and Cancellation]

[(a)] Maturity and redemption.

The Notes will be redeemed at the redemption amount (the **"Redemption Amount"**) on [*insert redemption date*] (the **"Redemption Date"**), unless, on the basis of the agreed [qualified] subordination [or the pre-insolvency enforcement block] pursuant to § 2[(b)][(c)], the Issuer is not obliged to pay or the Noteholders may not assert their claims. The Redemption Amount in respect of each Note shall be [[●] % of] the principal amount [[plus][minus] [Euro][*insert other currency*] [*insert amount*]]. [Subject to the provisions of § [8][●], there will be no early redemption [except in the following cases].]

If at any future time as a result of a change of the laws applicable in Ireland or a change in their official application, the Issuer is required, or at the time of the next succeeding payment due in respect of principal or interest will be required, to pay Additional Amounts (as defined in § [7][●](a)), and such obligation cannot be avoided taking reasonable measures available to the Issuer, the Issuer will be entitled, upon not less than [30][*insert other number of days*] days' and not more than [60][*insert other number of days*] days' notice to be given by publication in accordance with § [14][●], to redeem all Notes at the Early Redemption Amount plus accrued and unpaid interest to (but excluding) the Early Redemption Date interest.

No notice of redemption pursuant to this § [5][●](b) shall be given (i) earlier than [90][*insert other number of days*] days prior to the earliest date on which the Issuer would be obligated to pay Additional Amounts if a payment in respect of the Notes was then due, or (ii) if at the time such notice is given,

such obligation to pay such Additional Amounts does not remain in effect.

Any such notice shall be irrevocable and must specify the Early Redemption Date and must set forth a statement in summary form of the facts constituting the basis for the right of the Issuer so to redeem.

"Early Redemption Amount" for purposes of [these Terms and Conditions][this § [5][●](b)] means [[●] % of] the principal amount [[plus][minus] [Euro][insert other currency] [insert amount]].

"Early Redemption Date" means the date specified in the redemption notice issued in accordance with § [14][●] as the relevant date for redemption.]

[specified dates]	[specified amount]

The early redemption of the Notes pursuant to § [5(c)][●] shall be declared to the Noteholders by publication in accordance with § [14][●]. Such notice of termination shall mandatorily specify the following details: (i) the Call Early Redemption Date and (ii) the Call Early Redemption Amount at which the Notes are to be redeemed. The Call Early Redemption Date must be a Business Day within the meaning of § [6][●](c). Such notice shall be irrevocable. In respect of the Notes which are subject to redemption the entitlement to interest shall end with the day immediately preceding the Call Early Redemption Date.

[The Issuer may not exercise such option in respect of any Note which is the subject of the prior exercise by the Noteholder thereof of its option to require the redemption of such Note under § [5(d)][●].]

[[d)][●] Early redemption at the option of the Noteholders upon a change of control.

If a Change of Control occurs, each Noteholder shall have the right to require the Issuer to redeem or, at the Issuer's option, purchase (or procure the purchase by a third party of) in whole or in part his Notes at the Put Early Redemption Amount (the **"Put Option"**). An exercise of the Put Option shall, however, only become valid if during the Put Period Noteholders of Notes with an aggregate principal amount of at least [90][insert other percentage rate] % of the Aggregate Principal Amount of the Notes then outstanding have exercised the Put Option.

"Change of Control" means the occurrence of any of the following events:

- (i) the Issuer becomes aware that any Third Person or group of Third Persons acting in concert within the meaning of section 2 para. the voting rights of the surviving person immediately after such merger and (B) in the case of a sale of all or substantially all of the assets, each transferee becomes a guarantor in respect of the Notes and is or becomes a Subsidiary of the Issuer.

[It shall not be qualified as a Change of Control, however, if following the admission of the Issuer's shares to trading on [the regulated market] [or] [a MTF-market] [or] [an OTF-market] of a German stock exchange or an equivalent market segment of a foreign stock exchange less than 50 % of the voting rights of the Issuer are owned by a holding company of the Issuer. It shall also not be qualified as a Change of Control, if shares of the Issuer or any other participating interest will be transferred by testamentary or hereditary succession.]

If a Change of Control occurs, then the Issuer shall, without undue delay, after becoming aware thereof, give notice of the Change of Control (a "**Put Event Notice**") to the Noteholders in accordance with § [14][●] specifying the nature of the Change of Control and the procedure for exercising the Put Option contained in this § [5][●](d).

The exercise of the Put Option pursuant to § [5(d)][●] must be declared by the Noteholder within [30][*insert other number of days*] days after a Put Event Notice has been published (the "**Put Period**") to the Depository Bank (as defined in § [16][●](d)) of such Noteholder in writing (the "**Put Notice**"). The Issuer shall redeem or, at its option, purchase (or procure the purchase of) the relevant Note(s) on the date [seven][*insert other number of days*] days after the expiration of the Put Period (the "**Put Redemption Date**") unless previously redeemed or purchased and cancelled. [[f)][●] Cancellation.

All Notes redeemed in full shall be cancelled forthwith and may not be reissued or resold.]

§ [6][●] Payments and Deposit

(a) Payments.

The Issuer undertakes to pay, as and when due, principal and interest on the Notes in [Euros][*insert other currency*]. Payment of principal and interest on the Notes shall be made, subject to applicable fiscal and other laws and regulations, through the Principal Paying Agent for on-payment to the Clearing System or to its order for credit to the respective account holders. Payments to the Clearing System or to its order shall to the extent of amounts so paid constitute the discharge of the Issuer from its corresponding liabilities under the Notes. Any reference in these Terms and Conditions of the Notes to principal or interest will be deemed to include any Additional Amounts as set forth in § [7][●](a).

If any payment of principal or interest (as well as any amounts payable on the Notes) is to be effected on a day other than a Business Day, payment will be effected on the next following Business Day. In this case, the relevant Noteholders will neither be entitled to any payment claim nor to any interest

claim or other compensation with respect to such delay.

References in these Terms and Conditions to principal in respect of the Notes shall be deemed to include, as applicable: the Redemption Amount [and the Early Redemption Amount] [and the Call Early Redemption Amount] [and the Put Early Redemption Amount] and any premium and any other amounts which may be payable under or in respect of the Notes. References in these Terms and Conditions to interest in respect of the Notes shall be deemed to include, as applicable, any Additional Amounts which may be payable under § [7][●](a).

"**Business Day**" for purposes of these Terms and Conditions means a day (other than a Saturday or Sunday) on which (i) the real time gross settlement system operated by the Eurosystem (T2) and (ii) the Clearing System are operating and settle payments.

(b) Deposits.

The Issuer may deposit with the local court in Duisburg principal and interest (as well as any amounts payable on the Notes) not claimed by Noteholders within twelve months after the relevant due date, even though such Noteholders may not be in default of acceptance of payment. If and to the extent that the deposit is effected and the right of withdrawal is waived, the relevant claims of such Noteholders against the Issuer shall cease.

§ [7][●] Taxes

(a) General taxation.

All amounts payable under the Notes will be paid without deduction or withholding for or on account of any present or future taxes or duties of whatever nature imposed or levied by way of deduction or withholding at source by or on behalf of Ireland or by or on behalf of any political subdivision or authority thereof or therein having power to tax, unless such deduction or withholding is required by law.

In such event the Issuer will pay such additional amounts (the "**Additional Amounts**") as may be necessary in order that the net amounts after such deduction or withholding will equal the amounts that would have been payable if no such deduction or withholding had been made.

No Additional Amounts will be payable pursuant to § [7][●] with respect to taxes, duties or government charges which

(i) are payable by any person acting as custodian bank or collecting agent on behalf of a Noteholder, or otherwise in any manner which does not constitute a deduction or withholding by the Issuer from payments of principal or interest made by it; or

(ii) are payable by reason of the Noteholder having, or having had, some personal or business connection with Ireland or another member state of the European Union and not merely by reason of the fact that payments in respect of the Notes are, or for purposes of taxation are deemed to be, derived from sources in, or are secured in, Ireland;

(iii) are deducted or withheld pursuant to (A) any European Union Directive or Regulation concerning the taxation of interest income, or (B) any international treaty or understanding relating to such taxation and to which Ireland or the European Union is a party, or (C) any provision of law implementing, or complying with, or introduced to conform with, such Directive, Regulation, treaty or understanding; or

(iv) are payable by reason of a change in law that becomes effective more than [30][*insert other number of days*] days after the relevant payment of principal or interest becomes due, or, if this occurs later, after all due amounts have been duly provided for and a publication to that effect has been published in accordance with § [14][●].

(b) Obligation to notify.

The Issuer undertakes to immediately notify the Paying Agent if it is at any time required by law to make deductions or withholdings (or if the rates or methods of calculating such deductions or withholdings change) from payments due under these Terms and Conditions.

§ [8][●] Events of Default

(a) Exclusion of the ordinary right to call.

The Noteholder's right to call is excluded.

(b) Extraordinary termination.

Each Noteholder will be entitled to declare his Notes due and demand immediate redemption of its Notes at the Early Redemption Amount plus accrued interest, if

[[(i)] the Issuer fails to provide principal or interest within [7][*insert other number of days*] days from the relevant due date, whereby no right of the Noteholders to terminate the Notes and no relevant obligation of the Issuer to redeem apply if, on the basis of the agreed [qualified] subordination [or the pre-insolvency enforcement block] pursuant to § 2[(b)][(c)], the Issuer is not obliged to pay or the Noteholders may not assert their claims;]

[[(ii)] the Issuer fails to duly perform any other material obligation arising from the Notes and such default, except where such default is incapable of remedy, continues unremedied for more than [30][*insert other number of days*] days after the Issuer has received notice thereof from a Noteholder;]

[[(iii)] the Issuer [or a Material Subsidiary] states in writing that it is unable to pay its debts as they become due (*Cessation of payment*);]

[[e]][●] Pre-insolvency enforcement block/non-payment

Definitions:

[Reason for opening insolvency proceedings refers to the inability to pay within the meaning of section 17 of the German Insolvency Code, imminent inability to pay within the meaning of section 18 of the German Insolvency Code and overindebtedness within the meaning of section 19 of the German Insolvency Code. Impending overindebtedness does not constitute reasons for opening insolvency proceedings.

If and to the extent that the partial or complete satisfaction of one or more or all of the Noteholders' claims (e.g. repayment, interest and other ancillary claims) would give rise to at least one reason for opening insolvency proceedings against the Issuer, the Noteholder cannot enforce this claim or these claims in a legally binding manner outside of insolvency proceedings (payment ban for the Noteholder). The payment prohibition applies for an indefinite period until such time as the fulfillment of the claim by the Issuer no longer gives rise to a reason for opening insolvency proceedings or all other creditors of the Issuer have agreed to the lifting of the payment prohibition. This means that claims arising from the Notes can only be legally enforced outside insolvency proceedings once the payment prohibition has been lifted.][insert other definition: [●]]

2. TRANSFERS

- (a) A Note may be transferred by depositing at the specified office of the Registrar and Transfer Agent a document evidencing the transfer of the registered Note in the form satisfactory to the Registrar and Transfer Agent and the Issuer, together with a copy of the passport or ID card of each of the transferor and the transferee and/or such other documents as the Registrar and Transfer Agent and the Issuer may reasonably require.
- (b) Registration of transfer of the Notes will be effected without charge by or on behalf of the Issuer but upon payment (or the giving of such indemnity as the Issuer may reasonably require) in respect of any tax or other governmental charges which may be imposed in relation to such transfer.

3. CLOSED PERIODS

No Noteholder may require the transfer of a Note to be registered (i) after an event of default notice has been issued pursuant to Clause 8(b) or (ii) during the period of [15][●] calendar days ending on the due date for any payment in respect of that Note. [Furthermore, the Issuer shall not be required, in the event of an early redemption of the Notes under Clause 7.2, to register the transfer of these Notes (or parts of these Notes) during the period beginning on the [twenty-fifth (25th)] [●] calendar day before the Put Redemption Date and ending on the Put Redemption Date (both inclusive).]

4. STATUS

The Notes constitute direct, unsecured and subordinated obligations of the Issuer.

[[Qualified] subordination clause:

In the insolvency or liquidation of the Issuer, the obligations of the Issuer under the Notes will rank:

- (a) junior to all present or future unsubordinated instruments or obligations of the Issuer[.];]

[

- (b) whereby:

- [(i) All claims under the Notes, including but not limited to the claims for payment of the Principal Amount[, the Call Redemption Amount] and the payment of distributions, applying mutatis mutandis in accordance with section 19 para. (2) sentence 2 of the German Insolvency Code are subordinated to all claims of other current or future creditors in such a manner that any payments of principal and interest under the Notes may be demanded only after satisfaction of all other creditors ranking as stipulated in section 39 para. (1) sentence 1 (nos. 1 to 5) of the German Insolvency Code, i.e. at the ranking position stipulated in section 39 para. (2) of the German Insolvency Code. A waiver with respect to the claims is not possible.]

- [[ii)] [●] Payments under the Notes may only be demanded from future annual net profits, from any liquidation surplus or from other disposable assets.]

[[iii]][●] The Noteholders may not demand satisfaction of their claims if this results, or threatens to result, in the Issuer becoming overindebted or unable to pay its debts within applying mutatis mutandis the meaning of German insolvency law.]

[[iv]][●] Paragraphs [(i)][●] [to] [(iii)][●] apply both before and after the opening of insolvency proceedings.]

[[v]][●] In all other respects, the Noteholders are entitled without restriction to assert their rights under the Notes and to claim performance.]

[[vi]][●] For the avoidance of doubt, this clause constitutes an agreement for the benefit of all creditors of the Issuer as a whole applying mutatis mutandis within the meaning of section 328 para. (2) of the German Civil Code. Any cancellation of this subordination agreement without the creditors' cooperation will therefore be permitted only in the event that the criteria for insolvency (paragraph (iii)) are not met or no longer met in respect of the Issuer.]

]

[[c]][●] pari passu among themselves[;][.]

[[d]][●] senior to [all other subordinated instruments or obligations of the Issuer ranking or expressed to rank subordinated to the obligations of the Issuer under the Notes;][.]]

[[e]][●] Pre-insolvency enforcement block/non-payment

Definitions:

[Reason for opening insolvency proceedings refers to the inability to pay within the meaning of section 17 of the German Insolvency Code, imminent inability to pay within the meaning of section 18 of the German Insolvency Code and overindebtedness within the meaning of section 19 of the German Insolvency Code. Impending overindebtedness does not constitute reasons for opening insolvency proceedings.

If and to the extent that the partial or complete satisfaction of one or more or all of the Noteholders' claims (e.g. repayment, interest and other ancillary claims) would give rise to at least one reason for opening insolvency proceedings against the Issuer, the Noteholder cannot enforce this claim or these claims in a legally binding manner outside of insolvency proceedings (payment ban for the Noteholder). The payment prohibition applies for an indefinite period until such time as the fulfillment of the claim by the Issuer no longer gives rise to a reason for opening insolvency proceedings or all other creditors of the Issuer have agreed to the lifting of the payment prohibition. This means that claims arising from the Notes can only be legally enforced outside insolvency proceedings once the payment prohibition has been lifted.][*insert other definition:* [●]]

[

Subordination Agreement

In the event of insolvency proceedings on the assets of the Issuer or the liquidation of the Issuer, the claims arising from the Notes shall rank behind all non-subordinated claims and all subordinated claims within the meaning of section 39 para. (1) sentence 1 (nos. 1 to 5) of the German Insolvency Code.][*insert other definition:* [●]]

4. STATUS

The [Notes][Bonds] constitute direct, unsecured and subordinated obligations of the Issuer.

[[Qualified] subordination clause:

In the insolvency or liquidation of the Issuer, the obligations of the Issuer under the [Notes][Bonds] will rank:

- (a) junior to all present or future unsubordinated instruments or obligations of the Issuer[.];[;]

- (b) whereby:

(i) All claims under the [Notes][Bonds], including but not limited to the claims for payment of the Principal Amount[, the Call Redemption Amount] and the payment of distributions, applying mutatis mutandis in accordance with section 19 para. (2) sentence 2 of the German Insolvency Code are subordinated to all claims of other current or future creditors in such a manner that any payments of principal and interest under the [Notes][Bonds] may be demanded only after satisfaction of all other creditors ranking as stipulated in section 39 para. (1) sentence 1 (nos. 1 to 5) of the German Insolvency Code, i.e. at the ranking position stipulated in section 39 para. (2) of the German Insolvency Code. A waiver with respect to the claims is not possible.]

[(ii)] Payments under the [Notes][Bonds] may only be demanded from future annual net profits, from any liquidation surplus or from other disposable assets.]

[(iii)] The [Noteholders][Bondholders] may not demand satisfaction of their claims if this results, or threatens to result, in the Issuer becoming overindebted or unable to pay its debts within applying mutatis mutandis the meaning of German insolvency law.]

(2) of the German Civil Code. Any cancellation of this subordination agreement without the creditors' cooperation will therefore be permitted only in the event that the criteria for insolvency (paragraph (iii)) are not met or no longer met in respect of the Issuer.]

]

[(c)] pari passu among themselves[;[.]]

[(d)] senior to all other subordinated instruments or obligations of the Issuer ranking or expressed to rank subordinated to the obligations of the Issuer under the [Notes][Bonds][;[.]]

[(e)] Pre-insolvency enforcement block/non-payment

Definitions:

[Reason for opening insolvency proceedings] refers to the inability to pay within the meaning of section 17 of the German Insolvency Code, imminent inability to pay within the meaning of section 18 of the German Insolvency Code and overindebtedness within the meaning of section 19 of the German Insolvency Code. Impending overindebtedness does not constitute reasons for opening insolvency proceedings.

If and to the extent that the partial or complete satisfaction of one or more or all of the [Noteholders'] [Bondholders'] claims (e.g. repayment, interest and other ancillary claims) would give rise to at least one reason for opening insolvency proceedings against the Issuer, the [Noteholder] [Bondholder] cannot enforce this claim or these claims in a legally binding manner outside of insolvency proceedings (payment ban for

the [Noteholder][Bondholder]). The payment prohibition applies for an indefinite period until such time as the fulfillment of the claim by the Issuer no longer gives rise to a reason for opening insolvency proceedings or all other creditors of the Issuer have agreed to the lifting of the payment prohibition. This means that claims arising from the [Notes][Bonds] can only be legally enforced outside insolvency proceedings once the payment prohibition has been lifted.][insert other definition: [●]]

[

Subordination Agreement

In the event of insolvency proceedings on the assets of the Issuer or the liquidation of the Issuer, the claims arising from the [Notes][Bonds] shall rank behind all non-subordinated claims and all subordinated claims within the meaning of section 39 para. (1) sentence 1 (nos. 1 to 5) of the German Insolvency Code.][insert other definition: [●]]

Definitive Participation Certificates will be authenticated by the Paying Agent.

5. STATUS, RANKING[, QUALIFIED SUBORDINATION CLAUSE AND PRE-INSOLVENCY ENFORCEMENT BLOCK]

[5.1] Status and Ranking

- (a) The Participation Certificates constitute direct, unsecured and subordinated obligations of the Issuer.
- (b) Claims arising from the Participation Certificates rank behind the claims of all other non-subordinated creditors of the Issuer. In the event of insolvency proceedings over the assets or liquidation of the Issuer, the Participation Certificates will be redeemed after satisfaction of all non-subordinated creditors, ranking *pari passu* with all other subordinated liabilities outstanding at that time, unless they are expressly subordinated to the Participation Certificates. The Participation Certificates do not grant a share in the liquidation proceeds.
- (c) The Participation Certificate Holders shall not be entitled to have their claims to Distribution rank prior to the distribution claims attributable to other participation certificates of the Issuer.

[5.2] Qualified Subordination Clause and Pre-Insolvency Enforcement Block

In the insolvency or liquidation of the Issuer, the obligations of the Issuer under the Participation Certificates will rank:

- (a) junior to all present or future unsubordinated instruments or obligations of the Issuer;
- (b) whereby:
 - (i) All claims under the Participation Certificates applying *mutatis mutandis* in accordance with section 19 (2) sentence 2 of the German Insolvency Code are subordinated to all claims of other current or future creditors in such a manner that any payments of principal and interest under the Participation Certificates may be demanded only after satisfaction of all other creditors ranking as stipulated in section 39 para. (1) sentence 1 (nos. 1 to 5) of the German Insolvency Code, i.e. at the ranking position stipulated in section 39 para. (2) of the German Insolvency Code. A waiver with respect to the claims is not possible.
 - (ii) Payments under the Participation Certificates may only be demanded from future annual net profits, from any liquidation surplus or from other disposable assets.
 - (iii) The Participation Certificate Holders may not demand satisfaction of their claims if this results, or threatens to result, in the Issuer becoming overindebted or unable to pay its debts within applying *mutatis mutandis* the meaning of German insolvency law.
 - (iv) Paragraphs (i) to (iii) apply both before and after the opening of insolvency proceedings.
 - (v) In all other respects, the Participation Certificate Holders are entitled without restriction to assert their rights under the Participation Certificates and to claim performance.
 - (vi) For the avoidance of doubt, this clause constitutes an agreement for the benefit of all creditors of the Issuer as a whole applying *mutatis mutandis* within the

meaning of section 328 para. (2) of the German Civil Code. Any cancellation of this subordination agreement without the creditors' cooperation will therefore be permitted only in the event that the criteria for insolvency (paragraph (iii)) are not met or no longer met in respect of the Issuer.

- (c) pari passu among themselves;
- (d) senior to all present or future all other subordinated instruments or obligations of the Issuer ranking or expressed to rank subordinated to the obligations of the Issuer under the Participation Certificates;
- (e) Pre-insolvency enforcement block/non-payment

Definitions:

"Reason for opening insolvency proceedings" refers to mutatis mutandis the inability to pay within the meaning of section 17 of the German Insolvency Code, imminent inability to pay within the meaning of section 18 of the German Insolvency Code and "overindebtedness" within the meaning of section 19 of the German Insolvency Code. Impending overindebtedness does not constitute reasons for opening insolvency proceedings.

If and to the extent that the partial or complete satisfaction of one or more or all of the Participation Certificate Holders' claims (e.g. repayment, interest and other ancillary claims) would give rise to at least one reason for opening insolvency proceedings against the Issuer, the Participation Certificate Holder cannot enforce this claim or these claims in a legally binding manner outside of insolvency proceedings (payment ban for the Participation Certificate Holder). The payment prohibition applies for an indefinite period until such time as the fulfillment of the claim by the Issuer no longer gives rise to a reason for opening insolvency proceedings or all other creditors of the Issuer have agreed to the lifting of the payment prohibition. This means that claims arising from the Participation Certificates can only be legally enforced outside insolvency proceedings once the payment prohibition has been lifted.

Subordination Agreement:

In the event of insolvency proceedings on the assets of the Issuer or the liquidation of the Issuer, the claims arising from the Participation Certificates shall rank behind all non-subordinated claims and all subordinated claims within mutatis mutandis the meaning of section 39 para. (1) sentence 1 (nos. 1 to 5) of the German Insolvency Code.]

6. EXCLUSION OF SETOFF, NO SECURITY

- (a) Claims of the Issuer are not permitted to be set-off against repayment obligations of the Issuer under these Participation Certificates, and no contractual collateral may be provided by the Issuer or any third person for the liabilities constituted by the Participation Certificates. The Participation Certificates are neither secured nor subject to a guarantee that enhances the seniority of the claims under the Participation Certificates. The Participation Certificates are not subject to any arrangement, contractual or otherwise, that enhances the seniority of the claims under the Participation Certificates. No subsequent agreement may limit the subordination pursuant to this Clause 6 (a).
- (b) The right to set off liabilities of a Participation Certificate Holder against the Issuer with claims under the Participation Certificates is excluded.

7. ENTITLEMENT TO DISTRIBUTION

- (a) Subject to the paragraphs below and as of the Distribution Commencement Date, the Participation Certificates entitle the Participation Certificate Holders to an annual distribution (the **Distribution**). The amount of Distribution (the **Distribution Amount**) to be paid corresponds to the equivalent of the product of (i) the Aggregate Nominal Amount and (ii) the Distribution Rate. The Distribution Amount is payable from, and including, the Distribution Commencement Date to, but excluding, the Maturity Date. The Distribution Amount in relation to each Participation Certificate and in respect of each Distribution Period shall be payable in arrears on the relevant Distribution Payment Date. Each Distribution (as reflected in the relevant Financial Statements and due for payment on the relevant Distribution Payment Date) is to be made for the respective previous Financial Year of the Issuer. Distribution will not accrue in respect of each Distribution Period.
- (b) If distributions are to be calculated for a Distribution Period with more or less than 365 days (the **Adjusted Distribution Period**), the Distribution Amount corresponds to the equivalent of the product of (i) the Aggregate Nominal Amount and (ii) the Distribution Rate and (iii) the Distribution Quotient. The resulting Distribution Amount shall be rounded up or down to the smallest unit of the specified currency, with 0.5 such units being rounded up.
- (c) Distribution with respect to Participation Certificates are subject to the requirement that it may not result in or increase any accumulated Annual Loss. The entitlement to Distribution shall be reduced or shall lapse to the extent as it would result in or increase an accumulated Annual Loss. In case the entitlement to a Distribution is reduced as a result of the latter limitation, the reduction shall be made in proportion to the respective distribution claims under the Participation Certificates and other outstanding subordinated liabilities that rank *pari passu* with the Participation Certificates and which provide for a corresponding legal mechanism. There will be no additional payment in future years (not cumulative).
- (d) The Issuer may decide to pay interim Distributions (the **Interim Distribution(s)**). The Interim Distribution(s) may be calculated by the Issuer in regard to an expected Distribution Amount for each Business Year. In case the relevant Interim Distribution Amount is higher than the Distribution Amount determined in accordance with Clause 7.1, the amount exceeding the respective Distribution Amount is carried forward and will in subsequent years of the term of the Participation Certificates reduce the Distribution Amount [and/or Redemption Amount]. [In case the Interim Distribution(s) exceed(s) the Distribution Amount [and the Redemption Amount] and subject to the following sentences, the Interim Distribution(s) are repayable by the Participation Certificate Holder. The repayment of Interim Distribution(s) is subject to a notice of repayment (the **Interim Distribution(s) Repayment Notice**). The Interim Distribution(s) Repayment Notice will provide for the respective repayment date which shall not be earlier than the [20]th day upon receipt of the Interim Distribution(s) Repayment Notice.]

8. REDEMPTION

8.1 Final Redemption

- (a) The term of the Participation Certificates ends on the Maturity Date.
- (b) Subject to the provisions of Clause 9 (*Loss Participation, Replenishment of Repayment Claims, Claim for Backpayment*), the Participation Certificates shall be redeemed at the Redemption Amount. The Redemption Amount (as well as the last Distribution

Amount) is due for payment on the Maturity Date. Once all the Participation Certificates have been so redeemed, the obligations of the Issuer under these Terms and Conditions shall be fully discharged and the Participation Certificate Holders shall have no further claim or recourse against the Issuer.

- (c) Subject to Clause 10.6 and to the extent the Issuer fails to pay the Redemption Amount when due, the Redemption Amount shall bear interest [[●] per cent.][the default rate of interest established by law] from and including the due date for redemption to but excluding the date of actual payment of the Redemption Amount.

8.2 Early Redemption at the Option of the Issuer

- (a) The Issuer may, after having terminated in accordance with the following subparagraph [and after the lapse of [five (5)][●] full Financial Years], declare due and redeem all or parts of the Participation Certificates outstanding at the Early Redemption Amount (Call Event) on the relevant Early Redemption Date (Call Event).

An early redemption in accordance with this Clause 8.2 (a) is conditional to the circumstance that there has been no Loss Participation in accordance with Clause 9 (*Loss Participation, Replenishment of Repayment Claims, Claim for Backpayment*) or the Claims of Backpayment (as defined in Clause 9.3) have been fully replenished or can be replenished at the end of the term at the end of the relevant Financial Year in which the early redemption shall take place.

The Issuer [shall][may, at its option,] issue a notice to the Participation Certificate Holders in accordance with Clause 20 (*Notices*) below by which it informs the Participation Certificate Holders about the early redemption of the Participation Certificates on the Early Redemption Date (Call Event).

- (b) In addition, in the event that:

- a Balance Sheet Event has occurred; and/or
- an Illegality Event; and/or
- a Tax Event has occurred,

the Issuer [shall][may, at its option,] issue a notice to the Participation Certificate Holders in accordance with Clause 20 (*Notices*) below by which it informs the Participation Certificate Holders about the early redemption of the Participation Certificates (in whole but not in part) on the Early Redemption Date (Balance Sheet Event) and the Early Redemption Date (Tax Event) respectively.

On the respective early redemption date mentioned in the latter sub-paragraph, the Issuer shall redeem each Participation Certificate by paying the Early Redemption Amount (Additional Events) to the Participation Certificate Holders. In such a case, the obligations of the Issuer under these Terms and Conditions shall be fully discharged and the Participation Certificate Holders shall have no further claim or recourse against the Issuer.

With respect to an early redemption in connection with a Balance Sheet Event, notice of termination may be given no earlier than at the end of the Financial Year preceding the Financial Year in which the relevant change in the accounting principles in connection with a Balance Sheet Event is applied for the first time. Subject to the provisions of Clause 7 (*Entitlement to Distribution*), repayment shall be made [on the 15th day after the respective Financial Statements of the Issuer have been setup, audited

and approved by the Extraordinary General Meeting or Ordinary Annual General Meeting (each an **AGM**)[*insert other time mechanism*] (the **Early Redemption Date (Balance Sheet Event)**).

With respect to an early redemption in connection with a Tax Event, notice of termination may be given no earlier than the end of the financial year preceding the Distribution in which the tax burden would first apply to the Issuer. Subject to the provisions of Clause 7 (*Entitlement to Distribution*), redemption shall take place [on the 15th day after the respective Financial Statements of the Issuer have been setup, audited and approved by the AGM][*insert other time mechanism*] (the **Early Redemption Date (Tax Event)**).

- (c) Clause 7 (b) and Clause 8.1 (c) shall apply accordingly.

8.3 No Redemption at the Option of the Participation Certificate Holder

Without prejudice to their right of early redemption in connection with an Event of Default pursuant to Clause 12 (*Events of Default*), the Holders of Participation Certificates do not have a right to demand the redemption of the Participation Certificates [except for as defined in Clause 8.4 for Early Redemption at the Option of the Holders of the Participation Certificates.]

[8.4 Redemption at the Option of the Holders of Participation Certificates

9. LOSS PARTICIPATION, REPLENISHMENT OF REPAYMENT CLAIMS, CLAIM FOR BACKPAYMENT

9.1 Loss Participation

The Participation Certificate Holders participate in the Annual Loss of a Financial Year to the full amount (the **Loss Participation**). In the amount of the relevant Annual Loss, the repayment claim of the Participation Certificate Holders shall be reduced [in the ratio in which the Aggregate Nominal Amount of the Participation Certificates stands to the total amount of participatory capital shown in the balance sheet (taken from the respective Financial Statements) and other outstanding subordinated liabilities that provide for a corresponding loss participation,][senior to any other loss transferable instruments of the Issuer (including, but not limited, to all individual items of equity),] if applicable up to the full amount. [Losses carried forward and accumulated losses from previous Financial Years [[and][or] the current Financial Year] shall not be taken into account.] [The Issuer is obliged to avoid reporting an Annual Loss by using reserves (to the extent legally permissible) or profits carried forward.]

9.2 Replenishment of Repayment Claims

After participation in a Loss Participation, the repayment claims must be replenished in subsequent Financial Years up to the Aggregate Nominal Amount of the Participation Certificates (the **Replenishment**) if and to the extent that this does not result in or increase an Annual Loss. The replenishment shall take precedence over a Distribution on the Participation Certificates. [The Participation Certificates shall be replenished with priority over silent participations.] An obligation to replenish repayment claims applies to the extent an Annual Profit would arise during the term of the Participation Certificates without replenishment.

The Replenishment shall have priority over the allocation of reserves (to the extent legally permissible). If the equivalent amount of an Annual Profit is not sufficient for the full replenishment of the Participation Certificates and other outstanding subordinated liabilities of the Issuer which rank pari passu with the Participation Certificates and provide for a corresponding provision, the Replenishment of the capital of the Participation Certificates shall be carried out proportionately in the ratio of their total Aggregate Nominal Amount to the aggregate nominal amount of the other outstanding subordinated liabilities. This shall also apply accordingly to other participation certificates to be issued in the future, provided that their terms and conditions stipulate a corresponding replenishment claim.

9.3 Claim for Backpayment

Any differential amount between the Aggregate Nominal Amount of the Participation Certificates and the amount repaid (on the respective day of redemption) due to a reduction of the repayment claim pursuant to Clause 9.1 shall be paid in arrears in accordance with the following sentences (the **Claim for Backpayment**): There shall be no subsequent payment of reduced or cancelled Distributions. If, after participation in a Loss Participation at the end of the term of the Participation Certificates (or in case of a premature redemption), an Annual Profit would arise in the following three Financial Years of the Issuer without corresponding Replenishments, the Claim for Backpayment under the Participation Certificates shall first be satisfied before any other appropriation of profits is made. To the extent the relevant Annual Profit is not sufficient to make a full subsequent payment in respect of the Participation Certificates and other outstanding subordinated liabilities of the Issuer ranking pari passu with the Participation Certificates and provide for a corresponding provision, the subsequent payment shall be made pro rata in the following ratio: Claim for Backpayment to the claim for subsequent payment under the other outstanding subordinated liabilities of the Issuer.

- (b) Ownership in respect of the Participation Certificates is established by the registration in the Issuer Register.
- (c) Except as ordered by a court of competent jurisdiction or a public authority or as required by law, the Issuer may deem and treat the person registered in the Issuer Register as absolute owner of the Participation Certificates for all purposes (whether or

not the Participation Certificate is overdue) and no person will be liable for so treating the Participation Certificate Holder.

- (d) No transfer of a Participation Certificate shall be recognised by the Issuer unless entered in the Register and the Issuer Register. In the case of discrepancies between the records of the Register and the Issuer Register, the latter shall prevail.

3. TRANSFER

- (a) A Participation Certificate may be transferred by depositing at the specified office of the Registrar and Transfer Agent a document evidencing the transfer of the registered Participation Certificate in the form satisfactory to the Registrar and Transfer Agent and the Issuer, together with a copy of the passport or ID card of each of the transferor and the transferee and/or such other documents as the Registrar and Transfer Agent and the Issuer may reasonably require.
- (b) Registration of transfer of the Participation Certificates will be effected without charge by or on behalf of the Issuer but upon payment (or the giving of such indemnity as the Issuer may reasonably require) in respect of any tax or other governmental charges which may be imposed in relation to such transfer.

4. CLOSED PERIODS

No Participation Certificate Holder may require the transfer of a Participation Certificate to be registered (i) after an event of default notice has been issued pursuant to Clause 12 (*Events of Default*) or (ii) during the period of [15][●] calendar days ending on the due date for any payment in respect of that Participation Certificates.

5. STATUS, RANKING[, QUALIFIED SUBORDINATION CLAUSE AND PRE-INSOLVENCY ENFORCEMENT BLOCK]

[5.1] Status and Ranking

- (a) The Participation Certificates constitute direct, unsecured and subordinated obligations of the Issuer.
- (b) Claims arising from the Participation Certificates rank behind the claims of all other non-subordinated creditors of the Issuer. In the event of insolvency proceedings over the assets or liquidation of the Issuer, the Participation Certificates will be redeemed after satisfaction of all non-subordinated creditors, ranking *pari passu* with all other subordinated liabilities outstanding at that time, unless they are expressly subordinated to the Participation Certificates. The Participation Certificates do not grant a share in the liquidation proceeds.
- (c) The Participation Certificate Holders shall not be entitled to have their claims to Distribution rank prior to the distribution claims attributable to other participation certificates of the Issuer.

[5.2] Qualified Subordination Clause and Pre-Insolvency Enforcement Block

In the insolvency or liquidation of the Issuer, the obligations of the Issuer under the Participation Certificates will rank:

- (a) junior to all present or future unsubordinated instruments or obligations of the Issuer;
- (b) whereby:

- (i) All claims under the Participation Certificates applying *mutatis mutandis* in accordance with section 19 (2) sentence 2 of the German Insolvency Code are subordinated to all claims of other current or future creditors in such a manner that any payments of principal and interest under the Participation Certificates may be demanded only after satisfaction of all other creditors ranking as stipulated in section 39 para. (1) sentence 1 (nos. 1 to 5) of the German Insolvency Code, i.e. at the ranking position stipulated in section 39 para. (2) of the German Insolvency Code. A waiver with respect to the claims is not possible.
 - (ii) Payments under the Participation Certificates may only be demanded from future annual net profits, from any liquidation surplus or from other disposable assets.
 - (iii) The Participation Certificate Holders may not demand satisfaction of their claims if this results, or threatens to result, in the Issuer becoming overindebted or unable to pay its debts within applying *mutatis mutandis* the meaning of German insolvency law.
 - (iv) Paragraphs (i) to (iii) apply both before and after the opening of insolvency proceedings.
 - (v) In all other respects, the Participation Certificate Holders are entitled without restriction to assert their rights under the Participation Certificates and to claim performance.
 - (vi) For the avoidance of doubt, this clause constitutes an agreement for the benefit of all creditors of the Issuer as a whole applying *mutatis mutandis* within the meaning of section 328 para. (2) of the German Civil Code. Any cancellation of this subordination agreement without the creditors' cooperation will therefore be permitted only in the event that the criteria for insolvency (paragraph (iii)) are not met or no longer met in respect of the Issuer.
- (c) *pari passu* among themselves;
 - (d) senior to all present or future all other subordinated instruments or obligations of the Issuer ranking or expressed to rank subordinated to the obligations of the Issuer under the Participation Certificates;
 - (e) Pre-insolvency enforcement block/non-payment

Definitions:

"Reason for opening insolvency proceedings" refers to *mutatis mutandis* the inability to pay within the meaning of section 17 of the German Insolvency Code, imminent inability to pay within the meaning of section 18 of the German Insolvency Code (*Insolvenzordnung*) and "overindebtedness" within the meaning of section 19 of the German Insolvency Code. Impending overindebtedness does not constitute reasons for opening insolvency proceedings.

If and to the extent that the partial or complete satisfaction of one or more or all of the Participation Certificate Holders' claims (e.g. repayment, interest and other ancillary claims) would give rise to at least one reason for opening insolvency proceedings against the Issuer, the Participation Certificate Holder cannot enforce this claim or these claims in a legally binding manner outside of insolvency proceedings (payment ban for the Participation Certificate Holder). The payment prohibition applies for an indefinite

period until such time as the fulfillment of the claim by the Issuer no longer gives rise to a reason for opening insolvency proceedings or all other creditors of the Issuer have agreed to the lifting of the payment prohibition. This means that claims arising from the Participation Certificates can only be legally enforced outside insolvency proceedings once the payment prohibition has been lifted.

Subordination Agreement:

In the event of insolvency proceedings on the assets of the Issuer or the liquidation of the Issuer, the claims arising from the Participation Certificates shall rank behind all non-subordinated claims and all subordinated claims within mutatis mutandis the meaning of section 39 para. (1) sentence 1 (nos. 1 to 5) of the German Insolvency Code.]

6. EXCLUSION OF SETOFF, NO SECURITY

- (a) Claims of the Issuer are not permitted to be set-off against repayment obligations of the Issuer under these Participation Certificates, and no contractual collateral may be provided by the Issuer or any third person for the liabilities constituted by the Participation Certificates. The Participation Certificates are neither secured nor subject to a guarantee that enhances the seniority of the claims under the Participation Certificates. The Participation Certificates are not subject to any arrangement, contractual or otherwise, that enhances the seniority of the claims under the Participation Certificates. No subsequent agreement may limit the subordination pursuant to this Clause 6 (a).
- (b) The right to set off liabilities of a Participation Certificate Holder against the Issuer with claims under the Participation Certificates is excluded.

7. ENTITLEMENT TO DISTRIBUTION

- (a) Subject to the paragraphs below and as of the Distribution Commencement Date, the Participation Certificates entitle the Participation Certificate Holders to an annual distribution (the **Distribution**). The amount of Distribution (the **Distribution Amount**) to be paid corresponds to the equivalent of the product of (i) the Aggregate Nominal Amount and (ii) the Distribution Rate. The Distribution Amount is payable from, and including, the Distribution Commencement Date to, but excluding, the Maturity Date. The Distribution Amount in relation to each Participation Certificate and in respect of each Distribution Period shall be payable in arrears on the relevant Distribution Payment Date. Each Distribution (as reflected in the relevant Financial Statements and due for payment on the relevant Distribution Payment Date) is to be made for the respective previous Financial Year of the Issuer. Distribution will not accrue in respect of each Distribution Period.
- (b) If distributions are to be calculated for a Distribution Period with more or less than 365 days (the **Adjusted Distribution Period**), the Distribution Amount corresponds to the equivalent of the product of (i) the Aggregate Nominal Amount and (ii) the Distribution Rate and (iii) the Distribution Quotient. The resulting Distribution Amount shall be rounded up or down to the smallest unit of the specified currency, with 0.5 such units being rounded up.
- (c) Distribution with respect to Participation Certificates are subject to the requirement that it may not result in or increase any accumulated Annual Loss. The entitlement to Distribution shall be reduced or shall lapse to the extent as it would result in or increase an accumulated Annual Loss. In case the entitlement to a Distribution is reduced as a result of the latter limitation, the reduction shall be made in proportion to the respective

distribution claims under the Participation Certificates and other outstanding subordinated liabilities that rank pari passu with the Participation Certificates and which provide for a corresponding legal mechanism. There will be no additional payment in future years (not cumulative).

- (d) The Issuer may decide to pay interim Distributions (the **Interim Distribution(s)**). The Interim Distribution(s) may be calculated by the Issuer in regard to an expected Distribution Amount for each Business Year. In case the relevant Interim Distribution Amount is higher than the Distribution Amount determined in accordance with Clause 7.1, the amount exceeding the respective Distribution Amount is carried forward and will in subsequent years of the term of the Participation Certificates reduce the Distribution Amount [and/or Redemption Amount]. [In case the Interim Distribution(s) exceed(s) the Distribution Amount [and the Redemption Amount] and subject to the following sentences, the Interim Distribution(s) are repayable by the Participation Certificate Holder. The repayment of Interim Distribution(s) is subject to a notice of repayment (the **Interim Distribution(s) Repayment Notice**). The Interim Distribution(s) Repayment Notice will provide for the respective repayment date which shall not be earlier than the [20]th day upon receipt of the Interim Distribution(s) Repayment Notice. [To the extent a Participation Certificate Holder has been registered in the Register (and has not received any Interim Distribution(s) so far) subsequently the circumstance that the Issuer is entitled to demand a repayment provided for in this sub-paragraph, the Issuer is not entitled to demand a corresponding repayment of Interim Distribution(s) from such Participation Certificate Holder.]]

8. REDEMPTION

8.1 Final Redemption

- (a) The term of the Participation Certificates ends on the Maturity Date.
- (b) Subject to the provisions of Clause 9 (*Loss Participation, Replenishment of Repayment Claims, Claim for Backpayment*), the Participation Certificates shall be redeemed at the Redemption Amount. The Redemption Amount (as well as the last Distribution Amount) is due for payment on the Maturity Date. Once all the Participation Certificates have been so redeemed, the obligations of the Issuer under these Terms and Conditions shall be fully discharged and the Participation Certificate Holders shall have no further claim or recourse against the Issuer.
- (c) Subject to Clause 10.6 and to the extent the Issuer fails to pay the Redemption Amount when due, the Redemption Amount shall bear interest [[●] per cent.][the default rate of interest established by law] from and including the due date for redemption to but excluding the date of actual payment of the Redemption Amount.

8.2 Early Redemption at the Option of the Issuer

- (a) The Issuer may, after having terminated in accordance with the following subparagraph [and after the lapse of [five (5)][●] full Financial Years], declare due and redeem all or parts of the Participation Certificates outstanding at the Early Redemption Amount (Call Event) on the relevant Early Redemption Date (Call Event).

An early redemption in accordance with this Clause 8.2 (a) is conditional to the circumstance that there has been no Loss Participation in accordance with Clause 9 (*Loss Participation, Replenishment of Repayment Claims, Claim for Backpayment*) or the Claims of Backpayment (as defined in Clause 9.3) have been fully replenished or can be replenished at the end of the term at the end of the relevant Financial Year in which the early redemption shall take place.

The Issuer [shall][may, at its option,] issue a notice to the Participation Certificate Holders in accordance with Clause 20 (*Notices*) below by which it informs the Participation Certificate Holders about the early redemption of the Participation Certificates on the Early Redemption Date (Call Event).

(b) In addition, in the event that:

- a Balance Sheet Event has occurred; and/or
- an Illegality Event; and/or
- a Tax Event has occurred,

the Issuer [shall][may, at its option,] issue a notice to the Participation Certificate Holders in accordance with Clause 20 (*Notices*) below by which it informs the Participation Certificate Holders about the early redemption of the Participation Certificates (in whole but not in part) on the Early Redemption Date (Balance Sheet Event), the Early Redemption Date (Illegality Event) and the Early Redemption Date (Tax Event) respectively.

On the respective early redemption date mentioned in the latter sub-paragraph, the Issuer shall redeem each Participation Certificate by paying the Early Redemption Amount (Additional Events) to the Participation Certificate Holders. In such a case, the obligations of the Issuer under these Terms and Conditions shall be fully discharged and the Participation Certificate Holders shall have no further claim or recourse against the Issuer.

With respect to an early redemption in connection with a Balance Sheet Event, notice of termination may be given no earlier than at the end of the Financial Year preceding the Financial Year in which the relevant change in the accounting principles in connection with a Balance Sheet Event is applied for the first time. Subject to the provisions of Clause 7 (*Entitlement to Distribution*), repayment shall be made [on the 15th day after the respective Financial Statements of the Issuer have been setup, audited and approved by the Extraordinary General Meeting or Ordinary Annual General Meeting (each an **AGM**)][*insert other time mechanism*] (the **Early Redemption Date (Balance Sheet Event)**).

With respect to an early redemption in connection with a Tax Event, notice of termination may be given no earlier than the end of the financial year preceding the Distribution in which the tax burden would first apply to the Issuer. Subject to the provisions of Clause 7 (*Entitlement to Distribution*), redemption shall take place [on the 15th day after the respective Financial Statements of the Issuer have been setup, audited and approved by the AGM][*insert other time mechanism*] (the **Early Redemption Date (Tax Event)**).

(c) Clause 7 (b) and Clause 8.1 (c) shall apply accordingly.

[8.3 No Redemption at the Option of the Participation Certificate Holder

Without prejudice to their right of early redemption in connection with an Event of Default pursuant to Clause 12 (*Events of Default*), the Holders of Participation Certificates do not have a right to demand the redemption of the Participation Certificates [except for as defined in Clause 8.4 for Early Redemption at the Option of the Holders of the Participation Certificates.]

[8.4 Redemption at the Option of the Holders of Participation Certificates

- (a) The Issuer shall, at the option of a Participation Certificate Holder, redeem such Participation Certificate on the Put Redemption Date at the Put Redemption Amount.
- (b) In order to exercise such put option, the Participation Certificate Holder must, not less than [130][●] Payment Business Days nor more than [195][●] Payment Business Days before the relevant Put Redemption Date on which such redemption is required to be made as specified in the Put Notice, send to the specified office of the Paying Agent an notice in written form (the **Put Notice**). In the event that the Put Notice is received after 5:00 p.m. Irish time on the [130th][●] calendar day before the Put Redemption Date, the option shall not have been validly exercised. The Put Notice must specify (i) the total principal amount of the Participation Certificate(s) in respect of which such option is exercised, and (ii) the International Security Code of such Participation Certificates, if any. The Put Notice may be in the form available and obtained from the specified offices of the Paying Agent in the English [and] [or German] language and includes further information. No put option so exercised may be revoked or withdrawn.]

9. LOSS PARTICIPATION, REPLENISHMENT OF REPAYMENT CLAIMS, CLAIM FOR BACKPAYMENT

9.1 Loss Participation

The Participation Certificate Holders participate in the Annual Loss of a Financial Year to the full amount (the **Loss Participation**). In the amount of the relevant Annual Loss, the repayment claim of the Participation Certificate Holders shall be reduced [in the ratio in which the Aggregate Nominal Amount of the Participation Certificates stands to the total amount of participatory capital shown in the balance sheet (taken from the respective Financial Statements) and other outstanding subordinated liabilities that provide for a corresponding loss participation,][senior to any other loss transferable instruments of the Issuer (including, but not limited, to all individual items of equity),] if applicable up to the full amount. [Losses carried forward and accumulated losses from previous Financial Years [[and][or] the current Financial Year] shall not be taken into account.] [The Issuer is obliged to avoid reporting an Annual Loss by using reserves (to the extent legally permissible) or profits carried forward.]

9.2 Replenishment of Repayment Claims

After participation in a Loss Participation, the repayment claims must be replenished in subsequent Financial Years up to the Aggregate Nominal Amount of the Participation Certificates (the **Replenishment**) if and to the extent that this does not result in or increase an Annual Loss. The replenishment shall take precedence over a Distribution on the Participation Certificates. [The Participation Certificates shall be replenished with priority over silent participations.] An obligation to replenish repayment claims applies to the extent an Annual Profit would arise during the term of the Participation Certificates without replenishment.

The Replenishment shall have priority over the allocation of reserves (to the extent legally permissible). If the equivalent amount of an Annual Profit is not sufficient for the full replenishment of the Participation Certificates and other outstanding subordinated liabilities of the Issuer which rank *pari passu* with the Participation Certificates and provide for a corresponding provision, the Replenishment of the capital of the Participation Certificates shall be carried out proportionately in the ratio of their total Aggregate Nominal Amount to the aggregate nominal amount of the other outstanding subordinated liabilities. This shall also apply accordingly to other participation certificates to be issued in the future, provided that their terms and conditions stipulate a corresponding replenishment claim.

9.3 Claim for Backpayment

Any differential amount between the Aggregate Nominal Amount of the Participation Certificates and the amount repaid (on the respective day of redemption) due to a reduction of the repayment claim pursuant to Clause 9.1 shall be paid in arrears in accordance with the following sentences (the **Claim for Backpayment**): There shall be no subsequent payment of reduced or cancelled Distributions. If, after participation in a Loss Participation at the end of the term of the Participation Certificates (or in case of a premature redemption), an Annual Profit would arise in the following three Financial Years of the Issuer without corresponding Replenishments, the Claim for Backpayment under the Participation Certificates shall first be satisfied before any other appropriation of profits is made. To the extent the relevant Annual Profit is not sufficient to make a full subsequent payment in respect of the Participation Certificates and other outstanding subordinated liabilities of the Issuer ranking pari passu with the Participation Certificates and provide for a corresponding provision, the subsequent payment shall be made pro rata in the following ratio: Claim for Backpayment to the claim for subsequent payment under the other outstanding subordinated liabilities of the Issuer.

10. PAYMENTS

10.1 Payments on the Participation Certificates

Subject to as provided below, payments in respect of the Participation Certificates will be made by credit or transfer to the account of the relevant Participation Certificate Holder the details of which are recorded in the Register at a given time. Subject to applicable fiscal and other laws and regulations, payments of amounts due in respect of the Participation Certificates shall be made in the Specified Currency. [If the Issuer determines that it is impossible to make payments of amounts due on the Participation Certificates in freely negotiable and convertible funds on the relevant due date for reasons beyond its control or that the Specified Currency or any successor currency provided for by law (the **Successor Currency**) is no longer used for the settlement of international financial transactions, the Issuer may fulfil its payment obligations by making such payments in Euro on the relevant due date on the basis of the Applicable Exchange Rate. Participation Certificate Holders shall not be entitled to further interest or any additional amounts as a result of such payment.]

10.2 Discharge

10.3 Determinations

- (b) In the absence of the Calculation Agent's wilful misconduct, bad faith or manifest error, the calculations of the Calculation Agent will be binding on the Participation Certificate Holders.

10.4 Fractions

When making payments to the Participation Certificate Holders, if the relevant payment is not of an amount which is a whole multiple of the smallest unit of the relevant currency in which such payment is to be made, such payment will be rounded down to the nearest unit.

10.5 Payments subject to Fiscal Law

Payments will be subject in all cases to any fiscal or other laws and regulations applicable thereto in the place of payment. A payment made in accordance with the provisions of this Clause 10 (*Payments*) above shall be a good discharge for the Issuer.

10.6 Payment Business Days

If the due date for any payment in respect of the Participation Certificates would otherwise fall on a calendar day which is not a Payment Business Day, the Participation Certificate Holders shall not be entitled to payment until the next following Payment Business Day in the relevant place and shall not be entitled to further distributions or other payment in respect of such delay.

10.7 General Provisions applicable to Payments

Each payment in respect of the Participation Certificates or to the account of the Paying Agent in the manner provided in the agreement between the Issuer and the Paying Agent shall operate in satisfaction pro tanto of the relative payment obligation of the Issuer in respect of such Participation Certificates.

11. PURCHASE AND CANCELLATION

11.1 Purchase

The Issuer may at any time purchase Participation Certificates at any price. Such Participation Certificates must be cancelled forthwith. There is no obligation to redeem Participation Certificates.

11.2 Cancellation

All Participation Certificates redeemed by the Issuer upon a Full Repayment will be cancelled forthwith and may not be reissued or resold and the obligations of the Issuer in respect of any such Participation Certificates shall be discharged

12. EVENTS OF DEFAULT

If any one or more of the following events (each an **Event of Default**) shall occur and be continuing, each Participation Certificate Holder shall be entitled to declare its Participation Certificates due and demand immediate redemption thereof at the Early Redemption Amount:

- (i) the Issuer fails to pay any amount due under the Participation Certificates within 30 calendar days from the relevant due date; or
- (ii) the Issuer fails duly to perform any other obligation arising from the Participation Certificates which failure is not capable of remedy or, if such failure is capable of remedy, such failure continues for more than 30 calendar days after the Paying Agent has received notice thereof from a Participation Certificate Holder; or
- (ii) the Issuer suspends payment or announces its inability to pay its debts; or
- (iv) a court institutes insolvency proceedings against the Issuer, and such proceedings are not set aside or stayed within 60 calendar days, or the Issuer or the competent supervisory authority, or resolution authority, respectively, applies for or institutes any such proceedings; or
- (v) the Issuer goes into liquidation (including a voluntary liquidation) unless this is done in connection with a merger, consolidation or other form of combination with another

company or in connection with a conversion and the other or new company assumes all obligations contracted by the Issuer in connection with the Participation Certificates.

The right to declare Participation Certificates due shall terminate if the situation giving rise to it has been cured before the right is exercised. Any notice, including any notice declaring Participation Certificates due, in accordance with subparagraph shall be made by means of a written declaration in the English [and] [or German] language and sent to the specified office of the Paying Agent together with proof that such Participation Certificate Holder at the time of such notice is a holder of the relevant Participation Certificates in any appropriate manner. The Participation Certificates shall be redeemed following receipt of the notice declaring Participation Certificates due.

In such event, the Issuer shall, to the fullest extent permitted by law, pay such additional amounts of principal and interest (the **Additional Amounts**) as shall be necessary in order that the net amounts received by the Participation Certificate Holder, after such withholding or deduction shall equal the respective amounts which would otherwise have been receivable in the absence of such withholding or deduction; except that no such Additional Amounts shall be payable on account of any taxes, duties or governmental charges which:

- (ii) are payable by reason of the Participation Certificate Holder having, or having had, some personal or business connection with Ireland and not merely by reason of the fact that payments in respect of the Participation Certificates are, or for purposes of taxation are deemed to be, derived from sources in, or are secured in, Ireland; or

The Issuer will have no obligation to pay additional amounts or otherwise indemnify a Participation Certificate Holder in connection with any such compliance.

15.3 Transfer of Issuer's domicile

21. SUBSTITUTION OF THE ISSUER

21.1 Substitution

The Issuer shall be entitled at any time, without the consent of the Participation Certificate Holders, if no payment of principal of any of the Participation Certificates is in default, to substitute for the Issuer another person (the **Substitute Issuer**) as principle debtor under all Participation Certificates in respect of any and all obligations arising from and in connection with the Participation Certificates, provided that:

For the purposes of subclauses 2.2 and 2.5, the Paying Agent shall be entitled to rely, without further enquiry, on any information or instructions received from a relevant clearing system and shall have no liability to any Participation Certificate Holder or other person for any loss, damage, cost, claim or other liability caused by its reliance on those instructions, nor for any failure by a relevant clearing system to deliver information or instructions to the Paying Agent.

The holder of any voting certificate or the proxies named in any block voting instruction shall for all purposes in connection with the meeting or adjourned meeting be deemed to be the holder of the Participation Certificates to which the voting certificate or block voting instruction relates and the Paying Agent with which the Participation Certificates have been deposited or the person holding the Participation Certificates to the order or under the control of any Paying Agent shall be deemed for those purposes not to be the holder of those Participation Certificates.

The voting certificate will be made available at or shortly before the start of the meeting by the Paying Agent against presentation by the Identified Person of the form of identification previously notified by the holder to the relevant clearing system. - (a) procuring that, not less than 48 hours before the time fixed for the meeting, the Participation Certificate is held to the Paying Agent's order or under its control or is blocked in an account with a relevant clearing system, in each case on terms that the Participation Certificate will not cease to be so deposited or held or blocked until the first to occur of:

- (b) instructing the Paying Agent that the vote(s) attributable to each Participation Certificate so deposited or held or blocked should be cast in a particular way in relation to the resolution or resolutions to be put to the meeting or any adjourned meeting and that the instruction is, during the period commencing 48 hours before the time for which the meeting or any adjourned meeting is convened and ending at the conclusion or adjournment of the meeting, neither revocable nor capable of amendment.

2.5 Global Notes - block voting instruction

- (a) A Participation Certificate Holder (not being a Participation Certificate in respect of which a voting certificate has been issued) represented by a Global Note may require the Paying Agent to issue a block voting instruction in respect of the Participation Certificate by first instructing the relevant clearing system to procure that the votes attributable to the holder's Participation Certificate should be cast at the meeting in a particular way in relation to the resolution or resolutions to be put to the meeting. Any such instruction shall be given in accordance with the rules of the relevant clearing system then in effect. Subject to receipt by the Paying Agent, no later than 48 hours before the time for which the meeting is convened, of (i) instructions from the relevant clearing system, (ii) notification of the nominal amount of the Participation Certificates in respect of which instructions have been given and (iii) the manner in which the votes attributable to the Participation Certificates should be cast, the Paying Agent shall, without any obligation to make further enquiry, attend the meeting and cast votes in accordance with those instructions.
- (b) Each block voting instruction shall be deposited by the relevant Paying Agent at the place specified by the Paying Agent for the purpose not less than 48 hours before the time appointed for holding the meeting or adjourned meeting at which the proxies named in the block voting instruction propose to vote, and in default the block voting instruction shall not be treated as valid unless the chairman of the meeting decides otherwise before the meeting or adjourned meeting proceeds to business. A certified copy of each block voting instruction shall (if so requested by the Issuer) be deposited with the Issuer before the start of the meeting or adjourned meeting but the Issuer shall not as a result be obliged to investigate or be concerned with the validity of or the authority of the proxies named in the block voting instruction.
- (c) Any vote given in accordance with the terms of a block voting instruction shall be valid notwithstanding the previous revocation or amendment of the block voting instruction or of any of the instructions of the relevant Participation Certificate Holder or the relevant clearing system (as the case may be) pursuant to which it was executed provided that no indication in writing of any revocation or amendment has been received from the relevant Paying Agent by the Issuer at its registered office by the time being 24 hours before the time appointed for holding the meeting or adjourned meeting at which the block voting instruction is to be used.]

- (b) Any proxy appointed pursuant to subclause (a) above shall so long as such appointment remains in force be deemed, for all purposes in connection with the relevant meeting, to be the holder of the Participation Certificates to which such appointment relates and the Participation Certificate Holder shall be deemed for such purposes not to be the holder.
- (c) Each form of proxy shall be deposited by the [Registrar and Transfer Agent][Issuer] with the Issuer at its registered office not less than 24 hours before the time appointed for holding the meeting at which the proxy or proxies named in the form of proxy proposes to vote, and in default form of proxy shall not be treated as valid unless the chairman of the meeting decides otherwise before such meeting proceeds to business. A copy of each form of proxy shall be deposited with the Issuer before the commencement of the meeting but the Issuer shall not thereby be obliged to investigate or be concerned with the validity of or the authority of the proxy or proxies named in any such form of proxy.
- (d) Any vote given in accordance with the terms of a form of proxy shall be valid notwithstanding the previous revocation or amendment of the form of proxy provided that no indication in writing of such revocation or amendment has been received from the holder thereof by the Issuer at its registered office by the time being 48 hours before the time appointed for holding the meeting at which the form of proxy is to be used.]

Whenever the Issuer is about to convene any meeting it shall immediately give notice in writing to the [*in the case of bearer participation certificates, the following applies:* Paying Agent] [and][or] [*in the case of registered participation certificates, the following applies:* [Registrar and Transfer Agent][Issuer]] of the day, time and place of the meeting and of the nature of the business to be transacted at the meeting.
- 3.2 At least [21][●] clear days' notice specifying the place, day and hour of the meeting shall be given to the Participation Certificate Holders in the manner provided in the relevant terms and conditions of the Participation Certificates. The notice, which shall be in the [English] [or] [●] language, shall state generally the nature of the business to be transacted at the meeting and shall either (i) include statements as to the manner in which holders may, if applicable, appoint proxies or representatives [*in the case of bearer participation certificates, the following applies:* and arrange for voting certificates or block voting instructions to be issued], or (ii) inform Participation Certificate Holders that details of the voting arrangements are available free of charge from the [*in the case of bearer participation certificates, the following applies:* Paying Agent] [and][or] [*in the case of registered participation certificates, the following applies:* [Registrar and Transfer Agent][Issuer]], provided that, in the case of (ii) the final form of such

- 3.3** The person (who may but need not be a Participation Certificate Holder) nominated in writing by the Issuer shall be entitled to take the chair at each meeting but if no nomination is made or if at any meeting the person nominated is not present within 15 minutes after the time appointed for holding the meeting the Participation Certificate Holders present shall choose one of their number to be chairman failing which the Issuer may appoint a chairman. The chairman of an adjourned meeting need not be the same person as was chairman of the meeting from which the adjournment took place.
- 3.4** At any meeting one or more Eligible Persons present and holding or representing in the aggregate not less than [51][●] per cent. in nominal amount of the Participation Certificates for the time being outstanding shall form a quorum for the transaction of business and no business (other than the choosing of a chairman) shall be transacted at any meeting unless the required quorum is present at the commencement of business.
- 3.5** If within [15][●] minutes (or such longer period not exceeding 30 minutes as the chairman may decide) after the time appointed for any meeting a quorum is not present for the transaction of any particular business, then, subject and without prejudice to the transaction of the business (if any) for which a quorum is present, the meeting shall if convened by Participation Certificate Holders be dissolved. In any other case it shall be adjourned to the same day in the next week (or if that day is a public holiday the next following business day) at the same time and place.
- 3.6** At any adjourned meeting one or more Eligible Persons present (whatever the nominal amount of the Participation Certificates so held or represented by them) shall form a quorum and shall have power to pass any resolution or any other resolution and to decide upon all matters which could properly have been dealt with at the meeting from which the adjournment took place had the required quorum been present.

4. CONDUCT OF BUSINESS AT MEETINGS

- 4.2** The chairman may, with the consent of any meeting, adjourn the meeting from time to time and from place to place. No business shall be transacted at any adjourned meeting except business which might lawfully (but for lack of required quorum) have been transacted at the meeting from which the adjournment took place.
- 4.3** Any poll on the election of a chairman or on any question of adjournment shall be taken at the meeting without adjournment.
- 4.4** Any director or officer of the Issuer and its lawyers and financial advisers may attend and speak at any meeting. Subject to this, no person shall be entitled to attend and speak nor shall any person be entitled to vote at any meeting of the Participation Certificate Holders or join with others in requiring the convening of a meeting unless he is an Eligible Person. No person shall be entitled to vote at any meeting in respect of Participation Certificates held by, for the benefit of, or on behalf of the Issuer. Nothing contained in this subclause shall prevent any of the proxies named in any block voting instruction from being a director, officer or representative of or otherwise connected with the Issuer.
- 4.5** Subject as provided in subclause 4.4 above, at any meeting, every Eligible Person present shall have one vote in respect of one Participation Certificate.

[In the case of bearer participation certificates, the following applies: Without prejudice to the obligations of the proxies named in any block voting instruction,] [A][a]ny person entitled to cast more than one vote need not use all his votes or cast all the votes to which he is entitled in the same way.

All powers shall be exercisable by a meeting of the Participation Certificate Holders by a resolution adopted by a simple majority of the votes cast (subject to the provisions relating to quorum contained in subclauses 3.4 and 3.6). Notwithstanding any provision to the contrary in this section or the terms and conditions of the Participation Certificates, no modification may be made to the terms and conditions of the Participation Certificates without the prior written consent of entities acting as account banks in connection with the Participation Certificates *[in the case of bearer participation certificates, the following applies:* and/or paying agents and securities custodians if such modification would have an effect to lower the rank of such entities in the order of payment of costs set out in the terms and conditions of the Participation Certificates].

[4.7][4.8] Any resolution passed at a meeting of the Participation Certificate Holders duly convened and held in accordance with these provisions shall be binding upon all the Participation Certificate Holders whether present or not present at the meeting and whether or not voting and each of them shall be bound to give effect to the resolution accordingly and the passing of any resolution shall be conclusive evidence that the circumstances justify its passing. Notice of the result of voting on any resolution duly considered by the Participation Certificate Holders shall be published in accordance with the terms and conditions of the Participation Certificates by the Issuer within 14 days of the result being known provided that non-publication shall not invalidate the resolution.

[4.8][4.9] Minutes of all resolutions and proceedings at every meeting shall be made and duly entered in books to be from time to time provided for that purpose by the Issuer and any minutes signed by the chairman of the meeting at which any resolution was passed or proceedings had shall be conclusive evidence of the matters contained in them and, until the contrary is proved, every meeting in respect of the proceedings of which minutes have been made shall be deemed to have been duly held and convened and all resolutions passed or proceedings had at the meeting to have been duly passed or had.

If and whenever the Issuer has issued and has outstanding Participation Certificates of more than one series the previous provisions of this section shall have effect subject to the following changes:

- a resolution which affects the Participation Certificates of only one series shall be deemed to have been duly passed if passed at a separate meeting of the holders of the Participation Certificates of that series;
- a resolution which affects the Participation Certificates of more than one series but does not give rise to a conflict of interest between the holders of Participation Certificates of any of the series so affected shall be deemed to have been duly passed if passed at a single meeting of the holders of the Participation Certificates of all the series so affected;
- a resolution which affects the Participation Certificates of more than one series and gives or may give rise to a conflict of interest between the holders of the Participation Certificates of one series or group of series so affected and the holders of the Participation Certificates of another series or group of series so affected shall be deemed

to have been duly passed only if it is duly passed at separate meetings of the holders of the Participation Certificates of each series or group of series so affected; and

- to all such meetings all the preceding provisions of this section shall mutatis mutandis apply as though references therein to Participation Certificates, Participation Certificate Holders and holders were references to the Participation Certificates of the series or group of series in question or to the holders of such Participation Certificates, as the case may be.]

12. Investments and Shareholdings including atypical silent partnerships in the E-Stream Energy Companies and future typical silent partnerships

The Issuer holds interest in E-Stream Energy as well as in E-Stream Energy Management by way of two different types of in terms of law so-called atypical silent partnerships (both to be construed in accordance with German law). Briefly, both instruments are structured as follows:

- (i) atypical silent partnership concluded on 30 January 2023 with E-Stream Energy and a minimum duration of more than five years (initial first maturity date in case of termination 31 December 2029 and any subsequent year on 31 December) with participation in the profit and losses of E-Stream Energy which does not bear interest on the participation capital and qualifies as so called atypical silent partnership provided by the Issuer (further defined in the relevant atypical silent partnership agreement).
- (ii) atypical silent partnership concluded on 30 January 2023 with E-Stream Energy Management and a minimum duration of more than five years (initial first maturity date in case of termination 31 December 2029 and any subsequent year on 31 December) with participation in the profit and losses of E-Stream Energy Management which does not bear interest on the participation capital and qualifies as so called atypical silent partnership

provided by the Issuer (further defined in the relevant atypical silent partnership agreement).

The minimum duration of more than five years (initial first maturity date in case of termination 31 December 2029 and any subsequent year on 31 December) of the atypical silent partnerships mentioned above are agreed to be automatically being extended to at least the duration of the Notes or Participation Certificates, respectively, in order to align the minimum duration of the atypical silent partnerships with at least the duration of all outstanding Notes and Participation Certificates.

This means simplified:

- (i) E.Quikk plc (the Issuer) has agreed with each of the two E-Stream Energy Companies a so-called "atypical silent partnership".
- (ii) These "atypical silent partnership" do not bear any interest – instead E.Quikk plc receives profits and potentially losses from these instruments.
- (iii) The minimum duration is until 31 December 2029. If E.Quikk plc issues financial instruments (e.g. Notes or Participation Certificates) with a longer duration than 31 December 2029, the minimum duration of the "atypical silent partnerships" are automatically extended to the same maturity date as the aforementioned financial instruments.

The following graphic illustrates the above:

Description of the atypical silent partnerships according to German law

General structure of silent partnerships and legal background

In terms of German law, the atypical silent partnership is a special form of a so-called undisclosed or internal company (*Innengesellschaft*), governed by the principles and provisions of German commercial and German civil law and, in addition, is a common type of corporate financing governed by the German Commercial Code (*Handelsgesetzbuch*). Each atypical silent partnership is subject to sections 230 et seqq. of the German Commercial Code (*Handelsgesetzbuch*). Notwithstanding the fact that the legal regime stipulated in sections 230 et seqq. of the German Commercial Code (*Handelsgesetzbuch*) only addresses the typical silent partnership, the respective provisions also apply, in general, to atypical silent partnerships, but

for purposes of setting-up an atypical silent partnership, German law permits to deviate from said provisions in order to provide more flexibility as well as for individual contractual arrangements.

A silent partnership – regardless its more precise distinction or classification as either "typical silent partnership" or "atypical silent partnership" – is a partnership in which a person (the so-called silent partner) participates in the commercial enterprise of another person ("business owner" which does often qualify as a commercial partnership or may be incorporated as a limited liability company) by way of a capital contribution. Notwithstanding said capital contribution effected, the silent partner will not become a "shareholder" of the commercial partnership or limited liability company. Instead, the silent partner participates – at least (although the silent partnership agreement may grant various rights in addition) – in the profit and, if agreed accordingly also in the loss, of the commercial enterprise conducted by the business owner (commercial partnership or limited liability company).

In contrast to commercial partnerships and limited liability companies which are "visible" for third-party business partners (by way of using their respective legal name while conducting business or according to a registration of the commercial enterprise in the commercial register), the silent partnership contractually agreed between the business owner and the silent partner – as indicated by its legal technical designation ("silent") – does not appear or act externally and remains a bilateral business relation generally undisclosed to third parties. In business transactions, only the commercial partnerships or limited liability companies (entered in the commercial register) act towards third-parties and, consequently, are legally bound and contractually obligated (i.e. is part of contractual transactions).

No corporate powers and shareholder rights

In legal consequence to the fact that a silent partnership does qualify as an undisclosed or internal company, the silent partner is not entitled to exercise corporate membership rights. No such rights may be claimed and executed by a silent partner as the silent partnership agreement does not grant or provide for corporate powers and similar rights (which are only assigned to corporate shareholders). However, various (extensive) control and co-determination rights (requirement for consent) can be agreed in favor of the silent partner. For example, the silent partner's consent may be required for certain pre-defined management measures on the level of the commercial enterprise.

No liability or additional funding obligations

In terms of liability, the silent partner is only liable to a limited extent, i.e. only to the amount of the silent partnership contribution (which corresponds to amount of the capital invested) contractually assumed according to the silent partnership agreement. Once this capital contribution has been made in full, no further financial liability applies. In addition, an obligation to provide for additional contributions or fundings (i.e. a limited supplementary payment obligation (*Nachschusspflicht*)) is also excluded.

Applicable law and place of jurisdiction in regard to the silent partnerships

The silent partnerships are subject to the law of the Federal Republic of Germany.

Taxation regime

For (corporate) income tax purposes, the silent partnership offers a real distribution of profits through the uniform and separate profit assessment notice of the permanent establishment tax office of the company in which the participation was held. This determines the balance sheet profit or loss of the company and the separate profit (or loss) of the atypical silent partner, and

reports the profit or loss share to the tax office of the silent partner to supplement his income tax return automatically and ex officio (*einheitlich gesonderte Gewinnfeststellung*).

Economical aspect of a silent partnership: Capital contribution and potential return on investment

Basically, the economic functionality of a silent partnership agreement can be compared with a third-party financing agreement: The silent partner is a capital provider whose investment capital is transferred to the business owner of the commercial enterprise (e.g. in the form of a commercial partnership or limited liability companies).

In return (and instead of receiving a pre-agreed amount of interest on the capital provided regardless the occurrence of a financial profit), the silent partner is entitled to a participation in a pre-defined profit (and loss) mechanism in terms of sections 230 et seqq. of the German Commercial Code (*Handelsgesetzbuch*). As the latter mentioned legal provisions do allow for contractual flexibility with respect to additional rights to be granted to the silent partner according to the silent partnership agreement, further economic parameters in favor of the silent partner can be agreed.

Atypical silent partnerships as a special form of silent partnerships

In contrast to a typical silent partnership (which, in general, follows the legal or statutory concept laid down in sections 230 et seqq. of the German Commercial Code (*Handelsgesetzbuch*), the silent partner of an atypical silent partnership bears a co-entrepreneurial risk and has extensive co-determination rights, i.e. has a significant influence on the shareholder rights and management powers of the business owner of the commercial enterprise. With respect to the Issuer's atypical silent partnerships, the following mechanisms shall apply.

Atypical silent partnerships agreed with E-Stream Energy and E-Stream Management

The Issuer has agreed two atypical silent partnerships with E-Stream Energy and E-Stream Energy Management, respectively (as indicated above in the introduction). Both silent partnership agreements provide for (i) a profit and loss participation mechanism connected to each of the E-Stream Companies financial profits and losses (see also sub-section *Profit and loss participation mechanism* below), (ii) a participation in the economic reserves in each of the E-Stream Companies (see also sub-section *End of participation and return of capital (i.e. settlement)* below), (iii) a profit-dependent and profit-independent withdrawal rights in favor to the silent partner (see also sub-sections *Withdrawal rights ("Entnahmerechte")* and *Distribution and withdrawal procedure* below) and (iv) an exceptional obligation to make additional contributions (see also sub-section *Obligation to make additional contributions*).

In general, and in return for the investment via the atypic silent partnership in each of the E-Stream Companies, the atypical silent partner receives a claim for compensation and settlement which, in addition to the capital accounts, must take into account the goodwill or the development of the hidden reserves at the time of withdrawal of the commercial enterprise (i.e. the E-Stream Companies). If, for example, the value of a commercial enterprise has doubled during the term of the atypical silent partnership, the atypical silent partner – in the event of the termination of the atypical silent partnership – receives as a settlement claim (unless otherwise agreed or contractually restricted) in an amount corresponding to the double of the atypical silent capital contribution, thus taking into account the increase in value of the relevant commercial enterprise. The starting point for the calculation of the difference is the value of the commercial enterprise's initial assets compared to the final assets of the commercial enterprise at the time of termination.

The following graphic illustrates the above:

In case of termination of an atypical silent partnership, the following graphic illustrates this:

Profit and loss participation mechanism

The profit and loss participation mechanism is governed by the respective atypical silent partnership agreement: According to said agreement, the atypical silent partner (i.e. the Issuer), in relation to the relevant nominal contribution (up to the amount of capital actually paid in),

participates in the profit and loss of E-Stream Energy as well as in E-Stream Energy Management.

The profit and loss participation mechanism will be applied on a pro rata basis (X/365 days) starting as of the day the capital contribution agreed in the silent partnership agreement has been provided to the relevant business owner of the commercial enterprise (i.e. E-Stream Energy and E-Stream Energy Management). In subsequent years, the atypical silent partner participates fully in the profit and loss of the entire financial year of the commercial enterprise. Reference value for the calculation of the profit and loss and profit share of the Issuer as atypical silent partner is the contribution amount actually paid in.

The calculation of the profit or loss is based on the annual financial statements of E-Stream Energy and E-Stream Energy Management, respectively, adopted in each case. Any profit or loss to be counted for purposes of applying the profit and loss participation mechanism is calculated after trade tax but before other corporate taxes (corporation taxes, solidarity surcharge, etc.). The participation of the atypical silent partner in the profit or loss is calculated on the nominal amount of the actually paid-in capital (irrespective of profit and losses that have occurred in the meantime). A tax loss offset, i.e. the participation of the atypical silent partner's participation in a loss of E-Stream Energy or E-Stream Energy Management, respectively, can only be recognized up to the amount of the actually made in the calendar year. This means that regardless of the nominal amount of contribution according to the silent partnership agreement, the balance of the capital account of the atypical silent partner, on which the contributions actually paid, profits and losses and withdrawals are the amount of the respective offsetting of losses. In doing so the Issuer as atypical silent partner only participates in profits and losses that have arisen incurred since establishing the atypical silent partnership, but not in any profit or losses incurred said point of time.

A financial profit in the relevant financial year results in the following:

The profit calculation is based on the company's adopted annual financial statements. The atypical silent partner participates in any profit after trade tax shown there in proportion of the nominal amount of the actually paid-in capital of the atypical silent partner in relation to the total actually paid-in nominal capital (i.e. shareholder capital of the Limited Partner).

A financial loss in the relevant financial year results in the following:

The profit calculation is based on the company's adopted annual financial statements. The atypical silent partner participates in any loss shown there in proportion of the nominal amount of the actually paid-in capital of the atypical silent partner in relation to the total actually paid-in nominal capital (i.e. shareholder capital of the Limited Partner).

Hence and depending on the course of business of each of the commercial enterprises or the status of the capital account of the atypical silent partner, a loss participation of up to 100% of the nominal amount of contribution is theoretically possible.

Withdrawal rights

According to the relevant silent partnership agreement, the Issuer is entitled to make withdrawals or reinvestments of profit shares payments (so-called withdrawals). The authorization to make ongoing withdrawals aims to provide the Issuer with a continuous inflow of liquidity from its capital investment (i.e. the contribution provided based on the silent partnership agreement). To the extent a sustained positive profit situation of E-Stream Energy as well as in E-Stream Energy Management has occurred, both business owners may decide to allow special withdrawals to be made by the Issuer.

Distribution and withdrawal procedure

Irrespective of profit or losses of E-Stream Energy or E-Stream Energy Management the Issuer as atypical silent partner can obtain profit-independent withdrawals.

Such withdrawals are accounted for by E-Stream Energy or E-Stream Energy Management and reduce the amount to be received at the end of a atypical silent partnership. Hereby the Issuer can receive liquidity from its atypical silent partnerships irrespective whether E-Stream Energy or E-Stream Energy Management have an annual profit or loss realized. In case of losses such withdrawals are limited to the current amount of the total paid in capital of the atypical silent partner plus accumulated profits minus accumulated losses and minus previous withdrawals. Withdrawals are not possible if such withdrawals would amount to a negative value (no excess withdrawals possible).

End of participation and return of capital (i.e. settlement)

To the extent the relevant atypical silent partnership is properly terminated, i.e. after expiry of the minimum term and in compliance with the cancellation notice periods, the Issuer is entitled to a compensation from each of the relevant business owners (E-Stream Energy and E-Stream Energy Management, respectively). The Issuer's settlement consists of two parts:

The first part of the settlement contains the total paid in capital of the atypical silent partner plus accumulated profits minus accumulated losses and minus previous withdrawals.

The second part of the settlement covers the participation of the atypical silent partner in the hidden reserves that have been reserves created since establishing the silent partnership in the company value (capitalized earnings value/company value) of E-Stream Energy and E-Stream Energy Management, respectively. The calculated settlement value is calculated in proportion to the paid-in hidden capital of the withdrawing atypical silent partner to the total amount to the total amount of the paid-in contributions of all shareholders participating in E-Stream Energy or E-Stream Energy Management and other atypical silent partners invested in said commercial enterprises.

Obligation to make additional contributions

In general, the Issuer (as atypical silent partner) is not required to make additional contributions. An obligation to make additional contributions exists only if there is a remaining negative balance in relation to the relevant atypical silent partnership capital account in E-Stream Energy or E-Stream Energy Management and which only would be the case, if profit independent withdrawals in total are higher than the value of the atypical silent partnership capital plus profits minus losses. This could only take place – as there are no excess profit independent withdrawals are existing – in case that E-Stream Energy or E-Stream Energy Management respectively would suffer a loss after independent withdrawals that would result in a negative current amount of the total paid in capital of the atypical silent partner plus accumulated profits minus accumulated losses and minus previous withdrawals.

The settlement balance is generally to be paid after the calculation of the value in the following year of the effective date of termination due to the setup of the annual accounts of E-Stream Energy and E-Stream Energy Management.

Transfer or sale of atypical silent partnerships by the Issuer

With the consent of E-Stream Energy or E-Stream Energy Management, the Issuer as atypical silent partner may sell and transfer its participation in whole or in part to third parties. The consent is regularly granted (except for good reason in the person/company of the buyer).

13. Material Contracts

Atypical silent partnership agreements as described under section "5. *Corporate Purpose and section*" and "12. *Investments and Shareholdings including atypical silent partnerships in the E-Stream Energy Companies and future typical silent partnerships*" above which contains the profit participation of the Issuer with (partial) profit transfer agreement analogous to section 292 para. (1) no. 2 of the German Stock Corporation Act towards the Issuer and its controlling rights.

14. Conflicts of Interests

An entrepreneurial conflict of interest could arise in the fact that appointed Directors are acting in different functions (including as an active member of the board of directors) of inter alia Timberland Invest Ltd and/or Timberland Capital Management GmbH, both acting as distribution agents for the Instruments. Furthermore, there might be potential conflicts of interest for such persons in regard to current or future entrepreneurial activities or shareholdings outside their activity to the Issuer or due to other business activities or other entrepreneurial participations or shareholdings of (i) their own and/or (ii) while acting for and on behalf of other parties. To the knowledge of the Issuer no such conflicts of interests exist.

The Issuer is directly owned by its sole shareholder Mr. Thomas Kraemer. The measures in place that a control of the Issuer is not abused is governed by and in accordance with the provisions of the applicable laws and regulations. The Issuer applies best practice measures in regard to the measures in place to avoid abuse of control. The sole shareholder is not member of the Board of Directors of the Issuer. Save for this, the sole shareholder is a member of the Board of the Directors of the E-Stream Energy Companies.

The Directors do not receive, and are not entitled to, a remuneration which is linked to the return of the company or to its shares. There is accordingly no remuneration that could favour the taking of special risks at the expense of the Issuer. There is no knowledge of the existence of any abuse of control is exercised by the Issuer.

15. Statements on Significant or Material Changes and recent Events and Trends

II. BUSINESS OF THE ISSUER

1. Corporate Strategy and Principle Activities

The Issuer's corporate strategy is to further increase the financing of E-Stream Energy and E-Stream Energy Management by way of the Silent Partnerships to support the business model of the E-Stream Energy Companies and thus to create higher revenue growth. The principle activities of the Issuer are limited to financing activities of the latter mentioned operative companies as well as to providing consulting services also vis-à-vis E-Stream Energy and E-Stream Energy Management.

2. Business Strategy and Competitive Position

According to the current business plan of the Issuer, it is intended mainly to manage actively its current subsidiaries E-Stream Energy and E-Stream Energy Management and, correspondingly, to act like a competitive market participant. The Issuer's does not give any statement about its competitive position.

3. Source of Income

Besides generating income by providing consulting services, the Issuer intends to generate the main portion of its revenues by way of the silent partnerships in its two current group companies, E-Stream Energy and E-Stream Energy Management, which, to the extent the E-Stream Energy Companies generate any distributable profit in the relevant period, provide each for a profit from the profit- and loss share on the nominal amount, which will be provided by the Issuer based on each (atypical) Silent Partnership that the Issuer has entered into in 2023 with its subsidiaries.

Save for this, the Issuer had a loss in its Profit and Loss accounting (P&L) for the last business year (2022).

III. DESCRIPTION OF THE GROUP COMPANIES

1. Company information about E-Stream Energy and E-Stream Energy Management

E-Stream Energy was registered in Germany for an indefinite duration on 2 December 2004 (under its previous name AHW Management International GmbH & Co. KG), a private limited

liability partnership, incorporated in terms of the German Commercial Code. The Issuer is represented by its general partner E-Stream Energy Management GmbH.

The General Partner E-Stream Energy Management GmbH was registered in Germany for an indefinite duration on 1 December 2004 (under its previous name AHW Management und Verwaltungs GmbH), a limited liable private company, incorporated in terms of the German Commercial Code.

2. Business activities of E-Stream Energy

(1) General business overview

E-Stream Energy is active in the field of battery cells, battery packages and battery systems and develops technologies for a variety of storage solutions. The main area of activity of E-Stream Energy is research and development (and as applicable well as the intended licensing of its technologies, processes and systems) as well and also the production of storage solutions for batteries, production and distribution on the basis of lithium-ion round cells (so-called battery packaging). On the basis of this technologies, energy storage systems (battery systems) are designed and developed as modules and as finished applications both for the mobile sector and for the stationary sector (home and industrial storage).

E-Stream Energy business division comprises two business segments: The first business segment is the wholesale of lithium-ion battery cells (so-called "round cells", especially in the industrial format "18650" and "21700") (so-called wholesale segment). The second business segment (so-called storage segment) comprises

- (i) the development of home and industrial energy storage systems that can charge batteries particularly efficiently and quickly due to their special fast-charging capability,
- (ii) the development of proprietary stationary charging hardware for the e-mobility sector, as well as
- (iii) the development of an e-bike battery for use in e-bikes and cargo bikes. The development of home and industrial energy storage systems as well as the e-bike battery is currently being carried out by the own R&D department (which is part of the storage segment).

Once the home and industrial energy storage systems and/or proprietary stationary charging hardware, which is currently in development, will have reached production maturity, it is planned to expand the storage segment to include an own production and subsequent distribution of the home and industrial energy storage systems as well as proprietary stationary charging hardware being developed.

Battery technology applied within E-Stream Energy's business activities

E-Stream Energy has developed a new type of modular round cell battery system with intelligent heat and charge management, which can store energy with minimal losses and absorb failures in a highly flexible way. It allows free scalability of the battery systems in terms of electrical and geometric parameters, offers the possibility of variable shaping and can withstand high loads in both charging and discharging processes, whereby very fast charging and discharging processes are possible in terms of time (so-called e.quikk Technology). In contrast to the battery systems currently available on the market, E-Stream Energy believes that the e.quikk Technology in storage systems achieves

- (i) a higher energy density in the storage of electricity,

- (ii) high charging and discharging currents are realized, which enable faster charging and discharging, and
- (iii) a high and consistent availability is achieved, which leads to a more fail-safe and efficient operation of the batteries.

Due to the modular design, the available installation space for energy storage can be used with maximum efficiency. The resulting flexibility at system level enables E-Stream Energy to develop optimized battery solutions tailored to the product specifications of the individual applications, products and product solutions.

At the end of the product's useful life (End of Life), further usability and environmentally friendly recyclability is achieved. Compared to prismatic cells, the use of round cells leads to a lower loss of power in case of a defect of one or more cells and has better thermal properties, which result in higher performance. In addition, in storage systems based on the e.quikk Technology round cells can be exchanged, as there are no fixed cell connections, and storage systems with the e.quikk Technology can be equipped with new round cells. This allows individual scalability and use of the batteries. Finally, the round cells used are easier and more sustainable to recycle. Due to their structure, the storage systems based on the e.quikk Technology can be refurbished easily by exchanging the battery cells which are at the end of their lifetime by new battery cells. The main advantages for the user of the respective storage system are

- (i) an increased lifetime of the overall storage system,
- (ii) reduced costs of ownership and operation and a more environmentally friendly and
- (iii) efficient recycling compared to systems that are more difficult to refurbish.

According to E-Stream Energy, the battery modules based on the e.quikk Technology have been successfully tested for efficiency and performance by independent accredited institutes (such as the Fraunhofer Institute IFAM, TÜV Rheinland LGA Products GmbH, BatterieIngenieure GmbH, and TechnoLab GmbH with respect to quick charging and SLG Prüf- und Zertifizierungs GmbH) with respect to mechanical tests such as vibration and shock resistance. Mandatory transport testing according to the United Nations 'Recommendations on the transport of dangerous goods manual of tests and criteria' (UN 38.3 'Lithium metal and lithium-ion batteries') to test mechanical and electrical safety has been performed and successfully accomplished.

(2) Application areas of the e.quikk Technology used by E-Stream Energy

As application areas for E-Stream Energy's technologies and products, E-Stream Energy has primarily identified the areas of e-mobility and portable and stationary battery storage (including charging infrastructure for electric vehicles).

The e.quikk Technology is suitable for use in the following battery segments:

E-Mobility in general

E-mobility refers to the use of electric vehicles, i.e. vehicles of all types that use an electric drive and carry an energy storage device. In addition to private motor vehicles and commercial vehicles (e.g. electric railways, city buses, delivery vehicles, etc.), this term also includes industrial trucks (e.g. forklifts, lift trucks or cleaning machines), e-bikes, electric motorcycles and other electrically powered vehicles.

Portable Applications

Portable applications are primarily the use of batteries and battery cells in wireless power tools as well as in wireless household and garden appliances. Batteries for electric wheelchairs or other mobility solutions for people with reduced mobility also fall into this category.

Portable Battery Storage

Transportable battery storage systems are storage systems that are designed for a regular change of location. These include, for example, mobile battery storage units for use on construction sites, at outdoor events, at camping sites or anywhere else where electricity is needed and no mains connection is available. Another conceivable area of application is the use as a mobile emergency power storage unit, which ensures the energy supply in the event of a power failure instead of conventional emergency power generators.

Stationary storage systems, e.g. for renewable energies

With the help of stationary battery storage systems, the unavoidable daytime and seasonal fluctuations in power generation that occur when generating energy from fluctuating energy sources (e.g. wind, sun) can be compensated for just as much as load fluctuations due to variable use of the supra-regional power supply. Stationary battery storage systems are also used for grid standardized and uninterruptible power supply (UPS), e.g. for data centers. The intermediate storage of electrical energy to enable electricity trading on exchanges is also made possible by stationary battery storage.

(3) Development and drivers of the battery market

The battery market, in particular the submarket for rechargeable batteries (also called secondary cells – in contrast to primary cells that cannot be recharged or can only be recharged to a very limited extent), is currently experiencing strong global growth⁶. Because fossil/primary energy reserves will not be sufficient in the long term and because aspects of environmental protection are also playing an increasingly important role, new concepts are currently being developed worldwide for the intermediate storage of energy in the mobile and stationary sectors.

According to E-Stream Energy, a key driver for the growth of the battery market is increasing electrification: more and more devices that were not previously powered by electricity or not at all are being equipped with electric drives. According to society's assessment, the development towards so-called "Industry 4.0", i.e. the intelligent networking of machines and processes in industry with the aid of information and communication technology, also plays a significant role.

Another important driver for the development of the battery market, in E-Stream Energy's view, is increased environmental awareness and the resulting government measures to reduce CO2 emissions. In October 2014, the European Council adopted a framework for climate and energy policy by 2030 to meet the long-term objective of reducing EU greenhouse gas emissions by 80% to 95% by 2050 in the most cost-effective way possible. Within this framework, the following objectives are anchored: a binding reduction of greenhouse gas emissions within the EU by at least 40% by 2030 compared with 1990 emissions, a binding increase in the share of renewable energies in total final energy consumption to at least 27% and an increase in energy efficiency by at least 27% compared with a development without further efficiency efforts⁷.

Car industry

In the passenger car sector, an EU Regulation to reduce CO₂ emissions from new passenger cars entered into force in 2009, providing for a phased reduction of CO₂ emissions up to 95 g/km from 2020⁸. In March 2019, the EU Parliament approved new targets for average CO₂ emissions from new cars and trucks in the EU to accelerate the transition to low-emission and zero-emission vehicles. The aim is to reduce average CO₂ emissions by 37.5% for new passenger cars and 31% for light commercial vehicles by 2030 compared with the figures for 2021⁹. European Parliament legislative resolution of 16 March 2019 on the proposal for a regulation of the European Parliament and of the Council setting emission performance standards for new passenger cars and light commercial vehicles as part of the Community's integrated approach to reduce CO₂ emissions from passenger cars and light commercial vehicles.

In February 2023, the European Parliament voted to approve a new law banning the sale of petrol and diesel cars from 2035. The new rule – part of a larger effort to combat climate change in the EU – will speed up the EU's transition to electric vehicles. Cars currently account for around 15 % of all CO₂ emissions in the EU. The legislation demands that carmakers cut carbon emissions from new vehicles by 100 per cent. In practice, this means no new conventional fossil fuel-powered vehicles will be able to be sold from 2035 onwards. The vote has to be approved by the European Council before the petrol and diesel car ban is made official.

Breakthrough of renewable energies in the German energy mix

According to the results of the Energy Balances Working Group, renewable energies accounted for 25.9% of total German energy production in 2014, of which 5.8% was attributable to photovoltaics. Renewable energies have meanwhile replaced lignite as the main source of energy in the energy mix¹³.

In the years 2014 to (and including) 2018, the share of renewable energies in photovoltaics in Germany has been as follows according to the Energy Balances Working Group¹⁴:

year	Billion kWh	Share of gross electricity generation production in Germany (in %)

As a result of the successive reduction or elimination of feed-in tariffs for self-produced electricity from renewable energies, E-Stream Energy believes that lithium-ion-based battery storage is a technical solution that will lead to a further sharp increase in the number of new systems in a large number of countries (although these are at different stages of promoting energy system transformation).

The amount of electricity generated and fed into the grid in Germany from renewable energies increased significantly in 2022 compared to the previous year. The electricity generated from renewable energies thus rose to a share of 46.3 % of the total amount of electricity fed into the grid. At around 24 %, wind power had the highest share of the amount of electricity fed into the grid from renewable energy sources in one year.

(4) Corporate strategy

Achieving strong growth

E-Stream Energy intends to benefit from the strong dynamics in (i) the electrification of drive technologies in the automotive industry (e-mobility), (ii) in the area of stationary energy storage systems based on modular systems for use in the home and industrial sector, including in the area of uninterruptible power supply (UPS), and (iii) in the area of mobile and hybrid systems on the basis of the product portfolio it is aiming for, and to win new customers in the process.

Based on the degree of complexity of the different sub-areas as well as the requirements for certification in the automotive sector, cooperation with other suppliers is intended, so that offering solutions (know-how and IP, if applicable) as well as sub-components on the basis of own solutions can be considered.

A further objective of E-Stream Energy is to build up product manufacturing capacity and cooperations in Germany and, depending on various factors, internationally as well as to enter the market, particularly in Europe and subsequently the United States of America and Canada, and possibly Japan, which should increase demand for products.

E-Stream Energy assumes that increasingly high-margin industrial applications can be realised through substitution effects (replacement of lead-acid battery systems by its own Li-ion battery

systems). According to E-Stream Energy, application examples for this include stationary applications inter alia in data centres and other business-critical applications. According to E-Stream Energy, initially higher customer investments in future Li-ion battery systems should pay off in favour of the customers within the scope of the Total Cost of Ownership (TCO) consideration through longer product life and reduced maintenance costs.

Licensing of technologies, Know-How and processes in the field of e-mobility

E-Stream Energy intends to achieve certifications in the stationary energy storage and automotive sector and to enter into co-operations (including contract production) in order to achieve the fastest possible and broadest possible market penetration in mass markets.

Development of safety components for lithium-ion battery storage for e-mobility

In the field of e-mobility, vehicle manufacturers and OEMs are faced with completely new requirements with regard to product safety in comparison to classic powertrain systems through the use of high-voltage systems. Against this background, E-Stream Energy intends to improve product safety through special solutions to avoid and, where not otherwise possible, through the controlled destruction of battery systems and to develop and offer further solutions in addition to the existing solutions.

Circular economy with 2nd Use Applications and Recycling

The E-Stream Energy's technology delivers in terms of re-use of battery cells in 2nd Use Applications significant advantages in non-destructive separation of battery cells from battery packs to perform in the life cycle of the battery cells till recycling. Regulatory wise the EU Council adopted on 10 July 2023 a new regulation on batteries and waste batteries, which will regulate the entire life cycle of batteries – from production to reuse and recycling – and ensure that they are safe, sustainable and competitive¹⁰. The new rules aim to promote a circular economy by regulating batteries throughout their life cycle. The regulation therefore establishes end-of-life requirements, including collection targets and obligations, targets for the recovery of materials and extended producer responsibility.

The regulation provides that by 2027 portable batteries incorporated into appliances should be removable and replaceable by the end-user. Light means of transport batteries will need to be replaceable by an independent professional.

3. Business activities of E-Stream Energy Management

The sole business of the General Partner is acting as general partner of E-Stream Energy. E-Stream Energy Management represents E-Stream Energy as general partner with unlimited liability, which in turn is represented by its managing directors, each of whom has sole power of representation.

E-Stream Energy Management as General Partner has responsibility for the management of the on-going business and administrative affairs of E-Stream Energy.

This Base Prospectus contains forward-looking statements. Forward-looking statements are all statements that do not relate to historical or current facts and events. This also applies to statements in the "Risk Factors" and "Business Review and Prospects" sections and wherever the Base Prospectus contains information about the Issuer's future financial performance, plans and expectations regarding the Issuer's business, growth and profitability and the economic environment to which the Issuer is exposed. The forward-looking statements are based on the current assessment made by the Issuer to the best of its knowledge. Therefore, it is important to read in particular the sections "Risk Factors", "Business Review" and "Business Review and Prospects" which contain a detailed description of factors that may affect the business development of the Issuer and the industry in which the Issuer operates.

The forward-looking statements are based on the Issuer's current plans, estimates, forecasts and expectations and on certain assumptions which, although the Issuer believes that they are reasonable at this time, may subsequently prove to be incorrect. Many factors may cause the actual performance or earnings or performance of the Issuer to be materially different from any future performance or performance expressed or implied by such forward-looking statements.

These factors include, among others:

- changes in general economic, business or legal conditions,
- political or regulatory changes,
- changes in the Issuer's competitive environment,
- other factors discussed in more detail in the section "Risk Factors", and
- factors that are not known to the Issuer at the present time.

If, as a result of these factors, risks or uncertainties arise in individual or several cases, or if assumptions made by the Issuer prove to be incorrect, it cannot be excluded that actual

results may differ materially from those described in this Base Prospectus as assumed, believed, estimated or expected. For this reason, the Issuer may be prevented from achieving its financial and strategic objectives.

Furthermore, information on the market environment, market developments, growth rates, market trends and the competitive situation in the areas in which the Issuer is active is based on estimates made by the Issuer. Information derived therefrom which has not been obtained from independent sources may therefore differ from the estimates of the Issuer's competitors or from future surveys by independent sources.

When the Base Prospectus ceases to be effective, the offer may be continued in accordance with the relevant Final Terms and on the basis of a Successor Base Prospectus. Publication of a Successor Prospectus shall be made in accordance with the details set out in the relevant Final Terms.

In the case of a public offering of Instruments under this base prospectus (at the same time the **Original Base Prospectus**) the relevant Final Terms may provide for a succession of the public offering of the Instruments after the validity of this Base Prospectus, if a successor prospectus is published.

In the event of a public offering being continued under a Successor Base Prospectus, the relevant Final Terms, including the relevant summary, if any, shall be read in conjunction with the Successor Base Prospectus, which means that, in such case, each reference to the Base Prospectus made in the relevant Final Terms shall be deemed to constitute a reference to the relevant Successor Base Prospectus, with the exception of the security-specific terms and conditions of the relevant issue which will continue to be governed by the Original Base Prospectus. **Successor Base Prospectus** means the most current applicable base prospectus, specifying the Instruments to be included in the continued public offering and incorporating by reference those parts of the Original Base Prospectus which are required for the relevant issue of Instruments.
